WIFE LEADS RAID; WINS DIVORCE

Brockton Mate of Rich Manufacturer Finds Latter and Actress in Hotel

Brockton, Feb. 20.—Here is a case of where roses wrecked a romance. For it was the arrival of huge bunches of them that aroused suspicion that led to the finding of a letter that prompted the trailing of a husband to a Providence hotel.

Eugene H. Dorr, president of the Standish Worsted Company of Plymouth, wealthy, widely respected in manufacturing circles, was confined to his palatial home for three weeks with an injury to his shoulder. He is forty-seven.

A messenger arrived with a big box. Inside were the roses. They were addressed to Mr. Dorr. His wife, Lillian, glowed with pleasure to think some one thought so much of her handsome mate.

WIFE IS SUSPICIOUS.

There was nothing to indicate the sender. This puzzled Mrs. Dorr and her husband's explanation "probably some business friend" sufficed until a few days later came more roses. Other arrivals fanned the flame of suspicion and so Mrs. Dorr glanced at some notes that had been thrown carelessly one side.

They were signed "Alice." They were addressed "Darling" and "Sweetheart," and they had been sent to her husband.

So she consulted James Woods of

Germany Owes U.S. $256,490,825 for 'Watch on Rhine'

Washington, Feb. 20.—Latest compilations of costs of the American army of occupation on the Rhine show that on October 31, 1922, the German government owed the United States $256,235,825. Estimates of costs from October 31 to February 1, 1923, bring the total to $256,490,825.

Assistant Secretary of the Treasury Wadsworth, designated to represent the United States on the inter-allied board to adjust the claims against Germany for maintenance of occupational forces, sails today from New York to France.

BANK CLERK IS SEIZED IN BIG THEFT

The long arm of the law stretched out today and wrested Edward F. Gilmore from the side of the woman for whom he is said to have stolen $19,400 in bonds from the State National Bank of Lynn. He was caught in Indianapolis.

Gilmore, an impressionable youth of twenty-four now, was bond clerk in the Lynn bank. He had a great weakness for women but his romances usually falled for his small pay did not permit him to entertain them.

Numerous women are said to have had played a part in the affections of young Gilmore, but there came a day when "the only girl" appeared in the picture and the boy succumbed to her charms.

It was but shortly after this that his landlady was surprised to find he had not returned to his room at No. 4 Ireson street, Lynn. About the same time bank officials learned that he was missing from the city.

Gilmore is believed to have gone to Canada and thence to the Middle-west. The woman with him is said to be the former Lynn girl.

QUIZ BOOKIE ON MYSTERY WOMAN

Attorney John P. Feeney Joins Counsel for Accused Gamblers at Theft Trial

The name of a woman, Margaret Maher, was mentioned today for the first time when the trial of Humphrey Lane and Robert L. Finn, bookmakers, was resumed before Judge Bishop and jury.

Finn and Lane are charged with conspiracy to defraud Paul F. Downey, former discount clerk of the Federal Trust Company, of $127,000 which Downey stole from the bank and says he lost playing the races. Finn and Lane are also charged with larceny of this money.

John F. Feeney came into the case today as added counsel for Finn and Lane, so far represented by Attorney John F. McDonald.

LANE AGAIN ON STAND.

Lane was on the stand again for continued cross-examination by assistant District Attorney Maurice Caro, who started to question him about a talk Lane was alleged to have had with Downey in reference to certificates of stock Lane was said to have.

"Did you tell Downey about Margaret Maher?" asked Caro.

"I don't know any such woman," replied Lane.

When Mr. Caro started to ask more questions about the alleged talk on stock certificates, Attorney McDonald objected. There was a conference of counsel at the bench. Attorney Feeney made his first active appearance in the case by taking part in this conference.

LANE ADMITS RECORD.

The court instructed the jury to disregard the testimony Lane had given about the conversation in reference to the stock certificates.

Then the State introduced Lane's criminal record. He admitted that he was sentenced in June, 1912, to four months for larceny from the person and, on May 2, 1913, to eighteen months for two more larcenies and an attempted one.

BETRAYED FUREY TO SAVE MATE

Wife of Rum Pirate's Lynn Pal Acted to Protect Her Fugitive Husband

Details of the betrayal of "Big Ed" Furey, alleged accomplice of "Nicky" Arnstein in $5,000,000 Wall Street bond thefts, and modern Captain Kidd were learned today by the Boston American.

A woman, fearing for the safety of her husband, gave the police the information that led to Furey's arrest while he was in his pajamas in the lodging house at No. 345 Franklin street, Lynn.

She is Mrs. Edward Taylor, of Nahant, wife of Furey's one time pal, who was once an ensign in the navy and widely known in Nahant and Lynn.

Taylor, now being sought by police and Department of Justice agents, is accused of having had a part in the seizure of $50,000 worth of fancy liquors from the hold of a rum-running schooner in Nahant Bay and then with having struck down the skipper of the smuggler with an iron bar.

OTHER ARRESTS ARE DUE.

Police inspectors today admitted that when they went to the Taylor home the former ensign's wife, fearing he was to be jailed and that she could save him from going behind bars, sent them to get the leader of band.

Furey is due to have some company at the Federal Building.

Another arrest is promised in the roundup of the gang said to be

Continued on Page 3, Column 2.

GARMENT WORKERS STRIKE

2,500 Employes Quit in 150 Boston Shops to Enforce 10 Per Cent. Pay Raise

Twenty-five hundred Boston garment workers went on strike today for higher wages and better working conditions.

More than 150 shops manufacturing women's wearing apparel were effected.

The strikers assembled at Paine Memorial Hall and at No. 15-17 Essex street to appoint pickets to patrol the shops.

Of those who went out today 2,000 are dressmakers and 500 coatmakers. They demand an increase of 10 per cent. in wages, establishment of a minimum wage and establishment of an arbitration board to adjust disputes. The minimum wage asked is $23 for girl finishers, $30 for operators and $44 for cutters.

The order to strike was issued following a meeting in Lorimer Hall after a committee reported that none of the manufacturers to whom letters had been sent requesting conferences had replied.

WESTERN UNION GIVES HELP $1,775,000 BONUS

New York Feb. 20.—The Western Union Telegraph Company today distributed to 35,000 of its 54,000 employees $1,775,000, or 50 per cent of its 1922 earnings on its investment in excess of $11,500,000. The award is equal to 47½ per cent of each employee's salary for the month of July, 1923.

Messenger boys received a flat payment of $17.50 each. The company inaugurated the income participating plan in 1920.

PREDICTS OWN DEATH WILL COME TONIGHT

Bath, Me., Feb. 20.—William H. Rouse, aged hermit and physician, has announced he will die before midnight tonight. Dr. Rouse says both his mother and his grandfather died just before their 73th birthday. He expects to do the same today. The doctor is in good health and cheerful.

Release Thaw for Visit to His Mother

Philadelphia, Feb. 20.—Harry K. Thaw, slayer of Stanford White, was granted a temporary release from the Pennsylvania State Hospital for the Insane here today by Judge J. Willis Martin. Thaw, accompanied by special guards, will be permitted to visit his mother in Pittsburgh, but must return on March 3.

SUGAR GOES TO 9 CENTS A POUND

Dealers Blame "Shortage" Despite Government Statement to the Contrary

Retail prices of sugar in Boston and other New England points leaped to a new high mark of nine cents a pound today, following a corresponding increase in wholesale prices. Dealers blamed a "sugar shortage" for the rapid rise.

Despite government statements that no shortage exists in the sugar market, wholesale prices have shot up in a startling manner. Wholesale prices per hundredweight are $8.75 as compared with $8.00 last week. Even higher prices are predicted.

Prices in Newport, R. I., jumped from $7.40 per hundredweight to $8.30 (retail). Other cities and towns reported corresponding increases. Retailers and wholesalers who have large supplies on hand are reaping a harvest.

Today's prices are quoted by wholesale houses in Boston without apology. "Take it or leave it," is the edict.

WORLD CODE FRAMED FOR AIR AND RADIO

Washington, Feb. 20.—(By International News Service)—A new legal code governing use of aircraft and radio in time of war has been compiled by the International Commission of Jurists appointed under the Washington conference agreement to revise the rules of warfare, it was announced at the State Department today.

FUEL CRISIS HERE AT ACUTE STAGE

The salve handed out in official statements of railroads and through the Emergency Fuel Commission has not had the slightest effect on frost-bitten New England.

Rail movement of coal is practically at a standstill. Assistant Fuel Administrator Herbert McDonald of Boston warned the city today that the coal situation is worse than ever before.

With practically no hard coal in Boston and no shipments arriving by rail, City Fuel Administrator Everett Morss called a meeting of his committee to see what could be done.

Meantime a new appeal has been made to Washington, through Senator Walsh.

Many of the Worcester coal dealers have shut down completely. In Pawtucket hundreds of families are without coal and dealers are besieged daily for supplies they cannot deliver. Many factories will close unless there is immediate relief. Equally bad conditions prevail all over New England.

Less than two days' supply of coal was reported in the yards of Boston coal companies Saturday. Week-end receipts were reported today to have been negligible.

PAID BOY TO DELIVER RUM; JAILED

Lawrence, Feb. 20.—Seymour Douglas of the Douglas Grain and Malt Company was today sentenced to 30 days in jail for employing a high school boy to distribute moonshine liquor. The boy, Max Peitz, 14 years old, told the police Douglas paid him $6 a week to distribute his illicit product.

HARDING ACCEPTS REILY'S RESIGNATION

Washington, Feb. 20.—President Harding has accepted the resignation of Governor E. Mont Reily of Porto Rico, effective April 1, it was announced officially.

THE WEATHER

Boston and vicinity—Snow late this afternoon and tonight; Wednesday fair; not much change in temperature; increasing easterly winds, shifting to westerly by Wednesday.

Sun rises at 6:33; sets at 5:29.
Moon sets at 10:10 p. m.
High tide at 2:15 a.m.; 2:34 p.m.
Temperatures: Maximum, 25 at 11 a. m.; minimum, 14 at 8 a. m.; average, 19.5.
Light all vehicles at 5:53 p. m.

PRICE OF GASOLINE KEEPS ON ADVANCING

Standard Oil of Louisiana has just advanced gasoline ½ cent a gallon making filling station price 20½ cents and tank wagon 19½ cents. Standard Oil of Indiana has raised gasoline 1 cent a gallon throughout its territory, making Chicago tank wagon price 20 cents and service station price 23 cents.

HEATLESS TOWNS IN NEW ENGLAND CRY TO WASHINGTON FOR COAL

HARDING IS ASKED TO TAKE A HAND IN FUEL CRISIS

Continued from First Page

100 pounds and under are paying from $25.60 to $30.00 a ton for coal of a poor variety. Many are forced to burn wood purchased by the bag.

25,000 TONS TO CANADA.

All of which emphasizes the irony of the report today that within the past week 25,000 tons of hard American coal passed over the International bridge at Buffalo en route to Canada.

New England industries are not as neglected as New England householders. In Portland, Me., it looked as if some industries would shut down unless coal came. Today 20,000 tons of coal—mostly soft coal—arrived in Portland Harbor in five vessels, consigned to Maine industrial plants.

GIVES UP 500 TONS.

The situation in Massachusetts is illustrated by what has happened in Springfield. The supply of coal being exhausted in that city, and no coal being delivered, the United Electric Light Company voluntarily turned over to the city 500 tons of high-grade bituminous coal.

City administration officials and representatives of relief agencies are conferring today on the best method of distributing this coal.

It looks like an excellent move, and perhaps the Edison Company in Boston would like to emulate the example of the Springfield company and turn a few hundred tons of coal over to the people. The suggestion is respectfully submitted to the company and to Mr. Phelan, the administrator.

CITY BUYS $7,000 WORTH.

Or perhaps Boston can do what Chicago has done. There the Board of Aldermen appropriated $7,000 to buy coal to be distributed to the people at cost in hundred and two hundred-pound lots.

APPEALS TO HARDING.

Representative Treadway of this State called upon President Harding in an attempt to secure relief for New England. He laid before the President the serious situation here. When he left the White House tonight and probably Wednesday Representative Treadway declared that the President would take the matter up with the Interstate Commerce Commission.

That organization, meanwhile, had been asked to state the steps it was taking to get coal for freezing New England. The commission authorized a statement which declared that unofficial priority status at the railway gateways to New England was being given coal, and that it was the sentiment of the commission that the measures it had taken will be sufficient to break the shortage.

(General Fuel) Commissioner Waddleigh, commenting on this report from the commission, said: "It is up to the commission to get coal to New England." Senator David I. Walsh declared that the Interstate Commerce Commission has been vested with full power to secure relief for New England but had done absolutely nothing for three days.

ICE-BREAKER URGED.

He characterized the situation "shameful." He read into the records of the Senate, telegrams received from Massachusetts towns which are without coal. Milford, Medway, Medford and Ashburnham officials sent telegrams to Senator Walsh.

The Coast Guard cutter Acushnet began at noon today to attack the frozen channels in Boston harbor. The start was made in the entrance to the Neponset river, in order to deliver much needed coal to Milton and Quincy coal yards. She also was to break out channels in Quincy bay. After finishing here the Neponset was to go to Salem, where vessels with cargoes of coal and oil were waiting for a chance to dock at Salem and Beverly.

The town of Weymouth asked the navy yard for the loan of a steel tug or a revenue cutter to cut a channel in the docks of the Quincy Coal Company in order that a barge of coal may be towed in. The last ton of coal in Weymouth was distributed in 100 and fifty-pound lots by the fuel administrator.

Providence officials have made a similar request to the Navy Yard. The Pawtucket River is frozen and that town and Providence are on emergency fuel rations.

Weather predictions for today were slowly rising temperature, followed by snow this afternoon or tonight and probably Wednesday.

CABLE BRIEFS

London—Queen Mary has given Lady Elizabeth Bowes-Lyon a "sunburst" diamond brooch, the stones being set in the form of a rising sun. Queen Mother Alexandra also presented Lady Elizabeth with a piece of jewelry.

Warsaw (By A. P.)—General Joseph Haller and the Radical Deputy Koscialkowski, also a major in the Polish army, fought a duel with inburgi in neither party. The duel eliminated a row over the assassination of President Narutowicz.

SIX KILLED IN WRECKING OF FAST MAIL

By International News Service.

Sayre, Pa., Feb. 20.—Six men were killed today when a fast mail train at Rummerfield, twenty-seven miles east of this place, was wrecked in a collision.

The dead are:

William Schollenberger of Easton, Pa., engineer of the mail train; O. W. McDaniels of Athens, trainman on the mail train; O. L. Culver of Sayre, engineer of the freight; John Nodolin of Easton, fireman of an engine which was being towed by the freight; Joseph Fox of Sayre, fireman of the mail train. William Kasper was not instantly killed, but died while he was being taken to a hospital.

The cause of the wreck has not yet been determined. Walter Long, assistant signal superintendent of the Lehigh Valley, who arrived on the scene a short time following the accident, said all signals were working properly.

In the crash the engine of No. 17, travelling at sixty miles an hour, was derailed, while the caboose of the freight was entirely demolished. One car of the mail train was also derailed.

No. 17 is one of the fastest mail trains on the Lehigh Valley system and runs from New York to Buffalo.

ALLIES DEPORT MANY GERMAN OFFICIALS

London, Feb. 20.—Premier A. Bonar Law informed the House of Commons today the government regards it unnecessary to obtain the views of the United States concerning French occupation of the Ruhr.

Essen, Feb. 20 (By International News Service).—Scores of German customs officials, who had refused to work under French supervision, were ordered expelled today by the Rhineland Commission, sitting at Coblenz.

French authorities granted permission to Essen to organize a civilian police force of 800 men. All must be residents of the city. They may carry pistols if granted permits by the French.

Disorders have been quelled somewhat by inclement weather which is keeping German strikers indoors. A cold wave accompanied by snow has swept the district.

Col. Hartz Commands U. S. Squad on Rhine

Coblenz, Feb. 20 (By International News Service). — Colonel W. W. Hartz today assumed command of the handful of Americans left here following the departure of Major-General Henry T. Allen, who will sail for home from Bremen on the liner George Washington tomorrow with twenty other officers and families and sixty-one enlisted men.

French Have Expelled 338 German Officials

Paris, Feb. 20 (By the Associated Press).—A few statistics, given to the Foreign Relations Committee of the Chamber of Deputies by Premier Poincare, were in the possession of the French public today.

Expulsions of high German officials from the occupied region, the Premier announced, total 338, of whom 25 have been Rhineland functionaries.

Seventy trains a day are being operated in the Ruhr, he said, where as before the occupation the total was 1,295, divided nearly equally between freight and passengers. The Premier asserted that the decrease was due "to disturbed conditions caused by orders from Berlin." French railway workers in the occupied area number 8,840, while 7,000 cars of coal have been sent to France and Belgium. The yearly production of the occupied district is estimated at 90,000,000 tons.

Germans Resist to Bring About Parley, Says Wirth

Berlin, Feb. 20 (By the Associated Press).—According to the Vossische Zeitung, former Chancellor Wirth told a meeting of Centre Party members at Ulm resistance in the Ruhr was aimed at bringing about negotiations.

The German government has sent a note to the French, British and Belgian governments and the Rhineland Commission at Coblenz vigorously protesting against the expulsion of German officials from the occupied territories.

The note also protests against what is described as the brutal manner in which the expulsions were carried out.

The Premier asserted that 2,800 square kilometres of the Ruhr basin are now held by the allies, comprising all but 500 square kilometres of the territory in the valley. All but 200 of the 14,500 coke ovens in the Ruhr have been taken over, the Premier said.

TODAY'S NEWS IN EUROPE

GERMANY

Essen—Scores of German customs officials, refusing to work under French supervision, were ordered deported today by the Allied Rhineland Commission, sitting at Coblenz.

LITHUANIA

Kovno—The Russian Soviet government has protested the entry of the Poles into the neutral zone between Poland and Lithuania.

FRANCE

Paris—Premier Poincare announces 2,800 of the 3,500 kilometers of German soil in the Ruhr are now occupied by the Allies with all but 200 of 14,500 coke ovens in the valley.

CHINA TO STAND AS REPUBLIC, SAYS SUN

Hong Kong, Feb. 20.—(By the Associated Press) — Sun-Yat-Sen, here on his way to Canton to assume his old place as head of affairs in South China, was guest of the University Union today. His arrival at the gate of the university, where as a youth he attended Queen's College, was the signal for an outburst by cheering students.

"This university," said Dr. Sun, "is my intellectual birthplace. More than a thousand times the question has been put to me when and how I got my revolutionary ideas. I can only answer in this very place, the colony of Hong Kong. The difference between the Colonial Government of Hong Kong and the Government of China so impressed me, the orderliness and security of the former contrasted so with the misgovernment of the latter, that it led me to become a revolutionist.

"When I became a revolutionist, people began to say all sorts of things about me. But, after all, China's revolutionist is but a modern European politician.

"The Chinese Republic now has been established twelve years and it means to stay. It will be everlasting."

HANDY BAG COUPON

No. 11 Clip It Now!

Bad—Getting Worse. "A Few Killings" De Valera Man Hunt Study Saint Paul

—By Arthur Brisbane—

Copyright, 1923, Star Co.

THE SAME bad conditions in Europe, getting worse. French money is up a little, German money down a little. Speculators think the Ruhr situation is better for the French.

And the scheme of printing counterfeit marks to do the Allies purchasing in the Ruhr may work.

There is guerilla fighting here and there, engineers' train in a wreck, again a few killed.

POLAND AND Czecho-Slovakia, as you will see by the headlines this morning, are alleged to be planning a war move against Germany to take and divide a little German territory. Why leave all that to France, is the natural question?

THE GERMANS are said to be "rushing experts to machine gun factories hidden in the forest." That may be so, but probably isn't. It takes more than machine guns to carry on modern war.

IT WAS suggested here two or three days ago, when the Allies gave the port of Memel to Lithuania with permission for Poles to go in and out, that the arrangement would cause Polish-Lithuanian fighting before long. That fighting has already begun. Again "a few killed."

Headings reading about "a few killed" are like sparks that eventually make a real fire. The fire will come.

EUROPEAN HAPPENINGS show how little the League of Nations amount to. League representatives talk, argue with Turks, they pay little attention, and each nation does what it pleases.

France seizes the richest part of Germany in spite of England's protest, to collect money by force.

Might is right, or at least does as it pleases, in war and after, even with a high sounding League of Nations arrangement.

IN IRELAND the armistice ends and the Free State begins a careful man-hunt for De Valera. A fighting man hard to discourage, De Valera got some of his wonderful combative qualities from his Irish mother and some of the shrewdness shown in his dealings with England from his Jewish-Portuguese ancestors, on the father's side.

THE LATE Oliver Belmont, proud of his Jewish blood, used to say "there is more or less Jewish blood wherever you find great ability." That may be exaggeration, but Jewish blood is conspicuous in certain able and commanding men at this moment. Kemal Pasha, for instance, is a Jew converted to Islam. He was the first to lead his nation back from defeat and successfully defy the Allies.

TROTZKY, ANOTHER Jew, running the Russian army and Russian affairs generally, has been able to make a joke of the Allies and their military efforts to coerce Russia. There is great power to resist punishment in the Jew.

Studying the life of St. Paul, that determined Jew from Tarsus who carried Christianity from Asia, where it would not grow, into Europe, you get the whole story. His face marked with suffering, body scarred with torture, Paul conquered in spite of epilepsy, as did Caesar and Napoleon.

He had studied in Jerusalem under Gamaliel, intending to rabbi, before he became converted to Christianity, and he knew the severity of Jerusalem's punishment. Five times, as he tells you, he received the maximum number of lashes. In those terrific floggings ordered by Jewish tribunals, that often produced death. None of that discouraged him.

DE VALERA, who has some of the blood that made Paul undertake the conquest of Greece and Rome and plan an attack on Spain, would be hard to discourage. It took the Roman executioner to check Paul's activities.

It will probably take a Free

GIRL BETRAYS NORTH SHORE RUM PIRATE

MISS ROSE MAGUSON

After "Big Ed" Furey had been betrayed to the Lynn police by a Lynn girl with whom he had quarreled, Miss Maguson identified him as the leader of the gang who, impersonating Internal Revenue officers, stole a large quantity of liquor from the wine cellar of the Summer residence of her employer, Joseph Bateman, a Boston banker, at Clifton, near Marblehead, last Summer.

QUARREL LED TO BETRAYAL OF RUM-RUNNER

Continued from First Page.

headed by the former pal of "Nicky" Arnstein. His name is being withheld until he is formally arrested, but it was learned today he had been identified by one of the victims.

The woman who identified this man said he was one of a group who raided her home in the guise of revenue inspectors and got away with several cases of pre-war booze.

She is Mrs. Annie Livingston of South Sudbury.

FAILED TO IDENTIFY.

Furey was brought before her. She said she could not identify him as a member of the gang.

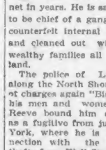
Furey, alias Ed Miller, alias "Big Bill," is considered the biggest prize landed in the Federal net in years. He is said by the police to be chief of a gang that displayed counterfeit internal revenue badges and cleaned out wine cellars of wealthy families all over New England.

The police of Lynn and towns along the North Shore have a series of charges again "Big Ed" Fury and his men and women pals. Judge Reeve bound him over in $10,000 as a fugitive from justice from New York, where he is wanted in connection with the $5,000,000 bond thefts from Wall Street by "Nickey" Arnstein and accomplices.

IDENTIFIED BY MAID.

Additional bail of $50,000 was fixed in the case involving charges of impersonating a Federal officer on many occasions.

Before Furey was taken from Lynn to East Cambridge Jail he was positively identified by Miss Rose Maguson at Lynn police headquarters, where he had been taken by Lynn Police Inspectors William K. Wallace and Voorhees Remsen.



Police Inspector Voorhees Remsen

Miss Maguson without hesitation picked Furey out of a line of seven or eight men as the leader of a gang that robbed the wine cellar of Joseph Bateman, State Street banker, at the Bateman Summer mansion in Clifton, near Marblehead, last August, of $10,000 worth of liquor.

OTHER VICTIMS.

The Lynn police claim that Furey and his gang robbed a Swampscott man of twenty-nine cases of Scotch whisky and $400.

The police of Lynn and towns along the North Shore as far as Gloucester are today checking up liquor robberies that occurred in homes and on the highway, with the hope that they can be linked with Furey and his band.

A rum-running schooner from the provinces unloaded a $50,000 cargo at Nahant. It was cached in a dance hall temporarily. Consignees planned to come for it, but before these plans were carried out by the purchasers "Big Ed" Furey and his gang age reported to have swooped down at night and appropriated the liquor, which they sold.

SLAYER SAYS HE FIRED TO STOP HOLDUP

To save himself from two men who were menacing him with a knife and a revolver, after demanding his money, Severino Calabretta, twenty-three years old, of No. 869 Broadway, Revere, whipped out his gun and fired.

Felix Capporalle of Saugus, one of the alleged holdup men, crumpled on the street, dead. His brother Rocco Capporalle dropped with three bullets in him.

That was the story told in Chelsea Court today to Judge Samuel Cutler by Calabretta, who was charged with murder and assault with intent to kill.

Calabretta, who has been in this country nine months, said he was invited by the two brothers to "take a little walk." Suspicious, he took along his gun.

At Broadway and Fisk street, Revere, the two brothers demanded money. He refused and drew his gun and fired.

He pleaded not guilty to both charges and the case was continued.

HALTS SENTENCE OF MRS. RAIZEN

New York, Feb. 20 (By International News Service).—Supreme court Justice Cropsey announced today he had postponed sentencing Mrs. Lillian S. Raizen until February 27.

A large crowd of curious collected in the corridors to learn what sentence would be imposed on Mrs. Raizen, who was convicted Sunday of murder in the second degree for the shooting of Dr. Abraham Glickstein, Brooklyn physician. Police had great difficulty in handling the crowd.

Mrs. Raizen, bordering on collapse, was almost carried from the patrol wagon. She was in the custody of two matrons. After formalities of closing court were concluded Justice Cropsey announced: "I will not sentence Lillian Raizen until one week from today, Feb. 27."

Albert Conway, counsel for Mrs. Raizen, declared that he had asked the postponement in order to prepare a number of legal matters he desires to have ready for presentation immediately after Mrs. Raizen is sentenced. These include an immediate appeal from conviction.

KOREANS, RESTLESS, ADOPT GANDHI PLAN

Seoul, Korea, Feb. 20.—(By the Associated Press)—One of the recent symptoms of the unrest is an attempt to copy the Gandhi movement in India. Koreans are being urged by leaders to use only articles of Korean manufacture and to aid otherwise in non-cooperations. It is not difficult to perceive a feeling similar to that which caused the trouble in 1919 when Koreans attempted to gain the independence of the country from Japan.

GRON BARES HIS NEW ROMANCE

Harmony of Two Persons Seeking Same Mission Led to Wedding, He Says

By Cosmopolitan News Service.

New York, Feb. 20.—"Ulysses going down into hell suffered no such tortures as I during the dark days when I fought my wife's divorce suit.

"The black forces of hatred that surrounded me then and filled me I escaped only after I had gone to a cosmic retreat in the Rockies, far above sea level and the human passions, in the quiet vastness of the sky and the silence of majestic mountains.'

Nils Gron, Danish diplomat, New York, Boston and London society clubman, recently divorced from Madaline Masters Gron, sister of Edgar Lee Masters, the poet of Chicago said today in telling how he came to marry Saidee Overman Gowan-Dusenberry last Thursday within two months after his divorce.

"It was the harmony streaming from two persons pursuing the same purpose which led us together," he said, in telling of the sudden marriage to the Concord, N. C., widowed society beauty whom he said he had met only twice before meeting her last week again in this city.

SAME MISSION.

"It was because my wife had a mission; because she went to the Temple of Carnac in Egypt, to Jerusalem, to Bethlehem, to the Himalayas—those very places I myself visited to prepare myself, that we were drawn together," he said.

"You speak of love. Love between a man and a woman, as it is generally understood, is nothing but passion or attraction. Marriage is usually based on those elements or on convenience of money or what not. But the true union between two people comes from having the same purpose, the same mission.

"As I fled from the turmoil of the divorce case in Portland, Me., to the Rockies for peace, as I meditated there, I realized that this woman and I had this mission in common.

"I believe in the marriage institution even more firmly than in real love. I hold it in more reverence than even the person I am married to. I would fight to the utmost to preserve the sanctity of the home, to preserve the home for my nine-year-old boy, as I did in Portland.

"We of the northern countries are imbued with a religious and a sentimental strain, and our reverence for the marriage ties are much more deeply rooted in us than perhaps Americans can understand.

WOMAN WITH PURPOSE.

"My wife and I were married last Thursday. I met her a year ago. I saw her twice before she went to Europe and Asia in fulfillment of a purpose. Without a purpose a woman is nothing. Society, bridge playing, wealth—they give a woman nothing. Her beauty, her grace, come from having a purpose in life."

Mr. Gron said he corresponded with his bride while she was abroad but did not tell her about the divorce, in which his first wife accused him of cruelty. The case in favor of the child was awarded to her by the court.

Nils is the founder of Potentia, the first American chapter of which was organized in Chicago and of which many prominent Americans are members. Its purpose is to promote justice in human relationships, in business and in civil life.

Gron said, to help people make good will and justice the dominant force in life.

Journalist to Wed Singer

CORA M. CHASE

A childhood romance in Haverhill has blossomed to the stage of a betrothal, and in June, Miss Cora Manica Chase will become the bride of Samuel K. Williamson, Washington correspondent of the New York Times, it is announced. The bride-to-be made her debut as an opera singer at the Metropolitan Opera House, February 4, 1921. The wedding will be performed in Haverhill North Congregational Church by the pastor, Rev. James S. Williamson, who is father of the groom-to-be.

ROSES ENTRAP ACTRESS AND MILLIONAIRE

Continued from First Page.

Boston, a detective, and it was he that inspired the plot that eventually led to Dorr and Miss Alice Haynes, comely and talented Boston actress, now scoring success on Broadway, being trapped in a Providence hotel.

It was the description of the finding of the one-time Providence stock company favorite in fetching pink "undies" in the same room with Dorr, together with one of the love letters that won Mrs. Dorr a decree and alimony of $7,500 a year.

Dorr had somewhat of a penchant for amorous outpouring on paper. In one of these love missives he wrote:

"You see I have always been pretty uniformly successful and reverses, except temporarily, have never figured much in my career. However, I have made up my mind to take whatever happens standing up and, believe me, old Fate is going to know there has been a scrap before it is over.

"Cheer up, dear. There are good times ahead for us yet. There is a red-headed girl in my horoscope and you are it. Much love, Honey—Gene."

BOY SHOOTS SELF DREAMING OF ROBBERS

Olean, N. Y., Feb. 20 (By International News Service).— Wiether Willard Reier, only fifteen years old, more than six feet tall and unusually large for his age, was the victim of a "dream death" when he pulled his revolver from beneath his pillow and accidentally shot himself in the forehead while dreaming of burglars, or whether he fired to commit suicide is the problem facing the coroner today. Though the big boy appeared disheartened at being sent home from school Friday, the authorities believe the shooting was an accident.

FIREBUGS DESTROY MANSION

Oil Spread About Jamaica Plain House and Men Seen Running Away

Firebugs are sought by the police in connection with a fire early today which shot from cellar to garret of a large residence at No. 71 Forest Hills street, Jamaica Plain, and destroyed the house at a loss of $15,000.

Oil had been spread about inside, police authorities believed after a preliminary investigation. Neighbors reported that men were seen in the vicinity before the blaze, that voices had been heard after midnight and that two men were seen running from the house soon after the flames burst through the roof.

HYDRANT FROZEN.

Firemen experienced great difficulty because hydrants were frozen and under snow and it was necessary to connect hose lines at distant connections. The blaze started in the basement.

The house has been unoccupied all Winter. It was bought last August at auction by Alexander MacMillan, No. 6 Beethoven street, Roxbury. He declared that tenants were going to move in next week. He paid $13,000 for the property, he said, but that he has been expending all his working time and much capital in renovating and repairing the house.

SCORES WATCH BATTLE.

The battle with the blaze was watched by scores of residents of the Forest Hills section who were awakened.

One fireman narrowly escaped severe burns when his coat caught as he was directing a hose line from a ladder against the rear of the house. Comrades extinguished his blazing coat and he resumed duty.

$250,000 Michigan Fire

Hancock, Mich., Feb. 20.—Fire of undetermined origin in the Hancock business district today caused a loss estimated at $250,000. The blaze originated in the basement of the Scott building and spread to the Huer block, the Clifford building and the Gartner store.

Telegraph Briefs

New York—Venezuela may become the leading oil-producing country of the world within a few years. An oil survey of that country, prepared by J. Whitney Lewis, sets forth that by a few harbor improvements crude petroleum could be shipped cheaper from Maracaibo to New York than from any other oil port of the world.

Chicago—A shortage of twenty-five cents worried John Fairbanks, postmaster of West Chicago, so much he took his life.

New York — A bomb exploding beneath the porch tore away the front of the home of Joseph Fiarro in the Bronx and seriously injured his wife.

Syracuse—Mrs. Sophia Orr, said to be 110 years old, is dead here.

New York—Senator-elect Copeland says he is anxious to go to Washington and take a crack at Senator Lodge.

Chester, Pa.—For two hours today the municipal government will be conducted by Boy Scouts under a plan of Mayor Ramsey for a practical experiment in civics for youths. The boys will be in charge of all departments.

Richmond, Va.—J. Mayo Shugart, Federal prohibition agent, was probably fatally wounded when a party of four officers was fired upon from ambush during a raid on a whiskey still in Lunenburg County.

Washington—British debt agreement will be effective likely before February ends, direct action by House eliminating conference with Senate.

Whitney to Wed in Paris

MISS MARIE NORTON,

Paris, Feb. 20.—The marriage of Marie Norton, daughter of Mr. and Mrs. Sheridan S. Norton of New York, to Cornelius Vanderbilt Whitney, son of Mr. and Mrs. Harry Payne Whitney, also of New York, has been set for March 5.

Mrs. Norton said the wedding would be as quiet as possible. The civil ceremony will take place in the City Hall of the First Arrondissement.

BABY SISTERS GAS VICTIMS IN BACK BAY

Two more victims of carbon monoxide gas in Boston.

Millicent Hoban, aged one and one-half years, and her sister, Ruth, aged five, were found unconscious by their mother in the front room of their home at No. 412 Newbury street, Back Bay, today.

Mrs. Hoban telephoned the Back Bay police and Policeman Snyder and McCabe gave first aid. The girls were taken to the City Hospital where they were found to be suffering from carbon monoxide (coal gas) poisoning.

Ruth was later taken to her home while Millicent was held for observation.

EVELYN NESBIT CHARGES "FRAMEUP"

Atlantic City, N. J., Feb. 20.—Evelyn Nesbit, former wife of Harry K. Thaw, arrested on a charge of disorderly conduct, charges she is the victim of a plot. The disorderly conduct charge against her grew out of her punching a Pittsburgh lawyer on the nose in her cafe. She said today:

"This whole thing is a frameup. This man insulted me the other night and my attack was warranted.

Evelyn Nesbit

"I am mortified that my partner should have made the complaint against me. There is something more to this case than appears on the surface. My attorney is out of town but he will have something to say when this case comes up on Friday."

Rev. Dr. S. A. Hunter Dead

Pittsburgh, Feb. 20.—Rev. Dr. Stephen Alexander Hunter, for many years a leader in the missionary movement of the Presbyterian church, in China, died here today after a [illegible], aged seventy-two.

CONDEMN 2 TO DIE ON GALLOWS

One Killed Officer Engaged in Bootlegging Raid; Other Slew Her Husband

Montreal, Feb. 20.—(By International News Service)—Canada today is aroused by the prospect of sending two women to the gallows—one for the murder of an officer, another for slaying her husband.

They are Mrs. Florence Lassandra, convicted of killing Constable S. O. Lawson, and Mrs. Irene Christians, sentenced for the death of her husband. Both women are residents of Alberta.

Sentiment throughout the Dominion has been invoked in an effort to secure clemency and abolish the death penalty for women. It has been met by fervid arguments of those who believe there should be no discrimination.

Added feeling has been given the controversy by the furore aroused by the execution in England of Mrs. Edna Thompson for the murder of her husband.

GRANTED MONTH'S STAY

Mrs. Lassandra and Emilio Piccarillo, originally sentenced to die tomorrow, were granted a month's stay of execution on the intimation that appeal of the sentence would be taken to the Supreme Court.

Sentiment in the woman's favor, strong in other provinces of Canada, is almost negligible in the woman's home, where the inhabitants are said to have been so aroused by the officer's death that they are clamoring for the woman's life.

So intense is this feeling that the Prisoners' Welfare Association of Canada, which protested on general grounds against the execution of a woman was unable to induce any newspaper in Calgary or Edmonton to print its plea. One Calgary newspaper even refused to accept a paid advertisement setting forth the association's stand.

No appeal from the original sentence has been made in the case of Mrs. Christians, but she is not sentenced to die until April, and an appeal probably will be made.

ON BOOTLEGGING RAID.

Officers who accompanied Constable Lawson on a bootlegging raid in the Alberta district testified Mrs. Lassandra fired the shot and killed the officer.

In passing the death sentence the judge said the evidence made any other verdict impossible.

Canada's most recent hanging of women was twenty years ago, at St. Scholasti, Quebec, where a rescue was attempted the day of the hanging. The case was comparable to the Thompson-Bywaters case in England, the woman and her lover being sentenced for murder of the woman's husband.

BOYS' SEA COLLEGE OLIVER OPTIC STYLE

Baltimore, Feb. 20.—Asa G. Candler, Jr., son of the Coca-Cola king, of Atlanta, has planned to convert the former army transport Logan into a sumptuous sea-the-world-as-you-study college. The boys' work will be done by the Bethlehem Shipbuilding Corporation. With 400 boys, a large faculty, a crew, managers and clerks of the various departments, the rebuilt vessel, under the name of the Candler Floating School, will sail on September 15 on her initial voyage. She will complete her school term and voyage June 19, 1924.

LEE ASKS RETURN OF "FAMILY PARLEYS"

Chicago, Feb. 20.—An appeal for a return to the "family negotiations" between the railroads and their employes, was made by William G. Lee, president of the Brotherhood of Railroad Trainmen. Lee addressed the Western Railway Club, an organization composed chiefly of railroad operating officials. He advocated abolishment of the United States Railroad Labor Board. "Railroad employes," he said, "do not like to be enforced submission of their differences to any court."

Free Trial Bottle—Postage Prepaid

Gray Haired People

—learn my story!

I can't tell it in this small advertisement, so I ask you to send for the special patented Free Trial package which contains a trial bottle of my Restorer and full explanation and directions for making convincing test on one lock of hair.

When you learn how I perfected my Restorer to bring back the original color to gray hair, streaks, patches, roots—it seems my own scientific discovery will realize what no one else could, gray haired people.

My Hair Color Restorer is a clear, colorless liquid, clean as water. No sediment to make your hair sticky and stringy, nothing to wash or rub off. Restores color perfectly, nature; in all tints, shades, age of streaking or mixture of gray hair, whether dry, wiry, coarse, fine, faded, bleached or streaked, discolored dyed hair.

Send coupon today for Free Trial package and learn the wonderful story and what it means to you. If possible, enclose a lock of your hair in letter.

TO REBURY KING 'TUT' IN TONS OF STONE

Luxor, Egypt, Feb. 20 (By International News Services)—Tons of limestone will be dumped upon the 3,000-year-old tomb of Tut-Ankh-Amen in the Valley of the Kings, when it is resealed until next Autumn, with the ancient Pharaoh's mummy undisturbed within, it was announced by the chiefs of the exploration party today.

Howard Carter, who has been actively in charge of the excavation work, said the resealing of the tomb probably would take place at the end of the week. Every precaution will be taken to prevent the tomb from being disturbed during the Summer months. A strong police guard is standing before the opened tomb at the present time, turning back curious tourists who seek to enter the outer chamber.

DECIPHER INSCRIPTION.

Egyptologists have deciphered the hieroglyphics on the canopy of the sarcophagus as saying: "Tut-Ankh-Amen, beloved son of Ra, Lord of the two lands of Egypt, is taken unto Osiris."

Experts engaged in laboratory work are taking precautions to preserve the relics in the inner chamber during the period that the apartment will be resealed. It was feared that the fresh atmosphere from the outside, entering the room that had been airtight for more than thirty centuries, might have a deteriorating effect upon some of the art works unless such safeguards were taken.

RELICS DAMAGED.

The outer canopy of the sarcophagus, weakened by time, has already been slightly damaged by visitors rubbing against the edges. A few of the heavier articles, such as alabaster vases and jewelry, have been and are virtually intact. They are marvels of workmanship, surpassing anything produced today.

Large numbers of tourists continue to arrive from all parts of the world, but most of them have to content themselves with a glimpse of the tomb's doorway and a few of the solid art objects which are displayed at the laboratory.

TUT'S SACRED WHATIZIT

Among the priceless discoveries in the Chamber of Gold in King Tut-Ankh-Amen's royal catafalque was a so-called sacred cow, one of the monarchs objects of worship. The cow is made of gold and covered with black dots. Egyptologists believe it will throw much light on the religious ceremonials of King Tut's day, 3,000 years ago.

WAR IN RUSSIA DECLARED UPON BOOTLEGGERS

Moscow, Feb. 20 (By the Associated Press).—The Russian Government has declared war on bootleggers and manufacturers of illicit "hooch," and the campaign is duplicating in many of its scenes the situation in the United States.

The sale of wines and beers is legal in Russia, but the Soviet regime has continued the war policy, established early in 1915, of banning vodka and other stronger intoxicants. These are now being made in huge quantities illicitly and nearly every one of Moscow's newly rich has his private source of supply.

During the last three months of 1922, according to statistics furnished by the Moscow authorities, the police made 5,507 house searches and discovered nearly 3,000 private stills.

MAIL FLIERS TO CROSS NATION IN 28 HOURS

Birmingham, Ala., Feb. 20.—First-class mail from New York to San Francisco shortly will be delivered within twenty-eight to thirty hours, Paul Henderson, second assistant postmaster-general, declared today in an address before the convention of Alabama's postal workers.

After nearly five months of experimental work, the department is convinced of the feasibility of night flying, Henderson said:

"We are now engaged in locating emergency landing fields every twenty-five miles between Chicago and Cheyenne," he continued.

$100,000 Fire Loss

Passaic, N. J., Feb. 20.—Fire destroyed the handkerchief factory of Davis & Cattarall and threatened a row of tenement houses early today. The damage was $100,000.

HANDY BAG SALE TEMPORARILY ENDS TONIGHT

Coupon on Page 2.

The office sale of Handy Bags stops tonight.

It will be resumed later.

Coupons will be printed daily so. folks, get yours now and be ready to present them when the sale reopens. This will be soon.

a brawl February 8. ?

The demand for bags has been so great that the manufacturers have been unable to keep abreast of the flood of orders that poured into this office by mail and from the thousands who came in person.

It is because of the great volume of mail orders that the office sale will be stopped. Just as soon as these can be filled then the sale will be renewed, but until every single one of the heaps and heaps of letters has been attended to, no bags will be sold over the counter in the front office.

This will not be long. The announcement of the resuming of the sale may come ANY DAY. It is important that you watch The Boston American every day and clip your coupons.

2 DESTROYERS IN TROUBLE IN PACIFIC

San Diego, Cal., Feb. 20.—Radio reports from the flagship California of the Pacific fleet today announced that the destroyers S. P. Lee and Nicholas broke down while 113 miles south of San Diego and are being towed to Santa Cruz by the other Guyama. No particulars of the trouble were contained in the message.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Wyeth's Sage and Sulphur

When you darken your hair with Sage Tea and Sulphur no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is musty and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

Don't Cough

Just *breathe* HYOMEI. It relieves at once. It is *medicated air*—soothes most remote membranes of nose, throat, lungs. Succeeds where all other treatments fail.

—breathe Hyomei

Nature's treatment of over 30 years for Catarrh and other bronchial troubles. Wonderful for croup. Sold by all druggists. Satisfaction guaranteed or money back.

Write your letter on this subject
"How Starrett Tools Have Helped Me Most in My Work"

Cover these points:
1. Superior features of Starrett Tools.
2. Advantages of any particular Starrett Tool.
3. Number of practical uses I have found for the tool chosen above.

Note: Contestants to be eligible must have used Starrett Tools prior to Feb. 15, 1923.
Mail to Contest Editor, The L. S. Starrett Co., Athol, Mass., not later than April 15, 1923.

Starrett Tools

The Starrett Prize Contest is open to machinists, carpenters and other mechanics in the United States and Canada who have used Starrett Tools. If you use Starrett Tools, you know *why* you prefer them. Put down your reasons in plain language and send them in (see "A" above).

474 separate prizes of Starrett Tools (sets and individual tools *of your own selection*) will be given by The L. S. Starrett Co. for the best letters. Never mind the big words—literary skill doesn't count in this contest. Just tell us in your own words, covering the points noted above, your personal experience with Starrett Tools. Facts will win the prizes.

Get the Details at Your Hardware Store

Ask for the Starrett Prize Booklet containing complete instructions, description of prizes, etc. It's free at any store selling Starrett Tools. (Write for copy if dealer can't supply you.) Mail your letter today. Contest closes April 15th, 1923.

Catalog No. 23 describes 2100 fine precision tools. Write for it.

THE L. S. STARRETT CO.
The World's Greatest Toolmakers
Manufacturers of Hacksaws Unequalled
ATHOL, MASS.

Your letter may win the Grand Prize—$150 (list prices) worth of Starrett Tools *of your own selection*. And there are 473 *other* prizes!

Starrett Prize Contest 4997

GILCHRIST CO.

For Holiday Wear!

It's the Colorings in the new

Coat Sweaters

That Make Them So Smart!

$12.50

So vivid and gay, they are called the "rainbow" sweaters. On lines as tailored as a coat, collar bound with braid, long sleeves, and side fastening with a large button.

Tuxedo Sweaters

$5.00

All the new shades, including gray. These new arrivals depend on the edging of contrasting color on collar, front, bottom and cuffs to make them "different."

Gray Oxfords

$8.50

Silver gray suede, especially designed to meet the requirements of a comfortable walking shoe, yet keeping that air of "dress" which is so desirable. Cuban covered heel, AA to D widths.

Spring Hats

$10.00

Such a wide variety! Snug-fitting hats that seem so suitable for this cold, windy weather—or the larger hat for dress wear. Touches or whole hats of the new printed fabrics—or solid greens or reds, etc.—each one a "fashion favorite."

R & G Elasticside

$3.50 and $5.00

The graceful lines of your figure are too valued not to receive the best attention. The R & G corsets give you suppleness, pliability, lightness and style. Come in and see this perfect corset. We know you will like it!

Lace Fichues Are the Newest!

$1.75

Soft and graceful, they drape the shoulders and make a simple little frock into a dressy affair. Lovely patterned laces in many different patterns.

LEGAL STAMPS GIVEN

BURNS PRAISES HEARST DOPE CRUSADE

"Thank God the Hearst newspapers have taken up the fight to rid this country of the narcotic evil."

This fervid declaration was made to 400 leading Greater Boston society women by William J. Burns, director of the Department of Justice bureau of investigation, at the Commonwealth avenue mansion of Mrs. J. Lothrop Ames during the course of a lecture by the famous detective on "The Responsibility of Citizenship."

W. J. Burns

LETTER FLAYS MRS. AMES.

Prior to the lecture Mrs. Ames received an anonymous letter, evidently written by a woman, flaying her for permitting Mr. Burns to use her palatial home.

In discussing the narcotic evil Mr. Burns said: "Every mother and father should know where their boy or girl is at night and with whom they are running. You probably would be surprised to learn that dope is being used in the parlors of our homes every evening. Eliminate the narcotic evil in this country and crime will be cut in half. Don't you know that most of the holdups that occur in this country are caused by youths under the influence of dope?"

DENOUNCES "REDS."

In flaying the "Reds" Mr. Burns said that they are endeavoring to break down the marriage institution, "industrialize the virtue of women and reduce home life to the level of the African ape." He said it would be ridiculous for American business men to trade with Russians now.

He added that there are "fifty or seventy-five of those half-baked fellows (Communists) at Harvard College now." He urged passage of the Sterling and Davis bills now before Congress, and said that if the latter is passed it will be found that more than 200,000 aliens are illegally residing in the United States.

House to Pass Dope Measure Next Monday

Washington, Feb. 20.—Passage by the House next Monday of the Porter resolution to limit the production of habit-forming narcotic drugs to the minimum medicinal needs was made virtually certain.

Speaker Gillett.

Chairman Porter, of the Foreign Affairs Committee author of the measure, conferred with Speaker Gillett and obtained from the Speaker an agreement to recognize him on that date to make a motion to suspend the rules and pass the resolution.

REMARKABLE GAIN SHOWN BY WILSON

Washington, Feb. 20.—The improvement in the condition of Woodrow Wilson during the past few weeks has been little short of remarkable. It was said by a friend who visited his home.

Woodrow Wilson

It was said that the former President is slowly but surely regaining the use of his paralyzed left leg and arm, and that his step is beginning to approach its old time vigor.

TODAY

Continued from Third Page.

State firing squad to stop De Valera.

THE FRENCH, practical and logical, do promptly whatever seems necessary. Sugar gambling in the United States, started by announcements from the Department of Commerce, caused sugar to go up in France.

Immediately the French forbade the exportation of sugar.

You wouldn't find the French, or they ruled the United States, shipping coal to Canada and allowing Canadians to advertise "American hard and soft coal, any quantity. Immediate deliveries," with people actually freezing in the northern part of New York State.

It takes a sloppily sentimental American government, manipulated by shrewd coal dealers, to do that.

NEW HONORS FOR COLONEL KINCAIDE

Colonel Henry L. Kincaide of Quincy has been elected commander of Massachusetts Commandery of the Military Order of Foreign Wars. He was chosen at the annual meeting of the order in First Corps Cadets Armory. Other officers are: Major Jor Elias Field, vice-commander; Lieut.-Col. Peter R. Chase, secretary; Lieutenant John B. Pickett, treasurer; Capt. Charles S. Keveney, registrar; Major Frank M. Sawtell, judge advocate; Lieutenant Horace P. Stevens, surgeon; Captain Patrick B. Murphy, chaplain; Captain James P. Parker, Colonel Holten B. Perkins, Captain Percy J. Wilson and Captain William J. Crosier, council members.

Col. Kincaide.

Lift Out Your Corns

ICE-MINT

THE NEW DISCOVERY ENDS ALL

Foot Troubles

This new discovery, made from a Japanese product, is certainly a wonder the way it draws out inflammation from a pair of swollen, burning, aching feet. It takes the soreness right out, then the corn or callous shrivels and lifts off.

Hard corns, soft corns or corns between the toes, just shrivel up and lift off so easy. It is wonderful. Just think! Not one bit of pain while applying Ice-mint or afterwards. It doesn't even irritate the surrounding skin.

You will never have to cut a corn again and run the risk of blood poison. Any good-by to your old corn salve, plasters and bandling tape for that pet corn of yours is sure to be a "goner" if it ever feels the magic touch of Ice-mint.

It imparts such a delightful, soothing, cooling feeling to the feet that you will sigh with relief.

Ice-mint is the real Japanese secret for fine, healthy little feet. It prevents foot odors and keeps them sweet and comfortable. It is greatly appreciated by women who wear high heel shoes.

Just ask in any drug store for a little Ice-mint and give your poor, suffering, tired, swollen feet the treat of their lives. It costs little and there is nothing better.

Lovely Healthy Skin Kept So By Cuticura

Daily use of the Soap keeps the skin fresh and clear, while touches of the Ointment now and then prevent little skin troubles becoming serious. Do not fail to include the exquisitely scented Cuticura Talcum in your toilet preparations.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. 24P, Malden 48, Mass." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Soap shaves without mug.

Know the comfort of a healthy skin—

Don mss the luv of a brsk rub down because of eczema or some equally annoying eruption which makes your skin burn and sting whenever you touch it. Resinol Ointment has a cooling, healing action which brings prompt relief from these ills. No matter how severe or well established the case may be Resinol rarely fails to produce the desired results.

Resinol Soap and Resinol Shaving stick complete the Resinol trio. Ask your druggist for them.

Resinol

Alkali in Shampoos Bad For Washing Hair

USE MULSIFIED

Many soaps and prepared shampoos contain too much free alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is very cheap and beats anything else all to pieces. You can get Mulsified at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water is all that is required. Simply moisten the hair with water and rub the Mulsified cocoanut oil in. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified.

THREE ALARMS FOR FIRE IN SOMERVILLE

Three alarms were sounded for a fire in two frame wooden buildings on Allen street, which for a time threatened a cluster of wooden dwelling houses nearby. The two buildings burned were occupied by S. Rufer and Michael Devine for the storage of barrels. The damage is estimated at $3,00.

Chicago.—A mutilied boy found a week ago today in a snowbank at a secluded spot five miles frm Geneva, Ill., today was named sulhat of Samuel Floyd Hawkins of Chicago.

MRS. STILLMAN SUED BY YACHT STEWARD

New York, Feb. 20.—Frank Murphy, once steward of James A. Stillman's yacht Modesty, which figured conspicuously for the defence in the Stillman divorce proceedings, has filed suit in the Supreme Court against Mrs. Anne U. Stillman. Murphy asked for $3,230 for "labor and disbursements" from March 1 to October 31, 1921, in connection with the court suit. The complaint alleged that Murphy had sought to collect from Mrs. Stillman and had failed.

Mrs. A. U. Stillman

J. J. McNAMARA, AUTO EDITOR, IS DEAD

John J. McNamara, automobile editor of the Boston Post, died at his home, No. 102 College road, Chestnut Hill, of pneumonia. He had been ill nine days. Mr. McNamara was born in Brookline, November 24, 1865. He began newspaper work as Brookline correspondent for the Boston Globe.

Later he was sporting editor of the Boston Herald. He became automobile editor of the Post in 1911. "Jack" McNamara was known to thousands of friends.

In his days of reporting he "covered" important sporting events in distant parts of the country. For years he was cited as an authority paper Club. He is survived by his on polo, baseball and dogs. He was widow, his father, a brother and a prominent member of the News stater.

Try This to Break Up Cold

Prescription Used 30 Years Prized Highly

MOST people don't know that a "cold" is very similar to a headache in origin. Each is caused by congestion or purging of the blood vessels. In the case of a "cold," the linings of the nose and throat passages become inflamed and discharge poisons that make you feel sick all over.

You can break up a cold with one or two Orangeine powders compounded from a famous prescription. Ask for it by name—Orangeine. This treatment reduces the congestions and so the cold "goes." For more than 30 years druggists have been dispensing this prescription as a positive form of relief for headache and various kinds of pains.

ORANGEINE For Headaches

'LISTENING IN' MYSTERY PLAY WITH A LAUGH

By NICHOLAS YOUNG.

THE mystery play still survives.

You might say, with perfect candor, that it continues in very good health, thank you.

In a ghostly fashion entirely its own, "Listening In" developed a new brand of thrills at the Wilbur last night, raised a fine crop of goosefish and brought every natural hair in the house to its feet. A mystery play without a ground-swell to keep its interest at high tension should commend itself to thuld palygoers, even though the evening is spent in more or less anxiety and with a high pulse. "Listening In" has just that advantage over the current outbursts in the realm of uncanny drama.

CAUSES SHRIEKS.

Much more of a comedy than a serious play, "Listening In" kept last night's audience in breathless doubt for three acts, during which you were treated to forceful manifestations of spirit communication that would have made Conan Doyle stand up in his chair. Those who didn't rise to their toes last night responded to the excitement with shrieks, and it was evident that a good many of the more impressionable among the audience did both. In any event, this sprightly comedy by Carlyle Moore kept you guessing without dragging you into details that were gruesome. The story itself was wound around a ghost that was especially active on its particular job; a more or less friendly spirit having a keen insight to advantageous business chances and a plain desire to give its mediumistic control the benefit of advance information.

It is doubtful if the theatre has ever held a ghost with so many admirable qualities. For every moment of terrorizing doubt; for every thrill that shortened your breath, this elusive spirit gave you an extra laugh that made the evening seem well spent. If there must be ghosts to disturb your nightly repose let them all be patterned after the model shown in "Listening In." They may spoil your sleep but if you accept them on their face value a fair measure of worldly profit may be gained.

ADEQUATE COMPANY.

The heaviest acting burden of the play was carried by Ernest Glendinning, whose contact with the mystifying spirit kept the comedy at high pitch. He gave a splendid performance. An adequate company supported Mr. Glendinning, of which Harry Wubbe made the most notable artistic contribution. Dodson Mitchell, Minna Gombell, William Davidson, Helen Flint and Frank Andrews were also involved in the story.

"Listening In" is a mystery play with a hearty laugh—a laugh that may be heard well out into Tremont street. If you like well behaved spirits it will give you something to remember with a smile.

ROMANCE BROUGHT TO LIFE BY QUEER GHOST

SCENE FROM "LISTENING IN"
Ernest Glendinning and Minna Gombell, who find a friendly spirit in their quest for Love at the Wilbur.

Plays That Remain

SELWYN—"The Fool," by Channing Pollock. The Golden Rule turned into a forceful play of the present period.

BOSTON OPERA HOUSE—"Blossom Time," based on the life of Franz Schubert with the famous composer's melodies included.

HOLLIS—"Lightnin'," with Percy Pollock playing the role of Bill Jones. Just plain rural comedy—but popular.

PLYMOUTH—"Just Married," with Vivian Martin and Lynne Overman. Rollicking farce, with the usual complications.

COLONIAL—Ed Wynn in "The Perfect Fool." Extravagantly built musical show, with the usual assortment of fun and girls.

ARLINGTON—"Uncle Tom's Cabin," with a jazz band and plenty of spirited vaudeville. The last week.

TREMONT TEMPLE—"The Town That Forgot God." A William Fox photoplay of many thrills and spectacular scenes.

DUNCAN GIRLS ARE BIG HIT AT KEITH'S

The Duncan Sisters, Rosetta and Vivian, best known to Boston theatregoers for their impersonations of juveniles, brought down the house at Keith's Theatre.

The pets of royalty, who have just returned from a highly successful engagement in London, appeared in a pleasing song and dance number, their voices so harmonizing that at times a hush of silence was cast over the theatre to catch the low strains of their songs. They were roundly applauded.

Madeline Collins, prima donna from the Convent Garden, London Douglas Leavitt and Ruth Mary Lockwood, in "Ourselves," and a rollicking rural comedy, "Fifty Miles From Broadway," shared honors with the two sisters.

Other interesting acts on the program were Butler and Parker, Moore and Freed, the Burns Brothers, Carleton and Bellow and the Romeyns.

The usual program of movies came before and after the vaudeville entertainment.

PLAY NEW TO HUB AT ST. JAMES

Home—as it is in thousands of cities, towns and hamlets in this broad United States—is the everlasting factor around which "Up the Ladder" is written.

Presented at the St. James Theatre for the first time in Boston, by the Boston Stock Company this creation of Owen Davis took its place beside the other famous "home" plays that have visited the Hub.

An augmented cast supported Adelyn Bushnell and Walter Gilbert, who took the leading roles. The struggles of the two office mates, married at the same time, to build up their fortunes to their ideals furnish the real theme.

And Lucile Adams, in her "flapper role," showed the patrons of the St. James a few new wrinkles in flapping. She was at her best and this role enabled Miss Adams to bring out her versatile talents.

"Miss Gibbie Gilfillan Adams Sawyer," a photoplay of New England life.

Bill changes on Thursday.

"Stepping Stones" and Lewis Stone in "The World's Applause," and Viola Dana in "Love in the Dark."

CAPITOL—D. W. Griffith's "One Exciting Night," with news and comedy reels and vaudeville.

CENTRAL SQ.—"One Exciting Night," with news and comedy reels and vaudeville.

COLMAN SQ.—Griffith's "One Exciting Night." Also news and comedy reels.

HOWARD—Pat White in a new burlesque show; also motion pictures and vaudeville.

SCOLLAY SQ.—Richard Barthelmess in "Fury," with news and comedy reels and vaudeville.

BOWDOIN SQ.—"Secrets of Paris" (first run) and several vaudeville features.

LANCASTER—Thomas Meighan in "Back Home and Broke" and Viola Dana in "Love in the Dark."

'THE CHRISTIAN' AT PARK IS STRONG FILM

Love is not the possession of the spirit or the flesh but a welding of the two in the great and profound ethical teaching as laid bare in "The Christian," a dramatic masterpiece by Sir Hall Caine, which was shown in Boston for the first time at the Park Theatre.

"What we need is not more statesmen, we have plenty of them," the picture says, "but more Christians." And that is illustrated by the spiritual follower of Christianity who helped to letter and brighten the world just as long as he possessed the ever picture of his undying love, an Angelic beauty, born in poverty, but desiring a taste of the sweets of life.

And with the saving of this girl's soul, he goes out to conquer the world and transform it from a life of vice and debauchery to one of cleanliness and Godliness.

The girl, Mae Burch, is a will-o'-the-wisp, a youthful butterfly, flitting about, smashing true hearts, but always keeping her own heart in safe keeping for the man, Richard Dix, who in his travels has observed and contrasted the riches and poverty of life and gives himself over to religious devotion. But always with the picture of Glory in his mind. It is her picture which nourishes and fosters that spirit of truth and Justice with which he fights for humanity and the world.

Maurice Tourneur has once more manifested his ingenious ability to produce a mammoth and glorified picturization of an immortal theme and story. And he has well chosen his cast. The best acting is done by Richard Dix, Mae Busch, Phyllis Haver, Mahlon Hamilton, Cyril Chadwick and Garrech Hughes.

Arcadia Orchestra

Paul Whiteman's Arcadia Orchestra will be heard for the first time in Boston next Sunday, when it will give concerts, both afternoon and evening, at Gordon's Capitol Theatre and at Gordon's Central Square Theatre, Cambridge. The orchestra is under the direction of Albert Mitchell, and its concerts will be in addition to the usual photoplay and vaudeville bills at both houses.

LIONEL ATWILL IN "THE COMEDIAN"

Lionel Atwill, in David Belasco's production of Sacha Guitry's "The Comedian," opened its local engagement at the Tremont Theatre last evening. This play shows Mr. Belasco's favorite male star in a role quite unlike anything he has ever done, and is produced with the careful scenic detail that always sets a Belasco production apart from others. "The Comedian" will be reviewed in the American on Wednesday.

"ELSIE," NEW MUSICAL COMEDY, AT SHUBERT

A new musical play, "Elsie," moved into the Shubert Theatre last evening, and the piece has had a successful engagement at the Illinois Theatre in Chicago and came to the Shubert with its original cast and production. The music and lyrics of "Elsie" were written by Rissli and Blaker, composers of "Shuffle Along" and Carlo and Sanders, composers of "Tangerine." The play will be reviewed in Thursday's American.

WINTER HILL BODY TO HEAR WARDWELL

County Commissioner Walter C. Wardwell, a former Mayor of Cambridge, will be the speaker tomorrow evening at the monthly meeting of the Winter Hill Improvement Association in Somerville on "The Duties of a County Commissioner." Herbert Williams will render piano selections and an illustrated song will follow.

W. C. Wardwell.

Week's Features

MODERN and BEACON—Mack Twain's "The Prince and the Pauper" and "The Kingdom Within," with a Larry Semon comedy.

BOSTON—Louise Lovely appearing in person; also Betty Blythe in "The Darling of the Rich," and vaudeville.

GLOBE—"Quincy Adams Sawyer," a photoplay of New England life.

CLEVER REVUE PLEASES AT MAJESTIC

The best show that the Shuberts have put out this season in the shape of "Unit" revues opened at the Majestic Theatre with George Jessel and the Courtney Sisters as the featured players, and provides a capital evening's entertainment.

A well balanced company, attractive scenery and costumes and comedy that is free from any sign of suggestiveness have been provided by the producers and the result is that there is not a dull moment.

Jed Dooley, the Courtney Sisters of vaudeville fame, Charles O'Brien, Ed Warren, Gertrude Hayes, Jr., a graduate from the burlesque ranks and Marguerite Farrell contributes largely to the entertainment, but the work of three young women in the company stands out just as prominently as the principals. They are Audree Evanes, who works in the vaudeville bill as the foil of Jed Dooley, and the two Cliff sisters, Mollie and Nella. The latter are attractive, capable dancers and work well together, seemingly as if they enjoyed the show as much as the audience, and the audience did. Mollie makes a typical "flapper" and chews her gum like a lady.

Coming Events

Otis Skinner in "Mister Antonio" will come to the Tremont Theatre on Monday, March 5.

"Madame X" will be the offering at the St. James Theatre for one week beginning next Monday.

Ruth St. Denis is announced for a single performance at the Boston Opera House on Friday afternoon, March 2.

"Why Men Leave Home" is billed as the attraction at the Somerville Theatre next week.

Charles Chaplin's newest picture, "The Pilgrim," will be shown at Loew's State and Orpheum Theatres next week.

Gertrude Hoffman in "Hello Everybody," a spectacular musical revue, comes to the Majestic next Monday for a limited engagement.

MARION DAVIES' PICTURE AT THE STATE

Marion Davies has added another laurel to her wreath of fame by a remarkable interpretation of the leading feminine role in her latest photoplay "Adam and Eva," being a vivid picturization of the stage success of the same title. This play, it will be remembered, attained commendable success in this city and later was shown in the metropolis, where it ran continuously for an entire season. The central story is that of a man who turned his family over to a young and ambitious "go-getter" and finally comes back to find them all changed. Miss Davies presented an unusually attractive and charming heroine and gave evidences of much histrionic ability.

There was also screened Mary Miles Minter in her newest photoplay entitled "Drums of Fate." Much laughter was contributed by Larry Semon in his latest comedy, entitled "No Wedding Bells." This comedy reveals its clever player in many amusing situations that provoke genuine mirth. A late Pathe News reel completed the excellent program.

'BROADWAY BREVITIES' BRINGS FUN TO GAIETY

"Broadway Brevities" presented a succession of gay spectacles at the Gayety Theatre yesterday with Lena Daley, sprightly dancer and singer, as the star of the company. The show is essentially a song and girl revue, ample in costuming and scenic effects and with many pretty faces. Originally a New York Winter Garden production, Ed E. Daley brought it into burlesque, adding new stage settings and costumes and engaging a splendid cast and chorus.

Miss Daley scored a personal success with her songs, "I'm Loving Mad" and Cool My Puppies." Babe Healey, the ingenue, won especial applause with her rendition of "Stage Door Blues." Her costumes, as well as those of Althea Barnes, the prima donna, were elaborate. Jay C. Flippen was a generous comedian, assuming the role created by the late Bert Williams.

APPEALING FILM AT THE OLYMPIA

"Mighty Lak a Rose," Edwin Carewe's First National picture is illustrative of the power of beautiful music to soothe angry passions in the breasts of men, was given its first Boston showing at Gordon's Washington street Olympia yesterday. Jane Mercer, Dorothy Mackaill, Anders Randolf, Sam Hardy, Harry Short, and Helene Montrose lead the cast and this symphony of life in high and low places, which echos in the heart like a magic melody.

Underworld and society mingle freely in this film, which has a fascinating plot, a pretty love story and appeals strongly to the emotions. Five acts of vaudeville and the usual features complete the program.

WASHINGTON REOPENS WITH PICKFORD FILM

The Washington Theatre was reopened yesterday after six weeks of darkness, in which extensive repairs and renovations were made. The feature of the new bill was Mary Pickford in "Tess of the Storm Country." This film revival of the popular picture star at her best. Other films on the program were Larry Semon in his comedy, "No Wedding Bells," and Max Linder in "The Three Must-Get Theirs." Included in the bill were organ recitals by Harry Norton and William Hannan.

The Washington will operate under a three-day policy for its film features, with a complete change of bill on Mondays and Thursdays.

MOVIE FANS GREET LOUISE LOVELY

Movie fans were given an opportunity to meet and greet personally Louise Lovely of movie fame in the foyer of the Boston Theatre last night, when the fair side of numerous fans and curiosity seekers, those present included scenario writers and assistants to screen stardom. Many desiring to take a part in her act, which mostly consists of the actual filming of a little playlet on the stage, stood around the beautiful screen star. Those selected will see themselves in the film which will be shown next week.

MAE MURRAY STAR OF ORPHEUM BILL

The program shown yesterday at Loew's Orpheum Theatre is typical of the holiday variety, including a number of high class vaudeville acts and the screening of Mae Murray's production "Jazzmania." Miss Murray appears as Ninon, the queen of mythical kingdom. Paralleled by the jazz craze the little queen changes its name to Jazzmania and finds romance, adventure and love in doing so. The vaudeville is topped by Jean Granese, the unique songstress, assisted by her brother Charlie and Tito De Llore. Besides Miss Granese appears Jimmy Heron in "The Billposter," Lillie Faulkner & Company in "Play Ball"; Hoffman and Jessis, presenting "The Hayseeds"; and Reeder and Armstrong presenting a piano diversion. The comedy reel was Larry Semon in "No Wedding Bells."

SOMERVILLE PLAYERS PRESENT 'SAG HARBOR'

The Somerville Players presented James A. Herne's "Sag Harbor" at the Somerville Theatre yesterday. "Sag Harbor" is one of the best known of rural plays and for many years served as a starring vehicle for its distinguished author, James A. Herne. The simplicity of its story and people is largely responsible for its appeal. The leading roles were interpreted by Harry Bond and Ann Hamilton, assisted by Joseph Grasby, Frank Dennis, Peggy Shanor, Rosemary Hilton, Mrs. George A. Hibbard, Philip Shea Reid and Monica Greenwalt.

State Ballroom

Elaborate preparations are being made by the manager and directors of the State Theatre Ballroom for the special engagement of McKinsly's Singing Jazzbirds, which comes to the State Ballroom early in March. This organization recently played a successful vaudeville engagement at Keith's Theatre. The orchestra will appear with its full force. Manager Dinkin is continuing to add new features to the State Ballroom, the latest being a huge apple tree, which is to be used to add new zest to the new slogan "Meet her in the shade of the old apple tree."

TOM BARRY GIVES UP TO FREE STATE

By International News Service.

Dublin, Feb. 20.—Tom Barry, chief, leader of the Republicans at Cork and his followers surrendered to the Free State military forces today. Cork has been the centre of irregular activity against the Free Staters.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

PERSONAL APPEARANCE

is now more than ever the key-note of success. Bow-Legged and Knock-Kneed men and women, both young and old, will be glad to hear that I have now ready for market my new appliance, which will immediately straighten within a short time, bow-legged-ness and knock-kneed legs, individual in its permanently, without injury or discomfort. Many thousands of sufferers with your daily work before myself at night. My new "Little Straightener" Model 13, U. S. Patent, is easy to adjust for much will save you over from further humiliation, and improve your personal appearance 100%.

Write today for my free copyrighted physiological and anatomical book which tells you how to correct bow and knock-kneed legs without any attention on your part. Enclose a dime for postage.

A BLEMISHED SKIN QUICKLY HEALED BY THIS SULPHUR

Face, Neck and Arms Quickly Made Clear By Mentho-Sulphur

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Mentho-Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.

"HOW WELL YOU ARE LOOKING!"

If you want to surprise your friends all winter—if you want them to compliment you on your vim and "pep," your clear skin, bright eyes and quick, youthful step, purify your blood and tone up your system by taking Gude's Pepto-Mangan now.

Gude's Pepto-Mangan is composed of just the elements you need for protection against "grip" and winter colds, and for sturdy strength and vigor.

VETERANS IN 20 HOSPITALS ARE NEGLECTED

By CHARLES O. POWER

The majority of places, so-called hospitals, harboring World War service men suffering from tuberculosis in the First District of the Veterans' Bureau, comprising the New England States, with the exception of Connecticut, do not deserve the rating of second class boarding houses.

The farce should end. The taxpayers should know just how their money is being wasted on second class treatment of these men. The investigating committee of the United States Senate, of which Senator Walsh is a member, should demand the real facts from the central office of the Bureau in Washington.

Senator Walsh.

Has the Boston office, through its medical staff, described conditions and made proper recommendations? On this question it would be well for the investigating committee to check the files in the Washington office with those in the Boston office.

20 FAIL IN PURPOSE.

Five of the twenty-five contract hospitals in this district for the care and treatment of the tuberculous ex-service men are good, being well equipped and well conducted. They are the Essex County, Norfolk County, Plymouth County and State sanitarium in Massachusetts and Wallum Lake, Rhode Island. The other twenty are not at all what they should be, although the one at Groton is handicapped in its efforts to make good through the carelessness of Bureau officials.

At the present time there are 4,896 cases listed with the diagnosis of tuberculosis in this district. Of this number 2,677 have been reviewed, 1,530 are receiving compensation, 328 are being reconsidered and 142 have been disallowed. Of these listed cases 824 are in so-called hospitals scattered throughout the district, among the number being about eighty who have been denied compensation.

INCREASE IN CASES DUE.

It is apparent from these figures that only a very small percentage of the total listed cases, 4,896, are receiving hospital treatment. Under a regulation sending the time for making application for care and treatment, there will come an increase in the number of listed cases. Under a section of this new regulation, which lets down the red tape bars a little, it is estimated that at least 5 per cent., or 235 of the listed cases will be eligible for further treatment and at least one-third, or 78 of this class, will require extensive hospital care.

These are conservative estimates, but they show that the present hospital number of 824 must soon be raised to 602. The problem of caring for these men has become a major one. It cannot be solved with the present facilities. But it can be met adequately by the exercise of a little common sense. All that is needed is a fully equipped tuberculosis hospital where proper treatment and discipline can be maintained, to help out the five good contract institutions that the bureau is using.

IDEAL PLACE AT RUTLAND.

Such a hospital, ideal for the purpose, is owned by the government and located at Rutland, close by the State sanitarium. It can accommodate 250 patients. It would cost but very little and take but a short time to make it available for service. The question is: Why does not the government do this?

So far as the bureau chiefs are concerned, this is a foolish question and receives the following foolish answer: Because there are no quarters in it for medical personnel or nurses. It would seem, therefore, that until the comfort and convenience of the doctors and nurses are assured, this institution, built for the care and cure of tubercular ex-soldiers, must remain untenanted and idle.

GOING TO WASTE.

There is an inn but a short distance from this hospital. It seems never to have occurred to the experts who have inspected the place that arrangements might be made with the inn for the feeding and housing of the members of the staff until the government could build quarters for them on the hospital grounds.

Here is a fine government institution going to waste because of vanity that should not be tolerated but is altogether too common in Federal service. If availed of, better care and treatment could be afforded the suffering, and at least a dozen private contract hospitals wiped off the government payroll.

HOUSE OF DAVID HEAD MUST STAND TRIAL

Paw Paw, Mich., Feb. 20.—An order denying a motion for dismissal of two actions brought against "King" Benjamin Purnell, of the House of David, was on file here today. The plaintiffs, Ruth Bamford Reed, 17 years old, and Gladys Bamford Rubel, nineteen, sisters, asks $800,000 damages for alleged improper treatment by "King" Benjamin. "The King can do no wrong," they say they were taught while members of the cult, at Benton Harbor, and say they submitted to the advances of Purnell.

"Miss Boston"

MISS LETITIA MARVIN.

CZECHO TO SEND DEBT BOARD HERE

Washington, Feb. 20 (By International News Service).—Czecho-Slovakia will shortly send a commission to Washington to open negotiations for the payment of the $106,292,000 Czecho war debt to the United States.

BOSTON GIRL IS BEAUTY PRIZE WINNER

Miss Letitia Marvin, representing William Filene's Sons Company in the Style Show in New York City won the diamond wrist watch offered as the prize to the "best dressed girl in America."

The competition was a feature of the annual Spring Style Show of the Retail Millinery Association, held at the Hotel Astor. Miss Marvin was dressed as "Miss Boston."

She had been chosen by a beauty contest among Filene employes.

In addition to the watch given Miss Marvin a silver loving cup was awarded Filene's. Miss Marvin competed with professional models, and prize beauties.

Last Fall Miss Marvin was one of the leading models at the Filene Style Show at the Copley Plaza, and although employed in a clerical position she is always called upon for any style show or exhibit. Miss Marvin is also a prominent member of the Filene annual musical comedy, "The Jollies," to be presented for an entire week at the Tremont Theatre in April.

SPAIN KILLS PENSION IN FOREIGN LEGION

Madrid, Feb. 20.—Citizens of foreign nations enlisted in the Spanish Foreign Legion are not entitled to pensions in the event of their being wounded, while their relatives possess no right to claim pensions should the legionaries be killed in battle or die as prisoners of war. This decision was announced today in a royal order.

Dandruff Soon Ruins the Hair

"USE LIQUID ARVON"

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It does no good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and dizziness of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. Four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Haverhill School Head Censors Play as Too Risque

Haverhill, Feb. 20.—Arlington R. Clow, principal of the high school, has undertaken censorship of Carlyle Moore's play, "Stop Thief."

The original script reads: "Nell—He told me it was on the way and said you would understand."

Doctor—"Good Lord—the baby! I've got to go."

Mr. Clow, believing this passage too risque, has changed it so Nell now chirps:

"He told me to tell you there was an accident."

Doctor—"I've got to go. Where is my instrument case?"

The play is scheduled for April 20.

DUST IN FLUES CAUSE OF MANHATTON FIRE

New York, Feb. 20.—Immediate steps to make impossible a recurrance of the Ward Island tragedy in which 37 lives were lost are declared necessary in the report of State Architect Pilcher and Superintendent Heyman, who made a thorough inspection of the heating and lighting system at the Institution today. They concluded the fire was the result of spontaneous combustion of dust in the hospital's heating system, which had been in use for fifty years.

GAVE $40,000 TO BOYHOOD SWEETHEART

New Bedford, Feb. 20.—The memory of an old love, to which he was ever true although he was unable to win the girl he wooed, is the secret behind the mysterious $40,000 which has been sought in the $110,000 estate of the late George Russell of Acushnet.

Mr. Russell loved but lost. He loved a girl named Rebecca, who denied his suit several times and finally married Wallace M. Holmes. Russell remained a bachelor.

A short time before he died he went to live with Mr. and Mrs. Holmes. He had a physician sign an affidavit testifying that he was mentally capable of handling his own affairs. He drew $40,000 from the bank and gave it to Mrs. Holmes, whom he still held in fond affection.

That is the romantic explanation as given by J. E. Norton Shaw, one of the executors of Mr. Russell's estate, of the missing $40,000. "There is nothing about the matter that has been concealed," adds Mr. Shaw.

Removal of this amount from the estate means that the town of Acushnet, which received a number of bequests under the will, will probably have to accept a pro rata share.

A petition will be filed with the Probate Court here for instructions regarding a bequest of real estate to Henry T. Russell, brother of the testator.

If this is regarded as a general bequest, rather than a specific one, the brother's share will be on a pro rata basis.

STATE COLLEGE WILL COST 12 MILLION

The cost of establishing and maintaining a State university for 4,000 students would be in excess of $12,000,000, according to estimates furnished by the Commission on Higher Education, appointed by Governor Cox. The cost of buildings alone would run from $9,050,000 to $10,250,000. Equipment would run from $1,453,000 to $1,828,000. The operating expenses are placed at $1,772,250 to $2,777,500.

Advertisement

Kellogg's Bran is prepared to do one thing—AND DO IT WELL!

Kellogg's Bran will permanently relieve constipation, mild or chronic. It is scientifically prepared for that purpose. It is ALL BRAN, therefore it has the necessary bulk to assure results. Foods with a small bran content cannot afford permanent relief.

When your physician or friends advise you to eat Kellogg's Bran, you follow-on for the purpose of eliminating a dangerous clogging-up and toxic condition of your system. You can't afford to take half-way measures! Think of the lost time and the dangers of illness you are daily dodging!

What you must have is real bran—KELLOGG'S BRAN, and if you will eat it regularly each day you will become a different person within a week or so. Kellogg's Bran, with its natural bulk, sweeps, cleanses and purifies. It not only gives relief, but it regulates the bowels. Every member of your family should eat it—every day—at least two tablespoonfuls in chronic cases as much with each meal.

Try Kellogg's Bran mixed with a hot cereal, or cook it with hot cereals, adding two tablespoonfuls of Bran for each person. Other popular ways are to sprinkle Kellogg's Bran on hot or cold cereals or to eat it as a cereal with hot milk. You can make delicious bakery products with Kellogg's Bran. Recipes on every package.

Kellogg's Bran is not only nationally sold in grocery stores, but can be had in individual packages in first-class hotels and clubs. Ask for it at your restaurant. Be certain to eat Kellogg's Bran daily for health's sake!

Influenza and Grip are Dangerous

THEY LEAVE THE SYSTEM SODDEN WITH IMPURITIES AND DISEASE BREEDING GERMS

Do not make the error of regarding Influenza and Grip as exaggerated colds. There is a vast difference and at no time is the human body in greater need of the healing, strength producing, rebuilding force contained in Pe-ru-na than when recovering from an attack of Flu or Grip.

PE-RU-NA

Used by Thousands in This Crisis

Precautionary measures now may save a severe illness later. The aim should be to reduce the inflammation of the mucous membranes, stimulate digestion, drive out the poisons, and increase the powers of resistance.

Pe-ru-na tones up and strengthens the entire system. It is a good medicine any time but especially so right now as a protection against these winter diseases which are going the rounds.

Don't be careless. Profit by the experience of such people as Mrs. P. S. Skinner, Box 263, Tobias, Nebraska, who writes: "I keep Pe-ru-na in the house all the time for coughs, colds and pains in the chest. I had pneumonia six years ago and I now use Pe-ru-na to keep from taking it again. I find it great."

Pe-ru-na has been healing the sick and protecting the health of the American people through Grip and influenza epidemics for more than half a century.

Sold Everywhere — Tablets or Liquid

CASCARETS 10¢

Best Cathartic for Headache, Colds, Sour Stomach, Gases, Biliousness

To clean out your bowels without cramping or overacting, take Cascarets!

U. S. JEWS SCORE BELLOC'S PROPOSAL TO ISOLATE RACE

BRITISH AUTHOR IS GUEST OF K. C. IN HUB TODAY

Hilaire Belloc, English author and military critic, on arrival here today as the guest of the Massachusetts Council of the Knights of Columbus, informed interviewers that Britain is the least democratic government in the world.

Hilaire Belloc.

The Russian Soviet government, he thinks, will endure, and England and Turkey will become embroiled in a war unless England changes her policy of treating the Turkish situation.

Cardinal O'Connell will be host to the visiter tomorrow afternoon at the prelate's Brookline residence. Tomorrow evening he delivers a lecture at Symphony Hall, previous to which a reception will be held. Many prominent citizens have accepted invitations to the reception.

"England, from an autocracy where men and women could reach the top, is becoming a plutocracy, which means the domination of the rich," Mr. Belloc said.

U. S. GENEROUS.

"England cannot afford to antagonize the United States. It was fortunate for her the war loan settlement to the United States has been so generously arranged.

"Russia is not strong enough in a military sense to begin an invasion of Poland to get through to the rescue of Germany. Poland has one of the best disciplined armies in Europe. The Russian army is a mob. Should Russia try to come through France and other nations would rush to Poland's aid.

"Lenin and Trotzky will remain in the Russian saddle so far as foreign relations are concerned. The peasants are not revolting and as they constitute the bulk of the population, the Soviet government is safe for the present. Its communistic propaganda is not taking in Germany or elsewhere. There is far more likelihood of an attempt to re-establish monarchy than communism in Germany.

"It is a gamble as to what will be the ultimate result of the French invasion of the Ruhr.

RAPPED BY MARSHALL.

"In your book, 'The Jews,' you advocate a Jewish nation," was suggested to Mr. Belloc.

"Yes, and I have been called many unkind names by Jews because of it. I am not anti-Semetic. While Protestants, Catholics and other religious denominations readily assimilate themselves to the governments and peoples of the countries to which they emigrate, the Jews flock by themselves. They seem to regard everybody against them and look out only for the protection and interest of their race. It would be much better if they were by themselves. In Palestine? Not necessarily."

Louis Marshall replied:

"Mr. Belloc seems to be conducting a personal propaganda for his own pocket. The Jews came here fifty years before his English friends landed on Plymouth Rock. They were warmly welcomed. They have helped to preserve the American government. They fought for Mr. Belloc's English and French friends in the World War. They are a hard working, patriotic people. They will stay here."

-ask Your Grocer!

Do you want to give your family a pleasant surprise? Prepare them some Marshalls Herrings. You can make fish dishes that they never dreamed could taste so good. With your next order, get several cans of

Marshall's Scotch KIPPERED HERRINGS

Younger Smart Set to Make Merry in Aid of School Fund, Says Betty Alden

—Photo Copyright by Bachrach.

MISS HELEN CLARK

Miss Helen Clark, of a group recently elected to membership in the Vincent Club, is the daughter of Mrs. Edward Andrews Clark of Beacon street. Miss Clark is shown here as she appeared at a recent charity function.

By BETTY ALDEN.

THOUGH Lent is with us, society may dance—and dance with sprightly toes and an easy conscience. For the simple reason that practically all the terpsichorean affairs taking place now are given for some charity or another.

Tomorrow evening a gay group of the younger set will make merry at the dance being held at the Winsor School. Mrs. John Gardner Coolidge, 2nd, and Mrs. Henry G. Simonds are sponsoring the affair, which is to help swell the Winsor School's playground fund. An addition to its present surroundings will be purchased by the school, where many of the most attractive girls of Boston's smart set have been "finished."

A number of dinners will precede the dance, the hosts including the John Gardner Coolidges, 2nd, Mr. and Mrs. Oric Bates, the Charles Howards and Mr. and Mrs. Arthur Lyman.

PROMINENT among the buds receiving the coveted "bids" for membership to the Vincent Club is Miss Helen Clark, daughter of Mrs. Edward Andrews Clark of Beacon street.

Miss Clark, who's one of the prettiest debs of the year, is a tall, extremely graceful-looking girl, with brown hair and gray-blue eyes. Earlier in the season she and Mrs. Clark went over to Gotham, where Miss Clark joined in some of the most important bud festivities there.

Others elected to membership in the Vincent Club at the same time with Miss Clark include the Misses Helen Bayley, Elizabeth Brewster, Sally Cabot, Helen Howe, Rosamond Murray, Mary Post, Helen Rhodes, Ethel Thayer, Evelyn Walker, Frances Weed and Alice Wetherbee of this year's group, as well as Edith Nichols and Esther Washburn, who made their debut a year ago.

Speaking of the Vincent Club, the annual Spring show of the club—always one of the best events of the whole year—will take place during the week of April 23, when the clever Vincentites will present an operetta written by one of its prominent members, Mrs. Hendricks Hallet Whitman (Adelaide Chatfield-Taylor).

PRESIDENT A. LAWRENCE LOWELL of Harvard and Mrs. Lowell have been stopping for a while in London at Brown's Hotel, planning to leave there soon for Paris.

Mrs. Charles E. Perkins and her mother, Mrs. Amory, and Mrs. Bayard Tuckerman, Jr. (Phyllis Sears), all of Boston, have also been spending some time in London, where they stayed at the Ritz. They are of a party which went over to England a month or so ago for the hunting.

THE Charles L. Hardings of Dedham are giving a birthday party tonight at their Winter home in Palm Beach in honor of Mr. Harding's birthday.

MR. AND MRS. MARK R. WENDELL (Emily Clark) have joined the Boston colony at Aiken, S. C., where shooting forms one of the main diversions.

THIS year the large ball customarily given for the benefit of the South End Music School settlement will not take place. There will, however, be a "bridge day" on March 7, for which a number of prominent patrons are to open their homes.

Of those interested in the project are Mrs. Thomas Thacher, Mrs. Sewall Cabot, Mrs. Whitman Ware and Miss Louisa Bazeley.

Betty Alden

REV. G. L. PAINE SECRETARY OF FEDERATION

Directors of the Greater Boston Federation of Churches announced today the election of Rev. Georges Lyman Paine, associate rector of Christ Church, Cambridge, and son of Robert Treat Paine, as executive secretary of the Federation.

He succeeds Rev. Dorcmus Scudder, D.D.

The new executive secretary helped organize and was charter president of the Federation, which includes 650 Protestant churches and religious organizations of Greater Boston.

Rev. G. L. Paine.

He is a graduate of Harvard 1901 and the Episcopal Theological Seminary and has specialized in mission work. A disciple of the late Phillips Brooks, he acquired much of his democracy in mission work for St. Mark's in the Bouwerie, New York City, where he labored two years.

At Harvard he was a noted athlete, making the varsity baseball, football and track teams.

KEMAL FAVORS EQUAL RIGHTS IN TURKEY

By the Associated Press.

Constantinople, Feb. 20.—Mustapha Kemal Pasha, who was recently married to the daughter of a rich Smyrna notable, has made a public pronouncement in favor of the emancipation of Turkish women. Speaking before the Teachers' Association at Brousa, he declared that the work before the nation could only be perfected if Turkish women worked equally with the men in educating themselves and in taking active parts in the nation's affairs.

WOMAN COLLAPSES; DIES FROM EXPOSURE

Mrs. Esther Phillpott of No. 1295 Adams street, Dorchester, collapsed while hanging clothes on the second story veranda of her home today. She was found two hours later by Arlin Burgess, a girl living in the same house, who saw the woman lying in the snow on the piazza. She was removed to the City Hospital, but was dead on arrival. Medical Examiner Leary said death was probably due to exposure to the cold.

CALIFORNIA TO GIVE PADEREWSKI LL.D.

Los Angeles, Feb. 20.—The degree of Doctor of Laws will be conferred on Ignace Jan Paderewski, musician and statesman, by the University of Southern California Thursday in connection with patriotic exercises in observance of Washington's birthday.

BOA CONSTRICTOR LATEST WOMEN'S PET

London, Feb. 20.—Boa constrictors, caught on the shores of the Amazon, are the latest fashionable pets for women. A flourishing business has also been done by a London naturalist in selling them to professional dancing girls in England and on the continent. One dealer said:

"I am importing two shipments of snakes to meet the new demand. The smaller snakes are the most popular and there is no danger from their bite. They are easily tamed and make good pets."

RAILROADS IMPROVE POSTAL SERVICE

Washington, Feb. 20.—More and better railway postoffices are being provided by the railroads, eight lines having recently added 109 new steel cars to facilitate the handling of mails and provide greater safety for railway mail clerks. This additional equipment, the Postoffice Department announces, includes eight cars on the Boston & Maine.

NEW YORK ASKS DRASTIC STEPS TO GET COAL

Washington, Feb. 20 (By International News Service).—The plea of New York that the Interstate Commerce Commission take immediate drastic steps to relieve the dangerous fuel shortages now prevailing in the upper section of the State, was taken under consideration today by the commission.

The New York Fuel Administration, through George H. Wickersham, Jr., its counsel, asked the commission:

1.—Issue orders to facilitate traffic on the Delaware & Hudson Railroad by declaring all coal now blockaded in the territory north of Albany out of interstate commerce.

2.—Issue priority orders for 268 carloads of coal now en route from the mines to northern New York.

3.—Legalize seizures of coal when made by Major General George W. Goethals, New York fuel administrator, to relieve urgent needs, the State of New York to assume full liability for damages.

The Commission gave a short hearing today to counsel for the Delaware & Hudson, who argued that in view of the fact that the road is cooperating to the fullest extent with the New York fuel administration, further action by the Commission at this time is not necessary.

ACCUSED ROXBURY POLICEMAN QUITS

Patrolman William J. Moyett, a member of the Boston police force attached to the Roxbury Crossing station, sent in his resignation which was accepted by Commissioner Wilson, the seven days' notice being waived. Moyett's resignation followed charges being placed against him.

ASSUMES BLAME FOR DEATH OF TEN MEN

Toronto, Ont., Feb. 20.—Hugh Thompson shouldered the blame for the death of ten men at Station 2 of the Consumers' Gas Company February 8.

Appearing at an inquest, he volunteered the information that he, the general production foreman, had ordered the ill-fated crew to open an eighteen-inch gas main to attach a "booster" pipe, after assuring them all feeds of the line had been cut off. He discovered, too late, that he had overlooked No. 8 valve. Before he could get to the valve to shut it the ten men caught in a chamber filled with gas were dead or dying.

WISCONSIN NATIONAL GUARD LOSES BATTLE

Madison, Wis., Feb. 20.—The Wisconsin National Guard lost the second battle in its fight for existence today when the assembly refused to postpone indefinitely the bill calling for complete abolition of the State's military force. Rules were then suspended and the measure finally passed by acclamation.

MOTOR TRUCK FELLS 2 CROSSING STREET

While crossing Massachusetts avenue near Shirley street, two Roxbury men were struck by an auto truck driven by Frank May, No. 184 Winter street, Cambridge.

The victims were Edward F. Fitzgerald, fifty years old, and Thomas C. Murphy, No. 42 Greenville street, Roxbury. They were crossing the street together. Fitzgerald was cut about the face and scalp and sustained a broken rib. Murphy has a possible fractured skull and cuts and bruises.

The violin added color.

WRECKAGE ONLY TRACE OF LOST ITALIAN LINER

New York, Feb. 20. — A broken spar and pieces of splintered deckplanking were the only traces found of the Italian steamer Mancenisloo when the steamship John Worthington reached the position from which the doomed ship had sent out its last call for help, a witness from the Worthington said. No trace of the crew was found.

The Mancenisloo sailed for help from a point 500 miles off the Virginia Capes three days ago, and said she was sinking. The coast guard cutter Tampa went to the rescue but found no trace of the ship or of the crew. Heavy seas were running. The Worthington's message later was relayed ashore by the Tampa.

The coast guard cutter Acushnet, which has been seeking the abandoned schooner Santino, whose crew was rescued by the steamer Egremont, reported by wireless the Santino probably has gone down. For the first time in many years ice in Nantucket Sound and Buzzards Bay was officially warned against in government notices to mariners.

LIP-READING COURSE WILL BE RESUMED

After the Winter recess the lip-reading classes of the Franklin Evening School will re-open February 5. These classes are held in the English High School, Montgomery street.

For Colds, Grip or Influenza and as a Preventive take Laxative BROMO QUININE Tablets. The box bears the signature of E. W. Grove. (Be sure you get BROMO.) 30c.—Advt.

Charlestown Man, Overcome, Dying From Cold

James Reed, sixty-five years old, of Eaton street, Charlestown, overcome by the cold while on his way to work, dropped unconscious on the United States Marine Hospital grounds, Chelsea, and was found freezing to death by a pedestrian.

He was removed to the City Hospital, suffering from frozen hands and limbs. He is reported as dying.

BLAMES BAD RUM FOR MURDERS

Philadelphia, Feb. 20.—Bad liquor was blamed for the increase in murders here in 1922, Coroner William R. Knight, Jr., said today in his annual report.

"From the inquests it is evident that many murders are committed during debauches caused by drinking poisonous liquor, which is sold throughout the city," he said. "This stuff arouses all the passions of men and incites them to crimes more brutal and daring than have been known in the past."

According to the coroner there were 136 killings last year, the greatest number in the city's history.

Washington—Senate Committee, for economical reasons, rejects acceptance from Mrs. John B. Henderson of residence in exclusive Washington section as home for Vice-President.

LABOR LEADER BLAMES WOMAN FOR SHOOTING

Chicago, Feb. 20.—"It's hell all the trouble one woman can cause."

The Adam's plea, as old as man, perhaps, was renewed today by "Handsome Dan" McCarthy, slayer of Steve Kelliher, like himself, a labor leader.

Gun battles in Chicago's labor war there have been plenty in the past, but the spectacular duel which thrilled fashionably-clothed slummers in Al Tearney's cabaret, was the first to bring the woman into the spotlight.

"I killed my best friend when I shot Kelliher," McCarthy said after the fatal shooting.

"His wife's to blame. She got Steve all worked up and he tried to kill me. I had to kill him to save my life."

More than a score of prominent witnesses were subpoenaed in an effort to learn who fired the first shot.

McCarthy, head of the plumbers' union, and only recently acquitted in the trial of labor leaders charged with the slaying of two police officers, declared that the trouble started over Kelliher's wife. Her scornful tongue, he said, had lashed Kelliher, chief of the theatrical janitors' union, into a fury.

"PRESENT DAY INDIA" YOGANANDA'S TOPIC

Swami Yogananda, personal representative of the Maharajah of Kasimbazar, "the Rockefeller of India," will speak at the Clarendon Street Baptist Church Wednesday evening, at 3 o'clock, on "Present Day India."

Actress Displeases Clinton Boy, So He Fires Theatre

Clinton, Feb. 20. — James O'Toole, twelve years old, told State Officer E. J. McCarthy at the District Court room that he attempted to burn down the Star Theatre, a $150,000 structure, because he was displeased with the actions of an actress in a serial movie film. He also admitted setting fire to his own home and to a breaking and entering charge, all within six months.

Judge Jonathan Smith sentenced the lad to the Shirley State Industrial School and suspended sentence a year, during which he will be on probation.

3 BLOCKS BURN IN $150,000 MAINE FIRE

Belfast, Me., Feb. 20.—Fire that started late last night in the Colonial building here was brought under control today after it had destroyed that building and two adjoining blocks. The damage was estimated at more than $[illegible],000.

The Eaton block on one side of the Colonial building and the Black block on the other were destroyed. The cause of the fire was undetermined.

Madrid—Geronima Jimenez, one of the leading Spanish composers, died today. He had been ill a long time and last month his death was reported. He was a member of the Academy of San Fernando.

"BATTALION OF DEATH" FIGHTS SHIP SUBSIDY

Washington, Feb. 20 (By International News Service).—The coalition fight of Republican insurgents and Democrats in the Senate to kill the Administration Ship Subsidy Bill developed today into an open filibuster.

A new "Battalion of Death" was formed by Senators Brookhart, Republican, of Iowa, and Fletcher, Democrat, of Florida, to combat the bill with thirty-one Senators enlisted.

Senator Jones, Republican, of Washington, leader of the Administration forces, announced the Senate would be held in continuous session all day today, all night tonight and all day tomorrow to break the filibuster. Beyond that period his plans were not yet formed.

"This is to be the fight asked by the President in his message to Congress," said Jones. "We'll let opponents talk themselves out or till they are ready to vote. A majority of the Senate favors the bill and its passage, and it is my intention to do everything possible to give a chance to vote on it."

Another movement, inside the filibuster, was directed at killing the subsidy by substituting Sen. Ladd "filled milk" bill as the measure under consideration. A vote on a motion by Senator Ladd, Republican, of North Dakota to take this action was pending when the Senate convened today.

U. S. FLIERS OUT TO BREAK ALL RECORDS

San Diego, Cal., Feb. 20.—The United States Army Air Service will make a systematic attempt this year to break every world's record not already held by an American aviator, according to information received here today from Washington. Orders for special training of airmen have been prepared.

The War Department has sent word that there now is being built a plane which is expected to eclipse by more than forty miles an hour the fastest time ever made over a measured course.

DOCTOR DENIES KILLING DANCER

San Diego, Cal., Feb. 20.—Dr. Louis Jacobs, accused of the murder of Frizzie Mann, the dancer, whose body was found on the ocean shore near Torrey Pines a month ago, pleaded "not guilty" to the charge in the courtroom of Superior Judge Marsh.

Following this plea his counsel, James Wadham, asked for an early trial, and it is expected that the case will be set for trial within two months.

POINDEXTER NAMED PERU AMBASSADOR

Washington, Feb. 20. — Senator Miles Poindexter of the State of Washington was named American ambassador to Peru by President Harding. The nomination was immediately confirmed unanimously by the Senate in open executive session. The Senator will assume his new duties March 4 when his present term expires.

MISSING MAINE MAN SOUGHT IN BOSTON

Search of Boston hotels and hospitals has failed to reveal any trace of Lee M. Smith, Norway, Me., clothing merchant, who has been missing since Tuesday of last week. On that day he started for Boston to visit his daughter, Mrs. John Matthews, in Dorchester. The last seen of him was on the train en route. Mr. Smith is fifty years old.

SALTS FINE FOR ACHING KIDNEYS

When Back Hurts Flush Your Kidneys With Jad Salts

Most folks forget that the kidneys like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize acids so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year

ITALIANS DENIED SCHOOL NAME CHANGE

The school committee of Boston discussed but failed to approve a request that the tablet on the Michael Angelo school, Charter street, North End, be changed to read "Michaelangelo" school. Italian citizens made the request but the board considered the estimate cost of $850 too much for so slight a change.

MAKES RESTITUTION OF CARMEN'S MONEY

Charles E. Reinold, twenty-three years of age, of No. 66 Marshall street, Somerville, found guilty of larceny of $125 in money, which was to be used for needy carmen on strike, was placed on probation in the Somerville Court to make restitution. He has already turned $40 over to the probation officer.

BOOTLEGGER PLEA WINS WIFE DIVORCE

Worcester, Feb. 20.—Mrs. Eva T. Levy, No. 2 Norfolk street, told Judge William A. Burns in the Divorce Session of the Superior Court here that her husband Samuel is a bootlegger, making plenty of money, but will not support her or their ten-year-old son, so Judge Burns granted her petition for a decree nisi on the grounds of cruel and abusive treatment, and also custody of the son.

A—The new playing surface made of a substance over which the needle travels with almost no friction.

B—The mesh cradle under which resists warping.

Millions of wishes created this record

EVERY time a phonograph record has been played these past twenty years—ever since the first disc record—some one has wished that surface sound might be abolished.

Millions and millions of times it has been wished—by people with sensitive nerves, who hear the noise of needle friction above everything — by keen-eared music lovers listening for delicate phrasing and expression, which they know to be there, but which are drowned in the blur of surface sounds.

Those millions of wishes have at last come true in the form of Columbia New Process Records. Columbia engineers and chemists solved the problem by the discovery of a new surface substance so fine and smooth that the needle travels over it almost inaudibly.

All of the Columbia Records out to-day are made with this amazingly quiet, new surface.

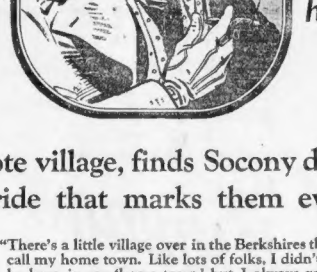
Tear out this list and take it to a Columbia Dealer. He will play any or all that you request. Note the fulness and sweetness of tone, a finer musical quality than you ever heard before. Note the absence of any annoying surface distraction.

As an example of this wonderful new construction and superior musical charm ask to hear A-3780. It's Ted Lewis and His Band playing "Runnin' Wild"—a fox-trot that will keep you dancing till it's time to bring in the milk. Its teammate on the other side is "St. Louis Blues."

Only in Columbia New Process Records can you obtain this perfection of surface quietness. The process is patented.

COLUMBIA GRAPHOPHONE COMPANY, *New York*

The Veteran Motorist—



has his faith justified

In small remote village, finds Socony dealer with same local pride that marks them everywhere

"There's a little village over in the Berkshires that I always call my home town. Like lots of folks, I didn't happen to be born in my 'home town,' but I always go back to it with that home feeling just the same.

"Well, last summer I drove there—first time in eight years. It's one of those five-mile-an-hour towns about ten miles from nowhere, and just before I hit the valley I found I was shy of gas. Of course it flashed through my mind that perhaps I couldn't get any in the village at all.

"But the first thing I saw, right on the corner of Orchard Street, was a Socony pump—as large as life and twice as red. New dealer? Not a bit of it! It was the same old general store where I used to buy fishhooks and soda crackers. "And I sell a lot of gasoline", said old Mr. Powers. "You'd be surprised at the amount of travel that comes through our town, and they all want Socony".

"Let me tell you, that one little occurrence made me realize what Socony Service means. 'Home dealers' everywhere. Proud of their towns and proud of Socony. Not just 'the cream of the business' for them, but real service everywhere you go."

There's at least one Socony dealer near your home or place of business. He's a local man. Get acquainted with him. He sells the finest and most popular gasoline you can buy and you'll find it a pleasure to deal with him.

SHE DARKENED HER GRAY HAIR

Tells How She Did It With Barbo Compound

Mrs. E. H. Boots, a well-known resident of Buchanan County, Ia., who darkened her gray hair, made the following statement:

"Any lady or gentleman can darken their gray or faded hair, and make it soft and glossy with this simple remedy, which they can mix at home. To half a pint of water add 1 ounce of bay rum, one small box of Barbo Compound and ¼ ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It does not color the scalp, is not greasy and does not rub off. It will make a gray-haired person look twenty years younger.

GOOD CRYSTAL MADE BETTER BY HOOKUP

If you want to get just a little bit more out of your crystal radio receiver, try the accompanying hookup. It can be cheaply built, as all the condensers are fixed.

To tune it, set coupling at maximum, and turn the variometer at the same time that you vary the tuning of the primary of the variocoupler or loose coupler. When signals are heard, slowly reduce the coupling at the same time that you turn the variometer until signals are loudest and interference at a minimum.

Use a good crystal with the proper contact. Let your antenna be fairly taut straightaway or over, and you will have the maximum crystal detector.

HOW TO GET BEST OUT OF CRYSTAL SET

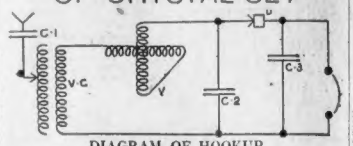

DIAGRAM OF HOOKUP

Hook-up showing how to get the best out of a crystal detector. C1, .0005 mfd. fixed condenser. C2, .0025 mfd. fixed condenser. C3, .0005 mfd. fixed (phonoid) condenser. VC, any standard variocoupler or loose-coupler. V, any standard variometer.

EAGLES PARADE TO AID OLD AGE PENSIONS

More than 100 delegates, representing the Fraternal Order of Eagles, are en route to the State House today from all parts of the State to join the demand for contributory old-age pensions.

The first hearing on the old-age pensions bills begins today before the legislative Committee on Social Welfare.

Every aerie of Eagles in the State has adopted resolutions declaring in favor of old-age pensions. They represent 20,000 Eagles. The 100 delegates meet at the Fremont Building and parade to the State House before the hearing begins at 10 o'clock.

BURNED TO DEATH AS FIRE FOLLOWS RAID

Fall River, Feb. 20.—Napoleon P. Houle, a local baker, whose place of business was raided by Federal and city officers and later visited by fire, is dead as the result of the burns which he received while attempting to light a gas oven. He had just been released on bail.

Coue's Book

SELF MASTERY
Through Conscious
AUTOSUGGESTION
Only Authorized Book by EMILE COUE
PAGE 16

To this I add that all your organs are performing their functions properly. The heart beats in a normal way and the circulation of the blood takes place as it should; the lungs are carrying out their functions, as also the stomach, the intestines, the liver, the biliary duct, the kidneys and the bladder. If at the present moment any of them is acting abnormally, that abnormality is becoming less every day, so that quite soon it will have vanished completely, and the organ will have recovered its normal function. Further, if there should be any lesions in any of these organs, they will get better from day to day and will soon be entirely healed. (With regard to this, I may say that it is not necessary to know which organ is affected for it to be cured Under the influence of the autosuggestion "Every day, in every respect, I am getting better and better," the unconscious acts upon the organ which it can pick out itself.)

Coue

I must also add—and it is extremely important—that if up to the present you have lacked confidence in yourself, I tell you that this self-distrust will disappear little by little and give place to self-confidence, based on the knowledge of this force of incal-

culable power which is in each one of us. It is absolutely necessary for every human being to have this confidence. Without it one can accomplish nothing, with it one can accomplish whatever one likes (*within reason*, of course). You are then going to have confidence in yourself, and this confidence gives you the assurance that you are capable of accomplishing perfectly well whatever you wish to do—*on condition that it is reasonable*—and whatever it is your duty to do

So when you wish to do something reasonable, or when you have a duty to perform, always think that it is *easy*, and make the words *difficult, impossible, I cannot, it is stronger than I, I can not prevent myself from . . .* disappear from your vocabulary, they are not English. What is English is "*It is easy and I can*" By considering the thing easy it becomes so for you, although it might seem difficult to others. You will do it quickly and well, and without fatigue, because you do it without effort, whereas if you had considered it as difficult or impossible it would have become so for you, simply because you would have thought it so

LEFT RICH MATE FOR SHACK

Woman Happy When Discovered by "the Man" Longs for Home

Pasadena, Cal., Feb. 20.—Somehow the "kick" in love in a cottage after an elopement seems to last longer for the woman than for the man in the case, at least that is the indication in the affair of Frank E. Douglas, Orient, L. I., farmer and Mrs. Dorothy Latham, who left a wealthy husband in Orient to elope to California with Douglas.

The pair were found living in a shack in a canyon, just outside of Pasadena, by Detective Booth, of Southold, L. I., who has been looking for them since their elopement last December

Douglas according to the detective, is "lonesome and homesick for Long Island, and cried like a baby" when the detective dropped in at their shack

Mrs. Latham on the contrary, said she was perfectly happy with the new marriage, and said she never wanted to see or hear of Orient again. As for her former husband, all the care of motherless children, she said she had no hankering to get to him, as their own and was glad to be rid of them, and content with the love of Douglas.

CRUELTY IN MUSIC, SHE CHARGES

Husband Played "Why Should I Cry Over You?" When Love Waned, Says Wife

Although you've left me alone to pine
And all of my love was a waste of time—

Cruelty with a phonograph. That's the way the charge would be if Mrs. Minnie McIntyre of No. 193 Powder House Boulevard, Somerville, chose to sue for divorce.

Every day her husband, Fred F. McIntyre, would place a record on the machine, and it would sing these lines. It wasn't the atrocious rhyme of "pine" and "time" that made Mrs McIntyre feel badly. It was just his way of taunting her with the fact that she was not worthy of his tears.

I don't know why I should cry
Sigh over you, even be blue—

That's the way the thing began Wednesday Mrs McIntyre unbraided her six-foot spouse for his interest in a certain other Mrs. Helen [illegible] she would put that record on the phonograph singing ironically [illegible] she could cry.

SEEKS $10,000 IN ALL.

And Mrs. Faloney would hum the same tune.

Mrs McIntyre today informed Mrs Faloney, who she should cry. She brought [illegible] agent of her $10,000, charging alienation of affections [illegible] also brought suit for $20,000 against Mrs Faloney's mother, Mrs Mary E Fermoyle. She is alleged to have encouraged her daughter to steal Fred Attorney Albert E. Hughes of Somerville is representing Mrs McIntyre

Mrs. McIntyre, when she was interviewed by an American reporter today, put the record on the phonograph, and it began to sing its song

Some day your heart will [illegible]
Some day you'll find out
So why should I cry over you?

WON'T GIVE HIM UP.

"He will find out," Mrs McIntyre said to the phonograph "Some day he will find out, but it will be too late.

"But in the meantime, if he does any crying, over me or over anybody else, he's going to do it as my husband, and not as that other woman's sweetheart." He's my husband, crying or laughing. He will remain my husband to the day of my death.

WAS GOOD PROVIDER.

"We were married July 27, 1903. We were happy together. He was a good provider. Then little Marguerite came. Our happiness knew no limits, it seemed

"Then we met the Faloneys. Mrs. Faloney came to the house. I trusted her absolutely.

"They went auto riding. Formerly I was his companion. But when this woman came into his life he ceased me. She is a younger woman than I.

"But I do not intend to give him a divorce or a separation. I will live here and I will make him support me. But I can never love him again.

SONG LEADS TO SUIT

MRS. HELEN FALONEY

Mrs. Faloney is accused of stealing the love of Fred F. McIntyre by the latter's wife. Insert, Marguerite, daughter of the McIntyres.

MRS. MINNIE F. McINTYRE
Somerville wife who is suing her former neighbor, Mrs. Helen Faloney for $20,000, alleging alienation of affections. When her husband's love fled, Mrs. McIntyre declares, he began to play, "Why Should I Cry Over You" on the phonograph for her benefit while the pretty and younger neighbor hummed the accompaniment across the way.

TRAILED BY HER FIRST HUSBAND

Wed Again Soon After Vanishing and Lived in Everett, He Charges

After, it is alleged, she deserted her husband and two small children to wed again without taking the trouble of obtaining a divorce, Mrs. Catherine Galbraith, twenty-eight years old, was arrested and charged with bigamy.

The woman's arrest followed a tireless search on the part of George Galbraith, husband No. 1, to find the mother of his two little girls.

Galbraith finally located his wife at No. 111 Broadway, Everett, where, it is charged, she has been living with George Merithem, husband No. 2, whom she married shortly after her disappearance from her home four months ago.

MARRIED BY JUSTICE.

Mrs. Galbraith and Merithew, the police say, were married in the South End on November 11, 1922, by Harry W. Farmer, a justice of the peace, of No. 108 Appleton street. At that time, Farmer states, Mrs. Galbraith said she was single and gave her name as Lillian C. Clarke

Galbraith complained to the police of East Dedham street station, following his discovery of his wife's whereabouts. The latter communicated with the Everett police and the woman's arrest followed. She was brought to Boston by Special Officers James F. O'Neil and Louis DeSessa of East Dedham street station, for arraignment on the bigamy charge this morning.

LIVED IN SOUTH END.

Previous to Mrs. Galbraith's disappearance, the little family lived on Dartmouth street, South End. Galbraith still resides at the Dartmouth street address with his two little girls, aged seven and five respectively.

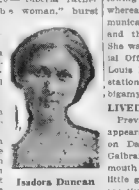
Merithew, the police say, was formerly proprietor of a restaurant on Waltham street, South End, and it is believed that it was there that Mrs. Galbraith met him.

SERGE PREFERS SIBERIA TO ISADORA

Berlin, Feb 20.—"Siberia rather than that terrible woman," burst out Serge Esenin, the Russian poet, husband of Isadora Duncan, discussing his latest matrimonial storm in Paris

After the riotous scene in their Paris apartment, Esenin fled from his dancing wife and is now with friends here. In the turbulent time in Paris the pale, temperamental poet with the dreamy eyed, is alleged to have thrown dishes and broken various pieces of furniture

"I do not want to think about it any more," said Esenin. "I am glad to be rid of her. Should she come to Moscow I will flee to Siberia."



Isadora Duncan

TWINS FOUND STARVING IN COLD ROOM

Ralph and Viola O'Connell, three-year-old twins, were found by the police sleeping in an unheated room of a tenement at No. 6 Vivian place, Lynn

In another room, say the police, Mrs. Katherine O'Connell, the mother, was discovered in company with Patrick Devin and Thomas Foley. All three were arrested for drunkenness. Daniel O'Connell, the twins' father, was later found in another room. He, too, was arrested as drunk

According to neighbors, a "party" had been in progress in the O'Connell home for the past two days The young twins had been left to their own resources. No food was in evidence, the police say. Jeremiah O'Connell, eleven years old another child, was sought. The little chap is said to keep late hours

The twins, and Jeremiah, if found, will be in Lynn Court Wednesday as neglected children

BRADSTREET'S WIFE ADMITS SHE HIT HIM

Admission that she hit her husband was made by Mrs. Laura Bradstreet of Bay State road in answers filed in Suffolk Superior Court to interrogatories arising from her $250,000 damage suit against Mrs. Alice F. Wallace, wealthy widow of Rochester, N. H.

Mrs. Bradstreet stated that she was married in 1905, meeting her husband only a week before the wedding. At that time she was "trouping" in a dramatic company.

WORKED TO HELP HIM.

In the early days of their married life, Mrs. Bradstreet said, her husband earned $35 a week. She was in the habit of supplementing this income, she declared, with earnings in her profession and as a saleswoman of dental supplies

In August, 1920, she first met Mrs. Wallace, the defendant, she stated. Her husband had told her previously that he was working for Mrs. Wallace, she said

"He told me he expected to get $5,000 a year from her and I didn't disapprove at first," said Mrs. Bradstreet "but I did my I disapproved in October after he had gone to work for her. We had planned a little home in Egypt, Mass.

REPROACHED MRS. WALLACE.

"I complained to my husband frequently from October, 1920, to September, 1921, and I spoke of his neglect and cruelty to me; his absence evenings from home and the time he was spending in Mrs Wallace's company

"I wrote to Mrs. Wallace the latter part of December, 1920, and in the letter said I was very unhappy and did not like the way things were going. In September, 1921, I wrote her another letter in which I again said I was very unhappy and complained of my loneliness, and of my husband spending so much time in her company."

CITY OF FIUME IN DIVORCE BUSINESS

Fiume, Feb. 20.—Divorces have been so numerous [illegible] Fiume has made "the Reno of Italy," the municipality has entered the business, establishing agencies in Rome, Milan and Naples so incompatibles may familiarize themselves with the formalities. The fact that Fiume divorce laws have been held valid in Italy has served to increase the business. Recent decisions by the Court of Appeals of Milan maintained that in conformity with Hague conventions to which Italy was a party, divorce granted to Italians by another State was valid In Italy, the Italian law grants no divorce of any character

MAN HELD UP; NAB SUSPECT AFTER CHASE

The appearance of a policeman frightened away three highwaymen who had beaten Joseph O. Hannigan, of Framingham, into unconsciousness and were rifling his pockets.

They took to their heels, leaving Hannigan bleeding at South street and Linwood place. Patrolman Schacht, of the La Grange street station, whose appearance interrupted the robbery, gave chase.

Lonie O. Sheepe, eighteen years old of No 42 Dover street, was arrested after a pursuit through the leather district.

COASTER DEAD IN FALL RIVER; SCORE HURT

Fall River, Feb. 20.—Antone Cardoza, seventeen years of age, of No. 124 Mount Hope avenue, was killed and twenty others were injured in coasting accidents in the city within a few days. Manuel A. Souza, twelve, of No 152 Columbia street, is in the City Hospital with internal injuries and his name is on the dangerous list. William Iwaniski, twelve years of age, of No. 143 Washington street, suffered a fractured leg. The others escaped with painful but less serious injury.

SOMERVILLE WOMAN DIES SUDDENLY

Mrs. Mary Nuer of Oliver street Somerville, died suddenly of heart trouble while visiting at the home of Mrs. Harriet Penney at No. 3 Linwood place, Somerville. She was fifty years of age

VERONAL KILLS WOMAN IN HOTEL

A woman prominent in West Medway social circles died of veronal poisoning, after a series of quarrels with her husband, the police say

Mrs. S. G. Henderson is the victim She was taken from a room at the Hotel Essex in a dying condition At the Relief Hospital, death came.

Last Saturday, say the police, she was arrested for drunkenness in her home town and later appeared in Franklin court. Home quarrels of late were caused by the woman's failure to give up veronal, to which, according to the police, she had become addicted.

FRIENDS FEAR FOR LIFE OF TUCKER

While physicians [illegible] the condition of William J. Tucker, president emeritus of Dartmouth College, is greatly improved, intimate friends here fear he will never recover from his present serious illness. The educator is now 73 years of age and for some time past has been in good health. The attending doctors have not made any report as to the nature of Mr Tucker's illness

Wm. J. Tucker.

HOLD POISON BOOZE SELLER IN MURDER

Brattleboro, Vt. Feb. 20.—Oscar Lundgren is held charged with murder in the death of Adolph E. Jacobson, who succumbed to bad liquor.

Lundgren is accused of giving the victim the fatal "bootleg." Jacobson went blind and then died.

Jamaica Plain Girl Skater Falls and Breaks Her Leg

Miss Margaret M. Gunn of No. 25 Charles street, Jamaica Plain, fifteen years of age, while skating on Jamaica Pond stumbled and fell breaking her right leg She was removed to the City Hospital in the police ambulance.

POISON LIQUOR KILLS MAN IN SOUTH END

Roger Conroy, fifty-seven years old, of No. 1318 Washington street, South End, was found dead in bed by his landlady, Mrs. Mary Sheffield. The man was a victim of bad liquor, the police say.

15
Deaths from [illegible] in this State since January 1

According to Mrs Sheffield, Conroy has been drinking steadily for more than a year. He had no relatives as far as is known. Six others were treated at the City Hospital for alcoholism

"Oldest Co-Ed" Dead

Racine, Wis., Feb. 20 Mrs Amy Davis Winship, ninety-three years old, is dead. When she was seventy-eight years old, after the death of her husband, she entered Ohio State University. She was widely known as the "oldest university co-ed."

HUB DOCTOR ASKS $100,000 DAMAGES

New York, Feb 20.—Dr. Louis Goloff, formerly of Boston, has sued the Fidelity and Deposit Company of Maryland for $100,000, charging that representatives of the company assaulted him while they were appreciating him last December 23 The company became Goloff's bondsman for $1,000 December 11, but later declared the bond forfeited. Goloff says there was an understanding his surrender was to be postponed until December 27, but that agents of the company forcibly seized him prior to that date

PAROCHIAL SCHOOL FIREBUG HUNTED

Springfield, Feb. 20.—Two fires said to be incendiary, which broke out simultaneously in the Cathedral Parochial School are being investigated. The [illegible] was discovered soon after its origin and was extinguished without much loss. Excitement is high because threats against the life of Bishop O'Leary have been made recently.

RUSSIA DEPORTS AMERICAN WOMAN

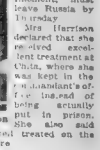
Moscow, Feb. 20.—Mrs. Margaret Harrison, American newspaper woman, who was released Saturday after four weeks of confinement, must leave Russia by Thursday

Mrs Harrison declared that she received excellent treatment at Chita, where she was kept in the G.P.U. headquarters of the [illegible] instead of being actually put in prison. She also said that she was well treated on the trains enroute here

Margaret Harrison

CHARLES M. SCHWAB IS ILL WITH GRIPPE

London, Feb 20 — Charles M. Schwab, American steel magnate, is ill with the grippe at Claridge's Hotel, here. He is not seeing any visitors, but his physician declares that his condition is not serious, and it is expected he will be able to leave his room in a few days



C. M. Schwab

GALLIVAN URGES HARDING AID VETS

Washington, Feb. 20.—Representative James A. Gallivan, Democrat, of Massachusetts, made public a letter to President Harding urging immediate appointment of a director of the Veterans' Bureau and district manager of the Boston branch. Vacancies exist in both offices. Declaring the ex-service men are "not getting all that they are entitled to."

TWO BANNER TRACK MEETS THIS WEEK WILL GIVE THRILLS

JOIE RAY WILL SHOW AT LEGION GAMES

By CHARLES E. PARKER.

Track followers should get their fill of thrills this week, for two banner attractions, each of which brings together sterling fields of college and club athletes, are carded.

Walter Koppish

On Thursday afternoon at the East Armory will be conducted the annual American Legion games, and on Saturday evening at Mechanics Building there will be held do-or-die with the New England indoor championships combined with the annual Harvard-Cornell-Dartmouth triangular meet as the evening's entertainment.

National and intercollegiate champions and national and world's record holders will be found among the contestants at each set of games, and the tightest of track and field engagements and possibly additional world's or national records will result.

The re-appearance in Boston of the redoubtable Joie Ray has aroused track fandom as never before. Joie showed his heels to an excellent field of milers and got a new record for the Hunter mile at the recent B. A. A. games, and since then he has "busted" several world's and American records for the two-mile run and other lesser distances.

He will appear in the city of Boston mile at the Legion games, and as he needs only to win this event once more to gain permanent possession of the handsome trophy offered, Joie is sure to report in the full measure of form and deliver one of the greatest exhibitions.

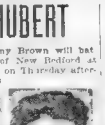
Walter Koppish, whose recent defeats of Jake Driscoll in 600-yard and 660-yard runs, as well as his terrific triumph over Allen Helffrich stamp him as a great indoor middle distance performer, is the star entrant. Many are expected in Gaston 600-yard run, which is to win be another feature at the Legion games Thursday.

The fans are in for one of the liveliest and closest competition of the Harvard Cornell Dartmouth triangular championship is the prediction for Saturday, with none of the three teams standing out as a pronounced favorite.

Dartmouth would have been the pick had its track candidates successfully passed their mid-year examinations. Failure to do so cost Coach Harry Hillman the services of Weisner, the diminutive middle sprinter, who would have figured a favorite in the dash. Harry Southworth, star, who would have scored in the hurdles and broad jump, and several others who would have been counted up in the points.

BROWN TO BATTLE AL SHUBERT

Newport Johnny Brown will battle Al Shubert of New Bedford at the Mosque A. C. on Thursday afternoon. Brown is under the care of the well-known trainer and Harry Kelley and is said to be in the best condition of his career.



Johnny Brown

Shubert is a clever boxer and has been fighting only five rounds or less in his last few starts. He has won the 135-pound championship of the Navy.

In the semi-final Jeff Smith will box Joe Jacobs.

Johnny Morello of East Boston has been matched to box Young Nonte of Acushnet in the Pine Tree A. C. ring on Wednesday night. Morello is a clever boxer and has had a number of fights with Lew Tendler, Jack Bernstein and other well known boxers. Nonte is said to be a hard hitting southpaw.

Jack Bernstein of Lynn will box Jack Kelly of Providence in the main bout at the Lynn Arena on Friday night. Bernstein is a clever boxer and has had a number of fights with Lew Tendler, Jack Bernstein and other well known boxers. Nonte is said to be a hard hitting southpaw.

CALUMETS ISSUE SWEEPING DEFI

The Calumet basketball team of Chelsea would like to meet all 110-pound teams in the State away from home. Their championship of Chelsea and have defeated

Paul Howell

Bearcats of Chelsea and Lynn Boston High School second team. Their lineup is as follows: Regan, rf; Biggs, lf; Smith, c; Salpe rg; Howie, lg. For games write Peter Kane, manager, No 219 Spruce street, Chelsea.

WRESTLING FANS HAVE TREAT

A wrestling treat is on for the fans in the Hub this week when staged by the Hub of Commerce and at the Grand Opera House Thursday night.

The card for the Grand Opera House is a corker, with Stanislaus Stasiak, the Polish Hercules, Jack Reynolds, Boston's own champion, and Peter Mehan, another well known grappler, on the program.

Stasiak, the Polish Hercules, is a big drawing card wherever he appears, and Reynolds, Boston's own champion, has been showing wonderful improvement in his recent matches. Mehan is also a clever grappler.

The Hub of Commerce show will be staged at the Hub Thursday night, with Jack Reynolds, Boston's own champion, meeting Joe Stecher, world's champion, in the star bout.

If Stecher does not put in an appearance, Ed Don Carlos will be substituted in his place. Either way it will be a corker.

Peter Mehan, who is to meet Jack Reynolds, Boston's own champion, in the Hub of Commerce show Thursday night, is a clever grappler, and has had a number of fights with well known boxers. He is also a clever boxer.

Peter Kane.

MIDDLESEX AND ST. MARK'S PLAY A TIE

The Middlesex school ice hockey [illegible] with St. Mark's school [illegible] on the Arlington pond, in a game which ended in a tie, each side scoring [illegible] goals. A feature of the game was the [illegible] of Middlesex, and Capt. Hickey, South and Hopkins played well for Middlesex, and Captain Stewart and Crawford good work for St. Mark's.

CYRUS BREWER CO SIX HAD SUCCESS

The Cyrus Brewer & Co. bowling team has completed a very successful season, having gained [illegible] and lost only two. The team was [illegible] up of excellent stars.

Captain Cahill, a former Holy Cross man, was high scorer with a total of thirteen goals. Jim Murphy, formerly of Notre Dame University; Mahoney, formerly of Lawrence; Lash of Providence, Dean Conference of Harvard, and Irving Jewett, formerly of Dartmouth, completed the team.

A dinner will be tendered the team Thursday evening at the American House by office associates.

COLLEGE CITY FIVE WANTS GAME FEB. 22

The College City Five of Cambridge would like games away from home for February 22. Will any of the fast independent teams in the State or New England like to play Mary's C. A. A. one of the best teams in the state can book this team for any date they have open. M. P. Cabana, No. 15 Lincoln street, Cambridge. Telephone Univ. 3710-J any evening, 6 to 11 p. m.

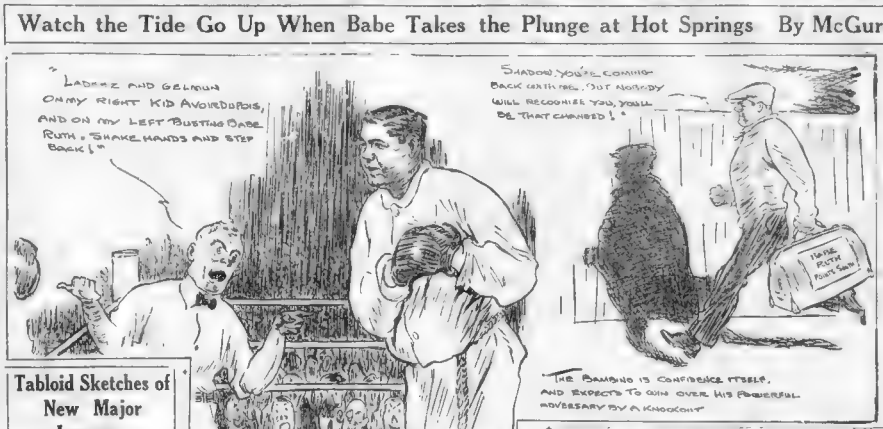
DERRELL PRATT OFF TO AN EARLY START

Asheville, N. C., Feb. 20.—Derrell Pratt, Detroit Athletics outfielder, [illegible] baseball candidates [illegible] Pratt, who will be [illegible] with his [illegible] players are getting [illegible] spring training [illegible] with the Western baseball candidates.

Latzo Defeats Schoell

Wilkesbarre, Pa., Feb. 20.—Pete Latzo of Scranton gained the decision over Frankie Schoell of Buffalo.

Watch the Tide Go Up When Babe Takes the Plunge at Hot Springs By McGurk



Tabloid Sketches of New Major Leaguers

HENRY KENNETH LAVIN
Outfielder Braves

Born—Troy, N. Y., January 5, 1899.
Height—Six feet.
Weight—162 pounds.
Bats and throws—Right-handed.
Club in 1922—Newark, International League Club. This was his first professional engagement. Played independent ball in the Adirondacks previous year.
College record—Two years at Syracuse University, having highest batting average on Orange team both years. Captained basketball team one year.
Home address—No. 563 Fourth avenue, North Troy, N. Y.

JASSE REPRESENT BEACH TOWN

Revere is well represented on the [illegible] pugilistic stage. Bobby Jasse of the Oak Island district of [illegible] State to put the Beach City in the limelight [illegible] Bobby has been hailing only five rounds or less [illegible] won his way to the front ranks of the 135-pound class.

Bobby Jasse.

In the strong [illegible] of Congressman [illegible] Bobby has a good [illegible] Tom McMorris of Roxbury was [illegible] opponent. McMorris had been the shining light in the [illegible] and for Jasse to [illegible] a victory over the Roxbury [illegible] champion.

The Revere lad who is [illegible] Tom McMorris is looking for [illegible] New England ring honors.

COLUMBIA ICE TEAM MEMBERS IN BAD

New York, Feb. 20.—For using two ineligible players, a freshman and a [illegible] Columbia has been disbarred [illegible] Tom Howard, [illegible]

Manager Richard [illegible] and Captain Walter Rolling [illegible] been suspended from further [illegible]

A vote of apology has been sent to the officials whose [illegible] trade [illegible]

Sarazen Tells How to Play Golf

By GENE SARAZEN,
World's Champion golf.

The [illegible] swing of the head [illegible] one of the most difficult in golf [illegible] the position of the elbows [illegible]

The right elbow is held close to [illegible] and is down—not up or [illegible] The left elbow and arm [illegible] close to the body and [illegible] straight line.

No [illegible] notice should be taken [illegible] the position of THE LEFT WRIST. HOW IT IS UNDER NEATH THE CLUB. In this position the face of the club must [illegible] It cannot be [illegible] swaying.

[illegible] the position of the hands [illegible] no higher than the shoulder, while the right leg is rigid, bracing the body so that it cannot sway.

The left knee and hip are turned in toward the ball and the left heel is raised slightly.

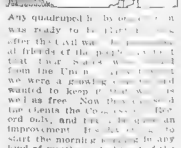
"Try To Hit It" The BULLSEYE by NICK EDATLEY

CONGRESSMEN are still screeching about loss of free seed privilege. Looks like a plant. Used to cost the government millions, but it didn't cost the taxpayers a cent, not even for stamps. The only time any of them ever gave away anything for nothing, so no wonder they hate to lose the chance.

Answering the [illegible] speak [illegible] moves one of the puzzles. First the victim of the big hearted representative had a guessing contest as to whether anything would come up when the free seeds were planted. If something did which it generally didn't it had a lot of fun wondering just what it might be. A beautiful picture on the package entitled [illegible] Zinnias, was as likely as not to develop into summer squash. And there's no ornament for parlor or front lawn, even though [illegible] in time of [illegible] crop [illegible] Grow [illegible] Then [illegible] would be [illegible] Long [illegible] marbles [illegible] a great [illegible] May. Many [illegible] Fairies [illegible] the seeds for [illegible] carrots, and thereby [illegible] the mortality among rats and squirrels.



Any quadruped [illegible] would be ready to be [illegible] after the [illegible] we [illegible] all [illegible] of the people [illegible] tell [illegible] Santa [illegible] from the Union [illegible] we were a [illegible] wanted to keep [illegible] well as free. Now [illegible] Congress the Congress [illegible] Republican [illegible] word only, and [illegible] be [illegible] an improvement. It [illegible] to start the morning [illegible] any kind of weather. And [illegible] of the seeds were fireproof.

DAILY TOASTS.

HERE'S to the taxi that creaks and groans,
And jars your spine and shakes your bones
No wonder the driver looks so blank,
Each time he starts, he has to crank.

Q. M.

NOW the [illegible] wizards claim they can make showers by spraying clouds with electrically-charged sand. Remember when you could catch sparrows by putting salt on their tails?

BOSS—Well, young man, what can I do for you?
Youth—I'd like a job.
Boss—Doing what?
Youth—Anything.

JOHNNY WILSON CAN GET $35,000 FOR HIS END

Johnny Wilson, champion of the world's middleweights, need [illegible] no longer. And furthermore, he can get enough money for just one fight to make him start to worry about his 1923 income tax—provided, of course, he is in a receptive mood to place his title on trial in such a contest to be offered him.

Wilson can have $35,000 for his next fight.

Jack Shade a leading aspirant for the welterweight title, is anxious to guarantee Wilson that much money.

Tired of his unsuccessful quest for a championship contest with Mickey Walker, champion, Manager Charley Shade is going after Wilson.

Shade wants to be a champion knocker he has all the requirements—tongue, heart, and fists—whether he is king of the welterweights.

Shade wants the [illegible] event to be staged in Boston.

It is in Boston that [illegible] some of my best [illegible] at the [illegible] Tendler, [illegible] the preliminary [illegible] Wilson's home and [illegible] for the [illegible] bout, [illegible] Shade [illegible] Wilson [illegible] Shade is [illegible] to [illegible] such a [illegible]

Bobbie and His Pa

By W. F. Kirk

PA, I sed to Pa last nite wen I was studdying my Grammir lesson, Pa, is it all rite to say Bust, like I will Bust a glass?

No Bobbie, sed Pa, it is very vulligar to say Bust a glass, you shud say Brake a glass, sed Pa, but dont do it, sed Pa, never brake a glass.

Wen shud you say Bust? I sed.

Only wen you are saying that you will bit sumbody a bust on the nose, sed Pa, & that is vulligar, also, too.

I am so glad Bobbie is larning the English langwidge in the rite way, sed Ma. We are jalced by them fokes in such we stret, sed Ma. My deer old father often made that remark, Ma sed.

Yure old gent ought to know, sed Pa, he was speeking of his time. Nobody ever took him for enything but a farmer, sed Pa.

My father was a purtty good gentlemen at all times, sed Ma. Wen he did say anything, it was always to the point.

Yes, sed Pa, I used to hear yure mother talk about the way yure father used to talk. Big words, sed Pa. I bet that half the time he didnt, Hann, but it is the best I can do. Ha, ha, sed Pa.

Why is it, sed Ma, that you are always so disrespectful in yure remarks about yure father? Indeed he is not the only one of yure inlet wife, sed Ma.

Yes, sed Pa, I see it is just what he did. But I bet you will feel all lonely when I am dead, sed Pa, & sum day I shall have to shake hands with old Saint Peter.

Deer old Pa, sed Ma, he has sure now a purr chance to get in. He dont sed Pa kind of prick.

No, sed Ma, I do not expect to. I hope to live & be the means of a cultchur of the Lord in my life, Ma sed, he will take no harsh photo toward you no matter, no grudge no venum sed Ma.

Have you got any venum? I sed to Ma.

Thanks to Proverdents, sed Ma, I have not.

I bet you air too, I sed. You are too sweet to have venum.

& then Ma & I had a quarter, Pa promise the rest is going to be a grate year for me.

THE BEST JOKE I EVER HEARD

The Boston American will pay $1 for "Best Joke" published. Address "Joke" Boston American.

An Irishman came over to this country to find his brother. He read the papers and saw that a railway. As he was walking along he saw a trolley car go by. On it he read, "2259 Broadway." "Begorra," said he, "there's my brother's house running away."

Miss MARY McKINSTRY.

Vodville on Antiques

By Nat N. Dorfman

PITTER—I hear you're going in for antiques, Pat.

Patter—How did you know I intended becoming engaged, Pit?

Pitter—I didn't. I was referring to the Egyptian vase you bought.

Patter—Oh, yes; my mistake. That vase you refer to comes from the Palace of King Woof Woof the Third.

Pitter—Isggone, did the Hoboken manufacturer tell you that?

Patter—You seem to misunderstand. This is a real antique—a vase with a history.

Pitter—It seems a mystery to me the way you fall for that bunk.

Patter—And did you see the China egg I bought? It comes from the home of Emperor One Lung.

Pitter—Yes, and I bet the dealer had the heart to tell you that egg couldn't be hard.

Patter—It is evident you are no lover of the antique.

Pitter—Oh, yes. I have an antique home that is as beautiful, so real, it makes me cry every time I look at it.

Patter—And what is it?

Pitter—A pair of swinging doors.

Patter—And did you see the Louis Fourteenth chair I bought?

Pitter—No, I didn't even see any of the thirteen.

Patter—You are becoming impossible.

Pitter—Then I'm getting to be like you.

Patter—Don't you realize antiques decorate the home?

Pitter—Yes, but they desecrate the bank roll. Do 'ou know the antique business is a graft?

Patter—I should ay I do. I had to tip the salesman $100 to sell me a Babylonian jig.

Pitter—What was in it?

Patter—Nothing; this was just a plain jug.

Pitter—Didn't it jar you when you found it empty?

Patter—I guess you're not much interested in antiques.

Pitter—Oh, yes. I just ordered two eggs in a restaurant, and maybe you won't believe me, but those eggs have been hanging around since Caesar's time!

IT'S TOUGH WHEN—

THE Sunday Jones decides to leave you and the Missus at the hotel and in his new Sedan or the wife mother hops to town and you can't invite her and don't dare to leave her.

The gallant young buster son whom you are so proud of gets hold of your $5 service with the scissors and just shreds them ragged. Then goes so cunning when you yell "Murder."

A neighbor takes a shine to the big Dresden china platter you had decided to throw out because it was so big it was a nuisance and offers you ten dollars for it and as you are having the maid clean it it squirms out of her hands and crashes into a thousand pieces.

You wind sonny's mechanical toy too tight and it breaks and must be repaired and you have to buy him another. The same toy he had taken excellent care of. Whereupon when you bust it Friend Wife gives you the loud and robust razzberry.

You step in to show the wife how the vegetable soup should be made, upset it, burn your hands and are out of work for a week. Total loss for your smartness, "Doctor, $3; loss of salary, $90." "The most expensive soup I ever saw," say the fair Missus with tantalizing pertness. "Goes to show what you get for knowing it all!"

You get into an argument with the janitor, dare him to put up his dukes, whereupon he does and mashes you all over the courtyard. Cost of moving out of pure humiliation, $64.

Reverse English

Hale—My wife has been riding on horseback to get thin.

Hardy—Was there any weight lost?

Hale—Yes, the horse lost forty pounds and she gained twenty.

SO THIS IS MARRIED LIFE

A Wonderful Idea

By Zere

GOT A WONDERFUL IDEA FOR THE ENTERTAINMENT OF OUR GUESTS AT OUR TENTH ANNIVERSARY PARTY! YOU KNOW JOE RUDDY, THE THEATRICAL AGENT? WE HAD LUNCH TO-DAY—
AND TALKED IT OVER! WE AGREED THAT MOST PEOPLE IN GWING A PARTY NEVER FIGURE ON A THING EXCEPT THE EATS AND MAYBE A FEW DECORATIONS! OUR AFFAIRS GOING TO BE DIFFERENT! INSTEAD OF JUST HANDING OUR GUESTS A LAP SUPPER AND LEAVING THEM TO AMUSE THEMSELVES THE BEST WAY THEY CAN—
WE'LL GIVE 'EM A LITTLE DIVERSION IN THE WAY OF AN ARTISTIC EXHIBITION STAGED BY MY FRIEND JOE RUDDY! HE'S GOING TO SEND DOWN A TROUPE OF CLASICAL DANCERS, WE'LL TAKE UP THE PARLOR RUG—
OH I SEE. YOU TWO HAVE IT ALL ARRANGED! I SUPPOSE THE IDEA IS TO MAKE OUR PARTY AS MUCH LIKE A CLUB SMOKER AS POSSIBLE AND STILL KEEP WITHIN THE LAW!! DON'T CONCERN YOURSELF ABOUT THE ENTERTAINMENT OF OUR GUESTS!! CHARLIE PARSNIPS GOING TO BRING HIS OBOE, AND THE BLAKES ARE GOING TO LEND US THAT FUNNY LAUGHING RECORD—

Medbury Says—

By John P. Medbury

THE greatest pest that the large hotels have to put up with is the non resident guest.

HE is the fellow who buys a two cent stamp from the cashier and then tries to short-change him.

HE is so cheap he sends out penny postal cards and tells his friends to call him up at whatever hotel he expects to be loafing.

HE stands up at the cigar counter and reads all the newspapers and then borrows a match to light a cigarette that he just borrowed from the clerk.

THEN he goes over to the writing desk and scribbles a letter home to the folks and most of the lines are devoted to knocking the hotel.

PRETTY soon he gets thirsty and asks the bellboy to bring him a glass of ice water.

OF course you think he doesn't give the boy a tip, and you're right, he doesn't.

HE tells the bellhop to put it on the cuff because he knows the kid wears a soft shirt.

ONCE in a while he goes over to the desk and looks at the official railway guide. He likes to find out how far it is to a lot of places in case he ever got enough money to go there.

HIS ambition is to be a traveling man and the clerk wishes he'd realize his ambition.

THIS pest usually picks out the best easy chair in the parlor and the guests who live in the hotel have to stand up in the corner.

BUT this guy just sits there and thinks and sometimes he doesn't even think.

THESE fellows usually travel in pairs. One guy sits in the chair and does nothing while his chum goes out somewhere and loafs.

ONE of these saps was sitting on the couch in the Ritz-Carlton and a guest of the hotel came over to sit down on it. The bird jumped up and said "I'm sorry, but I'm hooking this sofa for some friends of mine."

BUT the house detective never put any of these pests out of the hotel. He claims that the janitor is the one who is supposed to keep the place clean.

THERE was one of these nonresident guests who had the cheek to send the hotel a bill for the matches in his trousers which he threw out sitting in their easy chairs.

THEY think that just because the chairs are easy, the manager is the same way.

THERE is only one way to rid the hotel of lobby loafers. Move the chairs and leave these pests right where they're sitting.

ONCE OVERS

THE LESSON OF THE EMPTY POCKET.

You ought now to have a reason to realize that you have not a little money ahead which you could put into a business which promises well.

You feel sure of your own ability to run that certain business in a way to make a fine income, but it takes capital and you had to pass up a generous offer which would have put the whole thing in your hands.

You had to pass it up because you had not money enough to swing it.

You had to stand to lose because you have not been wise enough to look out for the future, and save when you could.

Instead of saving you have lived up to your means—so you deserve the credit of foresight to another.

You could not bear to wear last year's styles and you have had to see your wife and children on some minute also in clothes and appearance.

You are keeping to the fashionable pace and do your share of entertaining in order to make and keep friends of friends you think are useful.

But, which one of those friends is going to open his pocketbook and hand out the money to make you rich? Not one, and you know it.

How long does it take for this

Flapper Fairy Tales

Lawton—Well, sweetheart, I've picked out a lovely big apartment to live in after we get married.

Margarette—Oh, why did you do that?

Lawton—I think it would be horrid.

Margarette—What's the matter, don't you want to live in the city?

Margarette—Of course not. What I want is a cute little farm, miles and miles away from civilization. I'm just sick and tired of all these theatres, cabarets and dances.

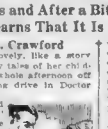
HER GUARDIAN ANGEL

A Young Nurse Falls in Love With One of the Doctors and After a Bitter Disappointment Learns That It Is She He Desires

By A. M. Crawford

IT was all lovely, like a story in the fairy tales of her childhood days! A whole afternoon off duty and a long drive in Doctor Michael Sullivan's brand new 1923 model.



It was not the first time either. Lately he had taken her to several good shows, a dinner or two at smart restaurants and one night of the nurses' dance he had been attentive enough to start all the girls gossiping about "her crush."

When she had arrived at the big hospital to enter training she had considered three years' probation as an eternity. But now, after six months with all the girls friendly and her work getting more interesting and the laughing brown eyes of Michael Sullivan close to hers at times—undoubtedly life had been more than kind to Kate Humphrey of Hall's Cross Roads.

Box from Home

Fortunately for Kate, a box from home, with cake, jelly, baked ham and fried chicken had arrived on Saturday, so when Dr. Michael Sullivan motored up to the door of the nurses' home she read delight in his eyes when he saw the basket in her hand. "I've a bit of home cooking in that," Kate told him, tucking snowy tissue paper over the top of the basket. "When we find a pretty place, let's stop and have a picnic."

"Barkis is willin'," cried Dr. Sullivan, with fervor. "Aren't you a clever girl! You've struck the last road to my heart. Now, you've traveled all of them."

A ribbon of a white road. Pale petals of fruit blossoms drifting in the warm air, drifting like the hopes, dreams and prayers of maidens far back in the roseate days when knighthood was in flower. She was happy. She was young. And love was at the turn!

"There" said Michael at last. "The very camping ground for us to-day! The very spring with willows over it—"

They found a bank of purple violets and picked them together. Sat back on their heels and laughed at each other over the fragrant flowers. Then the ride home through lengthening shadows, her shoulder feeling the pulsing warmth of his! How sacred was life!

Kate was almost too happy to sleep that night. She kept fighting the sandman away, trying to recapture and live over each golden moment of that glorious afternoon. Then just a few days later, her new found world of sparkling bubbles was blown away. It solved right before her eyes of faith that miracles still happen.

Dr. Michael met her in a corridor. "Wanted to have an encore of that picnic next Sunday, but I'm going to be all tied up. Friend has a sister from Atlanta. She's giving her a dance tomorrow night and Friday and the usual dance at the Country Club Saturday. I'll have to take her. I'd planned to ask you."

Planned to ask her! Oh the hurt, the agony of that half smile cry! A Country Club crowd! She didn't belong there.

As she turned on, she remembered with a little pang the new blue frock, hanging out in a closet in her room, an old white petticoat over it to shield it from rook and dirt. It was a lovely frock, made of crepe, soft as the breast of a bird. Had wide sleeves beaded. It had cost almost every penny of her allowance from home that month.

And then Kate's guardian angel waved a magic wand again. The very rich Mrs. Thomas Weiss who had been a patient in the hospital and had grown fond of Kate while she was there, telephoned to invite the little nurse to spend Sunday at her magnificent home in the country. Michael Sullivan had been her doctor. Kate remembered that when she entered the lovely home of Mrs. Weiss and saw a group of young people Michael Sullivan easily the outstanding figure of all of them. How his brown eyes widened when he saw her in the linen frock, the wide hat shading her pretty smiling face.

One glance convinced Kate that the visitor from Atlanta had him in tow, so she steeled herself against the lure of him and flirted outrageously with the best looking man in the room.

Dinner was over at last and the girls were leaving the men to smoke when Kate felt a tug at her wide sleeve. "Hurry! Quick!" said an excited voice at her ear and she swished through a door with lightning like rapidity.

On the Porch

"Oh, whispered Michael on the porch outside. "I outgeneraled the whole army of them. It's been years, years, kate, since I—I even spoke to you. And an eternity since last Sunday." He caught her trembling hand and raced her across a wide spreading lawn where lilacs tossed their lavender plumes and mock orange made one dream of happy brides. "That's my shack over there. The bungalow! My aunt and uncle gave it to me—"

"Aunt and Uncle who?" gasped Kate.

Mr. and Mrs. Weiss. You didn't know and I didn't want you to know. I wanted to go on my own.

A little white bungalow with friendly trees huddled lovingly around it. Michael was going to marry the visitor from Atlanta. Agony again. She no longer smelled the perfume of the lilacs and the orange boughs. A giant brush had washed out the golden color from the day. It was a flat one drab, gray, colorless.

Michael produced a key and flung the door wide. Then he picked her up in his strong arms and carried her over the threshold. "For luck, you know," he whispered, soft as the touch of an angel's wing. "My little sweetheart! Say you love me, Kate! Say you're going to make my dreams come true!"

Brown eyes looked into pansy eyes. A fairy chorus, somewhere far off, melodiously singing the Mendelssohn's triumphant song of happiness, of love fulfilled of enchanted isles that once in every maid and man mysteriously appear. Already at last! Among whose flowering trails one's feet may pass but once!

Silver and Gold

DRAWN BY POPINI

WHAT a world of wondrous romance may lie in a single word or in just one thought—particularly when two hearts hold that thought as one!

But when SHE turns away to gaze at the moon, marveling at the sparkling silver of its glow in the deep-blue sky, and HE seizes his chance and touches the glory of her hair with his fingers, and then caresses it to his lips—wondering at the pure gold of it—is there such a difference, after all, between their thoughts? Aren't both—she who marvels at the glow of silver and he who wonders at the glory of gold—thinking the SAME thought?

The miracle of nature, of day and of night, of dreams and of relatives, of faith and of love? And the miracle—far greater to them—that they have found each other?—*Popini*

WHEN A GIRL MARRIES

Betty Became Depressed and Slumped Back Into Such Dull and Deadly Inertia That Anne Was Afraid to Leave Her Alone

By Ann Lisle

"ONE of whom is very much interested—" began Betty in a tone which startled me because it was so full of the downright strength I'd fancied had been pretty thoroughly drained from Betty's life.

Being startled that any one should see what I only suspected, I jumped both literally and figuratively.

Whereupon Betty pulled herself up and looked at me questioningly.

"I didn't know you'd take my remark so seriously," she commented, with something almost apologetic in her tone.

"I didn't know it was so obvious." I gave back, wondering if Mabel herself had any idea of Park's attitude, and if even he was fully aware of it.

"I wouldn't call it obvious just because I saw it," returned Betty, with the old Betty twinkle in her eyes.

Never Dull

I had never before caught that glint of humor in her expression since the time when she found that her operation wasn't restoring the use of her arm. So when I found Betty, in the midst of her misery, "twinkling" responsively to the affairs of my friends, I determined to do my best to keep her smiling. I replied lightly:

"No, you've never been actually dull about getting things that might be veiled from the common herd. Still this is so much in its early stages that I thought even you wouldn't notice until the flames are fanned a bit—"

"You thought I wouldn't particularly notice," said Betty reproachfully. "You thought I was so ill centred I wouldn't get it."

"Surely it wouldn't be to your discredit if you didn't get it," I countered. "I don't think your Aunt May would—"

"Aunt hasn't the background of knowledge. She doesn't know the calibre of the people involved," said Betty quite.

"Why, you funny dear," I cried. "She knows Park mighty well, and as for Mabel, you've just met her—"

"Mabel!" cried Betty, her face a study in changing expressions. "What are you—I mean what are we talking about, Anne?"

"Wayne Parkinson's attitude towards my blessed old man-hater, Mabel Storrs, seems to be the subject that has the attention of the assembled multitude," I replied, drily.

Betty leaned forward and studied my face for a moment. Then she laughed briskly and with a note I hadn't heard all evening.

"Lilac princess!" she said, low and half to herself. "You don't know there's another man in the world but Jim Harrison, do you?"

"Of course I do!" I repled, setting that we were on ground likely to prove dangerous to Betty and treacherous to the healthy brightness she'd been showing all evening. "I know Tony's the best of pals, and Park's a darling, big, overgrown kid with a man's heart and Ralph Lacy is the last of the earth."

"You know all that!" mocked Betty. With something superb in her gesture and with all the poise of our Betty Bryce of long ago, happy days, she got to her feet. I wondered why one should be so queasy about such a trifle as our bit of gossip over Mabel and Park. But it seemed likely that she felt she'd intruded on the private concerns of two persons very dear to me and only slightly known to her.

"I didn't mean to pry," she said quietly. "Good night, Anne, and thank you for—being yourself—and for taking me out of myself."

"Don't run off like that," I protested. "You seem to think you've rushed in where angels fear to tread. I like having you understand. It's all so new. I'd scarcely formulated it in my own mind. But it would be wonderful, and if both of us are hoping for it and helping it along a bit, it's twice as likely to happen. You see, Mabel's very bitter against one—"

"You're a dear little kid. So if he should care—he'd not have such a very easy row to hoe."

All So New

"I see" Betty drily. "Wayne Parkinson Third, would be worth a desire to jar!! to the young woman who is so in tell her, if—if—things progressed." I replied. "He was Mabel remembering the wrong men and not see at Pate. I really don't how women can be so dull."

"I wonder," laughed Betty then a note of subtle interest crept into her voice as she said slowly and impressively: "Tell me about it, Anne. And remember she's a girl wasted on Atherton Rex."

The next morning found Betty in a mood of d mood so terrible that her wan humorousness on the evening of my arrival to take up my home with her seemed a figment of imagination. She slumped back into dull and deadly inertia; and as I dared not leave her alone, it was noon before I could get Miss Moss, and naturally I did not have until Betty was in her safe and kindly hands.

ROYAL ROMANCES

LOUIS XV. AND MME. DU BARRY

By Barbara Bayne

IN the village of Vaucouleurs, in 1746, was born a little peasant girl. Marie Jeanne Aimart de Vaubernier, who was destined to play a part in the overthrow of a kingdom and embalmed her name in letters of scarlet across the pages of the world's history.

At fifteen the incarnation of effervescent youth, Marie was a mulberry apprentice and as she delivered the dainty boxes, the lackeys of royalty smiled solicitously at every where in her way would have gladly escorted her. Madame, out of patience, abruptly and expressive shoulder and screamed "You're fired!"

Marie tossed her pretty head and flounced out with an impertinent, "I don't care!"

We can only surmise by what stages Marie arrived in the brilliant but disreputable society of the demi-monde. Having made up her mind to please the royal prince, it fell athwart her path, when a recent friend du Barry was on hand, the mate offered the "good thing" she accepted it. Immediately he had an interview with the King. A royal "petit souper" was arranged where Marie met Louis XV.

Marie was then twenty-four, petite, exquisitely lovely with heavy black hair, great dark eyes and a rosebud mouth. The King, old and blase, was enchanted and determined to make her his subject. But court etiquette must be observed, so a marriage was arranged with Count du Barry's brother who, enriched by an annuity of 5,000 livres bade his bride "adieu" and departed.

At Court Mme. du Barry she was presented at a great court function. As she knelt at the dais in the magnificent throne room, Louis XV. stepped forward, raised her hand and escorted her to a seat on the throne. What a step from a simple peasant girl to Sultana of France!

Adored by the King, she reigned over his brilliant corrupt, extravagant court for nineteen years until an attack of small pox terminated his life.

France was seething in rebellion because of royal extravagance, and Du Barry generously offered the wealth lavished upon her by Louis XV to relieve distress. Deploring the misfortune of the royal family, she risked a journey to England in their behalf for which the Jacobins condemned her to death. She whose sympathetic heart had bled for her many, was to feel no mercy.

Reverson says that a cloth of purple is not worth much value." And the aristocrats, with one exception, once met death with spartan courage. Du Barry, the peasant, struggled frantically to the last moment to elude her fate.

In the cart on the way to the guillotine her piercing cries awed the gloating Paris mob into silence. Their hatred of the aristocrats was momentarily forgotten in the presence of such frightful despair.

Strapped to the plank, her head on the fatal cushion, she wept and shrieked: "Life! Life! But one moment longer! But one—"

FRANKLIN'S KITE

By GARRETT P. SERVISS

Eminent Astronomer and Authority on Subjects of Scientific Interest.

A CORRESPONDENT said: "I cannot figure out how Benjamin Franklin was the father of electricity simply because he sent up a kite and from a key at the end of the silken cord felt a shock. What part of this was so important? Is it the knowledge that electricity would pass along a string, or what?"

It is not correct to call Franklin "the father of electricity" meaning electrical science. There is no one man to whom that honor could justly be assigned. But Franklin was one of the most important of the early contributors to the work of building up the science of electricity. There is no one man to whom that honor could justly be assigned. But Franklin was one of the most important of the early contributors to the work of building up the science of electricity. His most striking achievement was proving that lightning is a manifestation of electricity. That was what his kite experiment accomplished.

He had previously discovered a phenomenon that is sometimes called, picturesquely, "electric wind," but more correctly described by the phrase "point discharge." If a needle is attached to the conductor of an electric machine of which a strong charge of electricity has been accumulated the electricity streams off from the point of the needle, thus gradually discharging the conductor, and currents of electrified air repelled from the point may be felt by the hand, or may produce a sensation like blowing away the flame of a candle. This electric wind will produce a similar upon any insulated body upon which it impinges. In a similar way it will produce a similar upon any insulated body upon which it impinges. In a dark room, if a metallic point presented to a charged conductor will show off electricity, or gradually relieve the electric strain without a violent discharge.

Having by his experiments discovered these phenomena of "point discharge" it occurred to Franklin that a pointed iron rod directed toward a thunder cloud might act in a similar way, because he had begun to believe that lightning was simply a violent discharge of electricity accumulated upon the clouds.

INDIGESTION !!!
STOMACH UPSET, ATE TOO MUCH
Instantly! Stop Gas, Soumess, Heartburn, Stomach Misery

Chew a few pleasant, harmless tablets of "Pape's Diapepsin" and your distressed stomach will feel fine at once.

Correct your digestion and save your stomach for a few cents. Don't let your stomach keep you miserable! Druggists recommend it.

The World's Biggest Perfect Bell

THERE are many large bells in various buildings throughout the world, but the largest perfect one is said to be that in the temple at Osaka, Japan. It is twenty-four feet high and weighs 200 tons.

THE ENEMIES OF WOMEN By BLASCO IBANEZ

Start Here Today This Engrossing Story of Life and Love from the Master Pen of One of the World's Greatest Novelists

THE STORY TO DATE

Prince Michael Fedor, a Russian of fabulous wealth, is at Monte Carlo while the great war is on. With him is his friend, Atilio Castro, and other acquaintances. The prince, on returning to Villa Sirena, finds everything changed owing to the war. He announces, to the amazement of his hearers, that he is ruined. Castro sullingly remarks that he would be content with one-tenth of the remains. The Prince proposes that Castro and a few of their friends live together with the proviso that no women shall enter their lives. They will be known as "The Enemies of Women." Castro tells the Prince he has seen the Duchess de Delille. The Prince says he will not receive her. The story reverts to the marriage of the Prince's father and mother and the son's early training. His father dies and his mother marries again. He hears his income will be cut off on account of the war, so he sells his yacht and retires to his villa at Monte Carlo.

By Vicente Blasco Ibanez,
Author of "The Four Horsemen of the Apocalypse" and Other Novels of World Renown

SPADONI never gets to sleep until dawn," said Castro. "He spends the night studying his notes on the way the gambling has been going. He gets into my room sometimes when I'm asleep to tell me one of the everlasting systems that he has just discovered, and I have to threaten him with a slipper. In his room he keeps, among the music albums, piles of green sheets that give each day's plays for a year at all the various tables in the Casino. He's crazy."

But Castro took care not to add that he often asked Spadoni to lend him his "archives" in order to verify his own calculations; and in spite of the fun he made of Spadoni's "discoveries," he used to risk a little money on them, through his gambler's superstition that trusts the intuitions of the simple-minded.

After luncheon, they would both hurry off to the Casino. The Prince, when not attending a concert, remained with Novos and the Colonel in a logia on the upper story, looking out over the sea. The war had filled that part of the Mediterranean with boats. In normal times the sea presented a deserted monotonous appearance, with nothing to arrest the eye save the wheeling of the gulls, the foamy leaps of the dolphins and the sail of an occasional fishing boat.

The steamers and the large sailing vessels were then scarcely ever to be seen, even as tiny shadows on the horizon, for they followed their course direct from Marseilles to Genoa without following the extensive shore line of the Riviera gulf. But now the submarine menace had obliged the merchant ships to slip along within shelter of the coast. Convoys passed nearly every day; freighters of various nationalities, doubled like zebras to reduce their visibility, and escorted by French and Italian torpedo boats.

The Horrors of War

These rosaries of boats, so close to the coast that one could read their names, and make out their captains standing on the bridge, caused the Prince and the Professor to talk of the horrors of war.

Prince Michael hears Duchess de Delille confess her love for another

At times the Colonel entered the conversation, but only to lament the difficulties which such a war presented to the fulfillment of his duties as steward. Each day his task was becoming more difficult. He was no longer able to find anything which was worth serving at a table like that of the Prince, and even so, the prices that he paid roused his indignation when he compared them with those of peace times.

And the servants! He had sent to Spain for some, now that all those from the district were in the army, but the hotel proprietors had immediately enticed them away. They all preferred to serve in cafes or in places where people are continually coming and going, tempted by the chance of getting tips and by associating with the white-aproned chamber maids.

He had improvised dining-room service with the two Italian boys from Brodhigera whose families were living in Monaco.

"Whea you think of the work it costs me to make decent, respectable looking servants out of them?" groaned Toledo. "And now it seems that they are going to be called back to Italy as soldiers. More men off to the war! Even these young lads that haven't reached the age yet."

Many evenings, at the dinner hour, the rules of the community were rudely broken. The first to desert was Spadoni. He arrived some time after midnight, saying that he had dined with some friends. At other times he did not return at all. After a few days had gone by he quietly appeared, just as though he had gone out a few hours before, with the serene ingenuousness of a stray dog.

No one could ever find out for sure where he had been. He himself was not sure. "I met some friends," and in the same half-hour these friends would be some Englishmen from Nice or a family from Cap-Martin, as though he had been in both places at the same time.

Atilio Also Absent

Atilio also used to absent himself. A gambling companion had shown him in the Casino the little cards divided into columns, which are used to note the alternating frequence of "red" and "black." Various ladies had taken similar documents from their handbags, where they lay among the handkerchief, the powder box, the lip stick, the banknotes and the various colored chips which are used as money in the gaming.

The indications all agreed. During the morning and afternoon the "bets" were all lost, and the house was winning; but from 8 o'clock in the evening on undreamed-of fortune smiled on the players. The statistics could not be clearer; there was no possible doubt. And Castro would renounces the excellent food of Villa Sirena, satisfied with a glass of beer and a sandwich at the bar. Then at midnight he would return in a hired carriage, paying the astonished driver with prodigality. At other times he would stand in front of the gate flshing in his pocket to get together enough to pay for the cab.

This lack of orderly habits among his guests made Toledo lament once more the scarcity of servants, for they got up late in the morning whenever they sat up and waited all night. For that reason the Colonel felt the same satisfaction as the Governor of a fortress who sees all the posterns locked and feels the keys in his pocket the nights when all the companions of the Prince were present. After dinner they would listen to Spadoni, seated at a grand piano, he would play according to his mood or according to the wishes of the Prince.

Castro, who was himself a pianist, at times was unable to hide his enthusiasm at the wonderful execution of the virtuoso.

"And just to think that he is a fool!" he exclaimed, with the frankness of a man who is carried away by his feelings. "All his faculties are warped, and concentrated on a single purpose, music, without leaving any for anything else. What's the difference? He's an idiot—but a sublime one."

SPADONI A PUZZLE.

There were nights when Spadoni remained with his elbow on the keyboard and his brow on his right hand, as though completely absorbed in music, when, as a matter of fact, the visions that were whirling in his head, below those long locks, were red and black squares, many cards, and thirty-six numbers in three rows beginning with zero. The Prince, annoyed by the silence, turned to Castro.

"Tell us something about your grandfather, Don Enrique."

This grandfather of Castro's had married an aunt of General Saldana (the Prince's father), and, although Atilio had never known him personlly, he often talked about him, as a curious sort of a person who aroused his admiration, or bitter irony, according to his mood. He was a man of warlike temperament and rather perverse enthusiasms, who had succeeded in depleting the family fortune, already undermined by his predecessors.

A Russian Prince of Fabulous Wealth and Some Friends Bind Themselves to Bar All Women From Lives

PARENTS WHO SCOLD

THEY DO GREAT HARM AND NO GOOD

By Wm. A. McKeever.
Widely Known Lecturer and Writer and a National Authority on Juvenile Problems.

TO try to make your child good by frequent spankings is probably worse than no discipline at all.

To specify by so many words, and in his hearing, the faults committed by a child amounts to teaching him more of the same thing.

To try to make your child good by calling him bad, to try to make him reform by your denouncing his wickedness, is futile.

To shame your boy into self-improvement by citing examples of other boys designated as "models" is to make him hate them and dislike you.

To take a child's plaything away from him as punishment for his naughtiness is probably at least a very poor criticism of moral refinement.

To show a child clearly all the bad and ugly acts you wish him to avoid so that he may turn from them, is probably a means of teaching wickedness.

In the course of his ordinary conduct your child will act as he thinks. Whatever deeds of his visualizes will come out in acts.

During all the growing years a boy or girl is victim of the ideas which pass through his mind, especially those which visualize concrete acts.

"See those naughty boys throwing at the pigeons. You must not do the like." "See those big, wicked boys smoking cigarettes. You must let the dirty things alone." Thus we hear on every side these negative warnings, which teach the wrong more than they prevent it.

"Don't" is a much over-used word in the vocabulary of parents and teachers. Try to turn the thought away from the "don't" and toward the "do." The idea in the child's mind is the creator of his conduct. Supply him with a vision of the good deed. Notice these two methods intended to teach the same lesson—

"Tommy, you noisy scamp, quit beating that pan and slamming those blocks on the floor when Mother is tired."

"Tommy, bless your heart, come and kiss Mother. You are a good boy today, you lay the blocks down easy and talk gently, and you are trying to be so nice and quiet when Mother is tired—aren't you, Tommy?"

Train yourself first. Correct your errors of judgment. Apply a mixture of love, of common sense and of practical psychology, and child training will become a joy.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher on the wrapper for over 30 years. It protects the genuine. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but experiments that endanger the health of Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

DAILY HOROSCOPE

Mary Blake Says:

Today Lucky for the CAUTIOUS

AT the beginning of a new astrological sign the aspects are, as a rule, in a disturbed state, having of necessity to become settled in their new positions.

This is a warning to you to be cautious in every move you make today. Be particularly watchful of your health and of catching cold.

Today is the beginning of Pisces, a sign in the Zodiac that produces the highest type of man.

Are you one of these subjects? If so, your life will be one of great peace and joy, derived from your never-ceasing desire to do for others, while the majority of people in the world aspire to attaining wealth, believing that through material things they will find happiness.

The easiest person on earth to deceive is one's self; and that is what they are doing. They do not take the trouble to analyze themselves and therefore drift along year after year, accomplishing nothing.

It must not be imagined, however, that the goodness and kindness of those that characterizes those born under the auspices of Pisces apply to all and one alike. There are certain radical contrary elements which must be overcome and acquired if you are to enjoy the full benefits of your nativity.

These elements are irresponsibility, a disposition to be untruthful and an inability to make up your mind. If you guard against these tendencies, happiness will be the result.

GOOD NIGHT STORIES

Be Sure to Read Them to Your Children

Betty's Trip With Gocomeback.

By Blanche Silver

"OH, dear," growled Betty as the coffee can dropped to the floor. "I don't care if you do spill out. Nasty stuff."

"Just because you don't like it is no reason to call it names," laughed a merry voice, and Gocomeback, the little travel elfin, hopped down beside Betty from the shelves above the table. "Some folks think they can't get along without their coffee."

"Mama and Daddy drink it all the time," replied Betty, her cheeks flushing as she stooped down and picked up the coffee can. "I don't like it at all and don't see why they ever thought of manufacturing it."

"Just because you're out of sorts this morning," answered Gocomeback. "But hurry and I'll take you with me. I was on my way to visit a little friend of mine when I heard you fussing about the coffee." And before Betty could ask any questions he caught hold of her hand, and away they sailed through the air.

"I'll Take You With Me."

When they came back to the ground Betty found herself in a strange land.

"I'm sure I've never been here before," she mused, looking around at the queer little houses. "Where are we, anyway?"

"In Brazil, of course," laughed Gocomeback. "Can't you smell the air?"

Betty sniffed and sniffed, then began to laugh.

"Of course I do," she cried. "It smells like coffee."

Just then a little girl came running toward them and shook Gocomeback's hand.

"I should say it is coffee you smell!" she exclaimed. "Don't you see that plantation yonder? That's a coffee plantation. There are about a million trees in it, about ten feet high."

Betty, all excited, ran up to the tree nearest her and gathered a handful of the red berries with which the branches were heavily laden.

Rita, the little girl, opened the red berries and showed Betty the two little coffeebeans lying with their flat sides together.

"My goodness!" she laughed. "Coffee-raising is one of our greatest industries, and your America is one of our biggest markets. All our women and girls pick coffee-berries. The berries are then spread out in the sun to dry. Afterward the outer shells are beaten off and the inner covering removed. The coffee is then ready for market."

"Have you always raised coffee?" asked Betty, much interested.

"No, indeed," laughed Gocomeback. "It was not introduced into Brazil until about 1770. But the soil proved so fine they have made it their chief industry. Why, there's more coffee grown right here in Brazil than in all the rest of the world combined."

"My goodness!" sighed Betty, and she thought of the can she had spilled before leaving home.

Like a flash of lightning the whole scene vanished, and she found herself standing beside her own kitchen-table. She smiled to herself as she set the coffee-can carefully on the shelf.

(Another fine story tomorrow.)

WHO SAID IT AND WHERE

"Our Country! In her intercourse with foreign nations may she always be in the right; but our country, right or wrong."

A toast by Stephen Decatur (1779-1820) at a banquet in Norfolk, Va., April, 1816, to which we all drink.

"Turn over a new leaf."

This expression for reform is found in "Anything for a Quiet Life," by Thomas Middleton (1570-1627).

"No day without a line."

Pliny (62-113 A. D.) in his history tells of Apelles, the Greek painter, who never allowed a day to pass without adding a line to a picture.

"East or west, home is best."

Is an old German saying in praise of home.

FURNITURE IN HOME

By Marian Moore

FIRESIDE GROUPING.

INTERIOR decorators agree that the fireplace is the soul of the room and the centre of hospitality. The general public agrees to that, even if it is not expressed in such poetic fashion, and fireplaces are built as surely as windows and doors in a new house.

The idea of hospitality must be carried out by wisely grouping the furniture in a manner to induce rest and conversation. An upholstered sofa and easy chair are the fitting companions for a fireplace, and their comfortable depths are conducive to many happy moments when grouped to face the firelight.

Inviting Fireside Grouping.

Fortunately these pieces may be obtained to suit a room of any size and upholstered in fabrics that range from heavy materials which are bayproof and dogproof to the most exquisite ones for the formal room.

The window draperies should repeat the tones of the upholstering, and the rug should be a neutral shade or two-tone effect, with a brighter rug at the hearth.

(Write to Marion Moore, care of this newspaper, for advice or information about home furnishing or decorating, sending stamped, addressed envelope for reply.)

Question: Is painted furniture in good taste for a bedroom? If so, what color should I get?—O.K.M.

Answer: A yellow painted bedroom suite, comprising bed, desk, desk chair, dresser, dressing table, bench and small table, with blue garlands of flowers for decorations, make one of the most charming rooms imaginable, with blue curtains and yellow chints wallpaper.)

ETIQUETTE POINTERS

By Ann Adams

DEAR Miss Adams:

Will you kindly let me know how to arrange a shower?

GLADYS W.

GET in touch with the girl friends of the person for whom you propose giving the linen shower. It is a courteous thing to consult the girl's mother first. Each guest brings a piece of linen for the prospective bride. They are daintily arranged or left in their packages for the engaged girl to open herself. A novelty may be introduced by individual sayings attached to each gift.

After the shower a simple repast is given. A buffet luncheon or salad, cake and coffee may be served.

(Copyright, 1923, Premier Syndicate, Inc.)

Mary and Her Famous Lamb

Mary had a little lamb,
Worth twenty cents a pound,
And Mary knew a butcher man
To whom she took it 'round.
Was Mary sorry for her lamb?
You ask. "Oh did she weep?"
No, all that she regretted was
She did not have a sheep.

BEST RECIPES

New England housewives are requested to send in recipes for appetizing dishes. One dollar will be sent each winner printed here. Address Recipe Editor, Boston American 8, Boston, Mass.

Cheese Fondue

One cup bread crumbs, ¾ cup milk, 1½ cups grated cheese, 1 egg beaten well, 1 tablespoon butter, ½ teaspoon salt, a few grains cayenne pepper. Cook the bread crumbs and milk together in double boiler, stirring it until the mixture is hot and smooth, add the butter, cheese, salt and pepper. Cook it about 1 minute longer and remove it from fire. Add beaten egg. Bake it about 20 minutes in a buttered pudding dish, or until it is light-brown on top. Serve it at once.

MARIE T. NUZZOLO.

No. 46 Porter street, East Boston, Mass.

Chinese Pie

One can of cods, 1 can peas 1 pound Hamburg steak, 6 good-sized potatoes seasoned and mashed. Place Hamburg steak in bottom of casserole. Add alternate layers of peas and corn, using some liquid from each. Place mashed potatoes lightly on top and bake about 30 minutes, or until steak is done. This is fine for a cold night's supper.

MRS. J. A. HEFFERNAN.

No. 26 Blair street, Springfield, Mass.

Lemon and Raisin Pie

Three-quarters cup sugar, ¼ cup flour, ¾ cup boiling water, 1 cup raisins, 2 egg yolks, 1 teaspoon butter, 3 tablespoons lemon juice, 1 teaspoon grated rind. Mix sugar and flour, stir in water and raisins. Cook in double boiler until thick. Four onto yolks and cook 5 minutes more. Add butter, juice and rind. Cool and pour into baked crust. Cover with meringue, brown in oven.

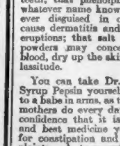
MRS. A. L. McGARY.

136 Rhoda street, Houghs Neck, Mass.

Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results

IT is not necessary to take a violent physic for so simple an ailment as constipation. Yet many thoughtless parents give mercury in the form of calomel, and coal-tar in the form of phenol when a natural vegetable compound like Dr. Caldwell's Syrup Pepsin will do the work equally well and without danger. People should realize that mercury may salivate and in curtain conditions loosen the teeth; that phenolphthalein, by whatever name known and however disguised, may irritate, cause dermatitis and other skin eruptions; that salt waters and powders dehydrate the blood, dry up the skin and cause lassitude.



You can take Dr. Caldwell's Syrup Pepsin yourself or give it to a babe in arms, as thousands of mothers do every day, with the confidence that it is the safest and best medicine you can use for constipation and such complaints. A teaspoonful will relieve you over night even if the constipation has been chronic for years. Dr. Caldwell's Syrup Pepsin is a compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and does not cramp or gripe. Every druggist handles it, and bottles are so generous that the cost amounts to only about a cent a dose. You buy it with the understanding that if it does not do as claimed your money will be refunded. The names of all the ingredients are on the package.

ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking themselves, "Where can I find a trustworthy laxative that anyone in the family can use when constipated? I urge you to try Syrup Pepsin. I will gladly provide a liberal free sample bottle, sufficient for an ordinary test. Write me where to send it. Address Dr. W. B. Caldwell, 514 Washington St., Monticello, Illinois. Do it now!

Mrs. A. Arceneaux of Orange, Texas, suffered from constipation for six years and found no relief until she used Dr. Caldwell's Syrup Pepsin; and Mrs. Gus Anderson of Ball, Kans., corrected her bowel trouble so that she now eats and sleeps normally. Bring a bottle of Dr. Caldwell's Syrup Pepsin into your own home and let the family use it for constipation, biliousness, wind, gas, headaches, flatulency, and to break up fevers and colds.

TAKE DR. CALDWELL'S SYRUP PEPSIN
The family laxative

Railroads Active and Strong in Irregular Market with New Tops Registered

FORBES' VIEWS ON FINANCE

By B. C. Forbes

You can sometimes kill by kindness. Is there not at least a little danger that Congress may kill far more by mistaken kindness?

* * *

Washington is all for the farmers these days. That is as it should be. But in their anxiety to help our farmers some of the politicians have been proposing things which would hurt, not help. Apparently, a good many of our lawmakers reason that it would be suicidal not to vote for anything and everything bearing the label "for the farmers."

* * *

I had a talk the other day with a banker who knows farming financial conditions unusually well, and who has been keeping very close tabs on events at Washington. Most of what follows I gathered from a long talk with him.

* * *

The original Lenroot-Anderson bill was the result of the report of the Joint Commission of Agricultural Inquiry. The bill now varies widely from the original draft, introduced in January, 1921, and instead of calling for $125,000,000 of government money, now calls for $60,000,000 and even $120,000,000 if needed. It calls also for tax exemptions which may involve some $600,000,000 to $1,000,000,000 of tax exempt paper.

For effectiveness, it relies upon government capital and tax exemptions, but even then the ability to sell notes, the main reliance for raising capital, is doubted. Judge Lobadell, chairman of the Farm Loan Board, which is to administer the measures, told the Senate committee of banking and currency that he did not believe the notes would be saleable.

* * *

The Capper bill embodies a different policy. It aims at developing existing banking machinery to greater usefulness for agricultural purposes.

* * *

Eugene Meyer, Jr., managing director of the War Finance Corporation, told the Senate Committee on Banking and Currency that the most important thing in agricultural credit is something that is not a matter of legislation at all, but a matter of administration. He declared that the recruiting of a large proportion of the 9,678 banks that are now eligible for membership in the Federal Reserve system, but which yet have not joined, would be the most important single item in establishing adequate credit facilities for agricultural purposes. Most of the banks that are now eligible and have not joined are in the agricultural districts.

* * *

The Capper bill contains a provision extending the War Finance Corporation for sufficient length of time to see whether or not and how the bill will work. Secretary Mellon's recommendation is to pass the Capper bill and hold off on other measures until the next Congress convenes to see if any other measures are necessary.

* * *

My own opinion is that Secretary Mellon's advice is likely to prove sound.

* * *

Incidentally, if the farmers get no more real help from agricultural legislation than they got from the tariff, the Republican administration had better look out next year.

(Copyright, 1923, by B. C. Forbes.)

BUYING IS SUGGESTED IN INVINCIBLE OIL

Whitney & Eiwell in special bulletin say: "We suggest the purchase of Invincible Oil, selling between 17 and 18, listed on the New York Stock Exchange, as an attractive speculative purchase. From the published earnings to date it is likely that the earnings for 1922 will amount to about $3 per share on the stock. The high on the stock last year was 20, for 1921 the high was 28, for 1920 the high was 47 and for 1918 49¾.

"The Geological Survey issued a report about a week ago, showing that in December, 1922, consumption plus export of petroleum exceeded production plus imports. Stocks of crude oil during December showed the first significant decrease since May, 1920. If this new trend continues, December is likely to mark the turning point in the petroleum industry."

TODD SHIPYARDS TO BUILD GREAT DOCK

Directors of Todd Shipyards Corporation have declared regular quarterly dividend of $2.00 per share, payable March 20, to stock of record March 1. The board also approved the recommendation of the president for the building of a large dry dock capable of accommodating ships of at least 40,000 tons.

Points in Monday's Market

Total sales—New York, 1,318,100 shares; Boston, 48,574 shares.

Most active issue in New York—Westinghouse Electric, 52,600 shares.

Most active issue in Boston—Zuolumne, 5,900 shares.

Total sales, Jan. 1, 1923, to date—New York, 30,368,200 shares.

Total sales, Jan. 1, 1923, to date—Boston 917,724 shares.

Corresponding period last year—New York, 26,852,500 sh.

Corresponding period last year—Boston, 814,476 shares.

UNITED FRUIT AT FRESH HIGH FOR YEAR

Railroads were active and strong today on the New York Stock Exchange with some new tops registered in an irregular market. Money renewed at 4¾.

Fresh highs for 1922 were recorded in United Fruit, Stromberg, Bosch Magneto, Eastman Kodak, Mother Lode, Southern Pacific, Union Pacific, Canadian Pacific, Baltimore & Ohio and American Woolen.

New Haven was up 1¾ at 21¾, having closed higher yesterday on the big board than it did in Boston. Du Pont sold off a point at 116¼.

Fresh buying power made its appearance in the motor, Motor Accessory, Independent Steel and Tobacco shares. Stromberg advanced 2¾ points and Bosch Magneto 1¾.

Resumption of heavy buying of American Woolen sent that stock up 1⅝ points.

Gains of one to two points also were recorded by Studebaker, New Orleans Texas & Mexico, Gulf States Steel, United Retail Stores, Louisville & Nashville, Mathison Alkali and United Fruit. South Porto Rican Sugar broke four points.

Sterling exchange mounted to another new high record today, demand bills being quoted at $4.70 12-16. This represents an overnight advance of nearly a cent and is the highest rate recorded since the abandonment of the "pegged rate" of $4.75 in March, 1919. The normal or par rate is $4.86⅔.

Francs advanced 4 points to 6.07. Dutch guilders approached to within a few points of par, being quoted at 39.60 cents. German marks continued reactionary, dropping 3½ points to .0041 cents.

New England Rails in Rise on Court Decision

New England railroads reflected the U. S. Supreme Court decision adding to their income by rising smartly. Boston & Maine added 2½ at 21, the Class A 1¾ at 20½, Class B 2 at 46 and New Haven 2⅜ at 21¾.

Massachusetts Gas added a point at 84½. St. Mary's and Mergenthaler receded a point each.

Fractional gains appeared in Boston Elevated, Mohawk, Old Dominion, Quincy, United Shoe, Eastern Manufacturing and Mississippi Power.

There were setbacks of fractions for Torrington, Swift & Co., Waldorf and Hood Rubber.

RECEIPTS INCREASE FOR BOSTON & ELY

Boston & Ely Consolidated has just received report from its consulting engineer, Raymond Guyer, saying: "Receipts for January shipments to the Nevada Consolidated Smelter are $9,900, against $5,000 for December. My report will be very favorable and most promising for coming year. Ore is being raised in grade and costs reduced to minimum, which, with rising metal market, will give greatly increased profits. Stopes are over 25 feet wide in places and new ores is being found."

SLUMP IN DIAMOND TRADE IS REFLECTED

Slump in diamond trade has affected seriously Premier (Transvaal) Diamond Company whose report for year ended October, 1922, shows revenue from diamonds declined from 439,686 to 253,384 pounds sterling. Two years ago revenue from this source was over 2,000,000 sterling.

PRICES ARE FIRM FOR COTTON FUTURES

New York, Feb. 20.—Prices for cotton futures were firm at the opening today. March was up 3 points at 28.90; May up 9 at 28.90, July up 7 at 28.36 and October up 3 at 25.35.

STOCKS ARE FIRM IN LONDON MARKET

Stocks were firm in the London market. Consols were 57⅝, up ⅛; British war loans 3½s 95⅛, up ⅛; 5s 101⅛, up ⅛; 4½s 96½, up ⅛; 4s 86; funding 4s 85⅛, off ⅛; French 5s 23⅜, up ¼; Russian 6s 3; 4½s 3; 4s 3; Rio Tinto 37, up ⅛.

161-8 CENTS ASKED IN COPPER MARKET

Copper buying began in New York with fair sales at 16 cents pound delivered. Some producers are asking 16⅛ cents.

Boston Notes

CORPORATION has been formed with $1,500,000 capital to merge 21 clothing stores in Boston System stores operating mainly in New England.

NORWICH, Conn., will receive proposals until noon, March 20, for purchase of $250,000 of 4½ per cent. schoolhouse bonds, maturing in each of years 1924 to 1943 inclusive.

EDISON CO. of Boston's decrease in average cost per Kilowatt hour in 1922 was considerably less than drop in average income per kilowatt hour, yet substantial saving in operating expenses was effected.

HARD TO explain is Boston & Maine's 1922 decrease of 1,407,603 in number of passengers carried. Perhaps immigration restrictions account in part for falling off.

PROVIDENCE, R. I., will receive proposals until 2:15 p. m. March 8 for $700,000 of 4 per cent. school bonds, dated April 2, 1923 and maturing April 2, 1953.

PORTLAND, Me., will recieve bids until noon, February 23, for discount of 4% temporary revenue loan of $300,000, dated March 1 and payable October 4, 1923.

WESTFIELD will receive proposals until 12 a. m., February 24, for discount of a temporary revenue loan of $250,000, dated February 28 and payable $125,000 October 10 and balance November 10, 1923.

MICHIGAN coppers estimate February business will be about 70 per cent. domestic.

NEW CORNELIA'S construction work now under way will cost about $4,000,000 and take a year to push to completion.

SHORT drifts will be put into 14th level of No. 2 Gratiot, of Seneca Copper, to the north and south before sinking is resumed, which probably will be soon.

INTEREST in the Goldfield mining issues continues to dominate this group and a new forward movement in these stocks is expected by many, with Goldfield Development leading. Latest reports from Goldfield indicate steady progress on the work of sinking the deep shaft in the Deep Mines property.

GREENFIELD Tap & Die's big foreign business has shown consistent upswing in line with advance in sterling, continuance of which is therefore naturally expected to be followed by further betterment.

HORNBLOWER & WEEKS the return of impressive strength to the market before this afternoon's close seems likely and we would not be surprised if yesterday's reaction proves to be all that would be necessary until after the holiday.

$14,505,800

The Goodyear Tire & Rubber Company

8% Cumulative Prior Preference Stock

(Voting Trust Certificates)

Redeemable as a whole or in part at 110 and accrued dividends on 60 days' notice. Dividends payable quarterly, January, April, July and October 1. Par value of shares $100. Total authorized $40,000,000; issued $33,098,000; purchased by Company for retirement $13,098,000; under contract to the Company for purchase and retirement on or before February 1, 1924, $5,000,000. Stock free from all present Ohio taxes except Inheritance Tax. Dividends free from the present United States Normal Income Tax. A cumulative annual sinking fund provides for purchase at or below 110 and accrued dividends, or if not so obtainable, for call at that price. The $5,000,000 stock (Voting Trust Certificates) under purchase contract will be redeemed for the sinking fund, which should redeem the entire amount now outstanding within thirteen years.

Registrars: The New York Trust Company, New York, and The Cleveland Trust Company, Cleveland
Transfer Agents: Guaranty Trust Company of New York and The Union Trust Company, Cleveland

Application will be made in due course to list Voting Trust Certificates on the New York Stock Exchange.

The following information is summarized from a letter by Mr. E. G. Wilmer, President of the Company:

The Goodyear Tire & Rubber Company is the largest manufacturer of rubber tires in the world, producing at present approximately 20% of the total automobile tires manufactured in this country, as well as an extensive line of mechanical and other rubber goods.

ASSETS PER SHARE

The Company's balance sheet as of December 31, 1922, adjusted to give effect to certain subsequent capital changes, as certified by Messrs. Price, Waterhouse & Company shows net current assets of $47,766,830 or $238 per share of Prior Preference Stock, including the shares under contract of purchase by the Company on or before February 1, 1924.

Net tangible assets for the Prior Preference Stock are shown to be $75,297,597, or $376 per share.

EARNINGS

For the four fiscal years ended October 31, 1919, during which period there was no funded debt, net income after all charges, and available for interest and dividends, as certified by Messrs. Price, Waterhouse & Company, averaged $11,493,793 per annum. Deducting annual charges on present funded debt leaves $6,229,124 which would have available for dividends on Prior Preference Stock had the present capitalization then been in existence.

During the sixteen months from October 31, 1919 to February 28,1921 there occurred the extraordinary trade depression which precipitated the Company's reorganization. The losses sustained were subsequently absorbed through adjustments of capitalization at time of reorganization.

For the ten months from February 28, 1921, to December 31, 1921, income after interest, taxes, extraordinary adjustments and all other charges, and applicable to dividends on Prior Preference Stock, was $3,620,043, while for the fiscal year ended December 31, 1922, such income was $3,551,182. For the last three months of 1922 income available for dividends on the Prior Preference Stock was at the rate of $6,000,000 per annum. Annual requirements are $1,600,000 for dividends on the stock outstanding, including the $5,000,000 par value, under contract of purchase by the Company.

Both First Mortgage Bonds and Debenture Bonds are retireable respectively by semi-annual and annual sinking funds, as more fully described in the President's letter, which through their operations, materially reduce interest charges ahead of the Prior Preference Stock and increase its equity.

CAPITALIZATION

	Outstanding
First Mortgage 20 Year 8% Sinking Fund Gold Bonds	$27,750,000
Ten Year 8% Sinking Fund Gold Debenture Bonds	27,500,000*
8% Cumulative Prior Preference Stock(par va ue $100)	20,000,000**
6% Cumulative Management Stock	10,000
7% Cumulative Preferred Stock (par value $100)	65,079,600
Common Stock (no par value) declared value	1,000,000

*Includes $2,500,000 par value acquired by the Company in anticipation of Sinking Fund retirement.
**Includes $5,000,000 par value under contract to the Company for purchase and retirement. Entire outstanding amount in a Voting Trust expiring May 1, 1941 or earlier at option of Voting Trustees.

OUTLOOK

During the last two years the rubber industry has labored under frequent reductions of the selling prices of its products imposed by the continued downward trend of the market prices of the principal raw materials. In the face of this the Company was obliged to use and pay for high priced materials purchased in 1920. These materials have now been taken in and consumed and the Company is again operating with inventories the average cost of which is at or under current market.

With better selling prices now prevalent, and sales volume steadily increasing the Company's outlook for a profitable business is excellent.

We offer the above Voting Trust Certificates with dividend accrued from January 1, 1923,

at $98 per share (flat)

Further information is contained in our circular, which may be had on request.

NEW ENGLAND OIL NOTICE GIVEN

Taking one of the final steps in the reorganization of the New England Oil Corporation, notice has been sent subscribers to the new issue of $5,000,000 first lien and general 8 per cent. bonds and 560,000 shares of stock of the New England Oil Refining Company calling for payment of subscriptions on Saturday at $560 for each $1,000 bond together with 112 shares of common stock of the refining company. This will supply the refining company with additional working capital which will be welcome in view of the rising price tendency of crude oil.

Over 90 per cent. of the New England Oil Corporation 8 per cent. notes, 1925, have been deposited with the protective committee. All the noteholders whom the committee has been able to reach have co-operated to make the readjustment plan effective. Under the plan the New England Oil Corporation will be eliminated and holders of its securities will receive preferred on common stock or both of the New England Oil Refining Company. A minimum of $4,250,000 new capital is provided by the plan.

Time Draws Short for Queries on Income Taxes

Time is drawing short for queries on income taxes. State papers must be in by March 1, Federal papers by March 15. Services of an expert in accountancy are placed by the Boston American's financial department at convenience of its readers to solve problems without charge. Mail inquiries to Attorney Oliver A. Wyman, No. 150 Congress street, Boston. He is one of Massachusetts' leading authorities on income tax details. Send stamped envelope.

SENECA COPPER

We have compiled an up-to-date report on the above stock which will be sent upon request.

ENDICOTT-JOHNSON ADDS TO HOLDINGS

Endicott-Johnson Corporation has acquired the old Union Novelty Works Building in West Endicott, where the company is already building a large addition. Novelty Works building is being remodelled into a factory where 4,000 pairs of girls', misses' and children's shoes are to be cut and stitched daily. The shoes will be bottomed and finished in the daylight extension of the new West Endicott factory.

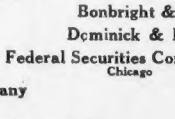
STATEMENT ISSUED BY ARMOUR & CO.

Statement of Armour & Co. and subsidiaries as of December 31, 1922, first since recent refinancing, shows total assets of $441,589,820. Of current assets of $150,492,830, cash was $34,144,547 and inventories $78,856,328. Of current liabilities of $80,885,819, notes payable were $40,265,570, and accounts payable $29,833,074. Company has changed its fiscal year to end December 31.



What Is the Outlook for Sugar Stocks?

The recent strength in Sugar stocks has attracted considerable attention to the peculiar conditions which now exist in the sugar situation, and a thorough analysis of this industry has been prepared in the current issue of Stories the Ticker Tells.

This booklet contains a comprehensive review of the possibilities for

AMERICAN SUGAR
AM. BEET SUGAR
CUBA CANE SUGAR

In addition to this intensely interesting article there are also several other valuable features.

WHEAT FUTURES ARE STEADY TO LOWER

In the Chicago pit wheat was steady to ¼ c. lower; Corn, ⅛ c. higher to ⅛ c. lower; and oats unchanged. Wheat—May, 1.20 to 1.20¾; July, 1.15⅝; September, 1.14. Corn—May 64¾ to 65¼; July, 76⅜ September, 77¼ to 77⅝. Oats—May 46⅜ to 46½; July, 45⅝ to 45⅞.

Mutual Oil
Mountain Producers
Salt Creek Producers

Six advances in ten weeks in Salt Creek crude oils. More than 100% increase. The pipe line embargo to the Casper refinery lifted after March 7th!

The above trio of superlative Salt Creek (Wyoming) producing companies made excellent profits under the old conditions in 1922.

What of their earnings and dividends for the current year?

The extraordinary speculative possibilities immediately awaiting these wonderful Wyoming producing companies under newer beneficial conditions are visualized in our special analysis just prepared.

AVOID DANGER.

TO F. I. N., BOWDOIN STREET.—When there is a possibility that a weak, unseasoned stock may behave badly, be sure that probability lurks fast around the corner. Though you accept the risk once and win, the ratio of probable law of percentages is against you. If you have money you can afford to lose, you may be justified in taking a certain amount of hazard. If you can't afford to lose, either stay out of the game or else get expert advice and then stay out.

EASTERN MANUFACTURING.

TO Y. E., Neponset.—Eastern Manufacturing is out of its 1921 red ink figures. For 1922 company will report a profit of approximately $150,000, after all charges including interest and a liberal depreciation that ran over 10 per cent ahead of the previous year's allowance. The new consolidated statement will merge the figures of the subsidiaries, Liberty Paper Co., Lincoln Pulpwood Co. and Katahdin Pulp & Paper Co.

Substantial progress was made in cutting down floating debt, the reduction being about $700,000 for all companies combined. This year, if business holds as at present, it is planned to cut borrowings in two.

Capitalization of Eastern Manufacturing Company consists of $2,500,000, 7 per cent. mortgage bonds; $2,152,500 7 per cent. first preferred; $1,000,000 7 per cent. preferred and $788,575 common (par $50). Eastern Manufacturing is now earning at rate of $3 a share on its common stock.

Wall St. Gossip

TIMKEN Roller Bearing has made its recent new highs on the strength of capacity operations and expansion.

SUGAR stocks are being tipped by a number of brokers for a further advance.

PUBLIC Service Corporation is talked of for $10 dividend rate.

STOCKS picked for displays of strength for next few days by a leading market observer include Asphalt, Cuban, U. S. Industrial Alcohol, Westinghouse and the Replogle steel group.

INLAND Steel Co. said to be negotiating with Kuhn, Loeb & Co for sale of block of preferred to finance plant additions, increasing capacity 25 per cent.

NEW York Transit for 1922 report net of $549,194, after taxes and depreciation, equivalent to $10.98 a share on 50,000 stock, against $520,957, or $10.41 a share in 1921.

MARSHALL Field & Co.'s whole sale distribution of dry goods last week showed a satisfactory increase over a year ago.

AIR Reduction Co., Inc., for 1922 shows net of $879,507 after interest, federal taxes and reserves, equivalent $5.32 a share on 168,121 no-par shares against $630,624 before federal taxes, or $4.11 a share on 153,079 shares in 1921.

STANDARD Oil of New Jersey net income of $12,256,132 for first six months of 1922 is equal to $1.36 a share after preferred dividends on 3,955,773 shares of common then outstanding.

COCA-COLA CO. for 1922 reports net profit $6,268,442 after charges and federal taxes, equal after preferred dividends to $11.14 a share on 500,000 outstanding shares no-par common, against $9.29 a share in 1921.

SECOND advance in fire prices will shortly be announced. It will be general as to both products and companies, ranging from 8 per cent to 15 per cent on the various items and averaging 10 per cent.

IT HAS been a 200k and 10 payment at Montgomery Ward, class A stock, which has 15% per cent back dividends accrued, may begin this year, according to one who specializes in the dry goods stocks.

PRINCE & WHITELY—Add to holdings of the rails in anticipation of favorable reports soon coming to hand.

F. B. KEECH & CO.—We expect continuance of market activity and growing speculation, and would hold selected stocks for the present.

J. S. BACHE & CO.—The last few days rails have shown inclination to advance and look for them to be active and higher.

Atchison Car Loadings

Atchison's freight loadings last week totalled 31,876, against 26,353 a year ago.

BOSTON AMERICAN

Largest Evening Circulation in New England—February 20, 1923

Boston has for some years ranked fourth among the cities of the country as to aggregate valuation, but first as to valuation per capita.

How Edison Company Fights Against Rate Reduction

Here is an interesting passage at arms to which we call public attention. Before quoting the stenographer's notes we will explain the situation.

It was at a hearing held last week before the Department of Public Utilities on the petition of the city of Boston and the Boston American to reduce the charges which the Edison Electric Illuminating Company is making for electricity and power. Special counsel for the city and for the Boston American asked the commission to direct the company to answer certain interrogatories which had not been fully answered. One of those particularly desired was that the company should furnish to counsel certain of the load curves. Mr. Ives, counsel for the company, objected to furnishing them, in this language:

MR. IVES—If the board tells us to do it we will do it, but we don't see the sense of requiring us to work all this out.

MR. MacFARLAND—You are not obliged to do any work at all. I have told you we will do it.

COMMISSIONER STONE—What is the objection to their doing it, Mr. Ives?

MR. IVES—We will have to do it all over again, because we don't know for what they will use it, or that they have done it correctly.

MR. MacFARLAND—That is the point. Let him talk long enough and he will give himself away. He doesn't know what use we will make of it. That is what is troubling him.

MR. IVES—I don't know, and if it is immaterial I might give it to you.

MR. MacFARLAND—And it is because you fear that it will be material that you won't give it to us.

COMMISSIONER STONE—What do you want, Mr. MacFarland?

MR. MacFARLAND—Will you stand on the load curves which you have already submitted, as typical?

MR. IVES—I don't know what you mean.

MR. MacFARLAND—Will you admit that they are typical load curves?

MR. IVES—I will admit that they are accurate, surely.

MR. MacFARLAND—Will you admit that they are typical?

MR. IVES—I assume they are typical.

MR. MacFARLAND—Will you admit it, or will you agree not to come in with other load curves contradicting these load curves? If so, I will not ask for it.

MR. IVES—Certainly I will not.

MR. MacFARLAND—Then I ask for the ruling of the commission.

This is the attitude of public service corporations performing a great public function under private management and for private profit. This company insists upon making the fight to reduce rates as expensive for the public as possible. Every bit of information has to be dragged out of the company by piecemeal and the company's reasons for its unwillingness to disclose the facts are as various as the circumstances will permit.

Burke gives us an idea of the number of excuses which circumstances will permit in his famous definition of their variety: "Circumstances are infinite, are infinitely combined, are variable and transient." But Burke did not say that they are inconsistent, so counsel for our public service companies can go Burke one better in the variety of their excuses.

Magnificent Discovery

Belief in Immortality Is Old

Copyright, 1923, Star Company

Of all discoveries that human beings have made, none excels in intense interest for the intelligent mind the discovery of the tomb of King Tutankhamen of the eighteenth Egyptian dynasty.

Of all the teachings in that discovery, the most important is the proof that belief in immortality, of future life, has always been a part of human thought.

The old Egyptian King was buried with great supplies of food, to be used upon his resurrection. Haunches of venison, trussed ducks, food of all kinds was packed in boxes, and the food was mummified, as was the body of the King, that it might last as long as that mummy body.

Who can believe that the "just, benevolent power" or "wise economical laws" governing this universe would put in all human heads, from the slanting Egyptian forehead to the brains of today, BELIEF IN IMMORTAL LIFE if that belief and hope were only to prove a lie in the end?

Why to the French?

Were We Under Them?

Copyright, 1923, Star Company

American troops finally leaving German soil turn over their "area" to the French. And the French, assuming control, announce that they will apply "the same disciplinary measures imposed upon Prussian civil authorities elsewhere in the Rhineland."

Many Americans will wonder WHY this government turned any German soil over to French authorities, instead of turning the soil back to the Germans, to whom it belongs.

Presumably, however, the so-called American occupation has been a good deal of a farce, and really under the authority of the French government.

The War Department will doubtless make that clear, one way or the other. We said we wanted nothing from the war. How did we get the German land, now delivered by us to France?

Inauguration Day Change

The Boston Globe claims credit for General Taylor, its distinguished founder, for the progress which the proposal to change inauguration day from March 1 to January 1 is now making in Congress. It has just passed the Senate and is well on its way toward final passage.

The Globe cites certain facts concerning the late General Taylor's efforts in this direction which do indicate that he is entitled to credit. It was an important service to his country which General Taylor rendered in the closing hours of his long and active career. The change will be a useful improvement in our constitutional methods, for the three months interregnum between one administration and the other, if it is a hostile administration, may be used very mischievously by the administration which is going out. Moreover, three months is sometimes a long period in which to wait for the assembling of a new Congress and its getting down to business. It increases the uncertainty of the country concerning the action of the new Congress in matters which may greatly affect business conditions of the nation.

PHARAOH NEAR THE END OF HIS JOURNEY

By Herbert Kaufman

TUTANKHAMEN approaches the end of his journey.

Poor deluded fool! He thought to bribe heaven and dazzle it with his wealth and splendor.

Robed in gold, staggering with jewels, regally provendered and surrounded with the loot of an empire, he set forth to find eternity—and lands in a glass case and the fashion pages.

Just a shriveled bag of bones for the questing fingers of archaeology. Important only in the secrets his mummy may reveal. Unreverenced and valued less than the furniture and vestments in his sarcophagus.

Simply a subject for study. A mere curio, impiously unearthed to furnish facts and relics for history.

The empire he wrathfully ruled is now a sideshow and the home of rabble. Isis and Horus and set are fled, Memphis, Luxor and Thebes vanished.

Time has eaten their glory and covered the carcass with desert.

Where Cleopatra's barges rode, excursion steamers churn the Nile. The Sphinx and Pyramids are tourist bait.

From world dominion to "the streets of Cairo," from Cheops to "Cooks," Egypt has indeed fallen!

The Coal Cat Is Out of the Bag

The pharaohs spoiled their own game. They took too much while they had the chance. Old King Coal is doing the same thing and riding for the same kind of a fall.

Empty bins will be the next campaign issue if the administration doesn't get busy and fill them now.

We've had our last fuelless year.

We'll never again pay twenty-five dollars a ton for the slaty truck in our stoves and furnaces. We've seen the last of profiteering in painted stone and colliery tailings.

If the mine owners can't and won't give us value and service, let them prepare for confiscation.

The Handwriting Is on the Wall

Northern New York has been compelled to commandeer supplies from passing trains. New England is one vast shiver.

Mine-owning railroads are simply begging for Federal operation again by abetting the shortage and gouging with indefensible anthracite shipments into Canada. The dominion resells here at scandalous advances. And it isn't certain either that our friends across the border get all the profit.

We've seventy thousand laws on the statute books and yet authorities hem and haw and fiddle and fuddle and confer and delay, while schools, churches and even hospitals go unheated, and impudent greed goes unpunished.

The Waterman will lets the cat out of the bag. The Kingston collieries paid one block of stock $27,000 in 1918, $28,000 in 1919, $54,000 in 1920 and $60,000 in 1921. Tell that to your Congressman.

How to Save $3,000,000,000 a Year

Coal shouldn't be shipped around the country, anyhow. Power and heat ought to be produced at the mine. Central stations scattered through the continent could thus furnish unbelievably cheap steam and electricity.

The difference in wages, transportation and distribution costs so effected may be conservatively estimated at $3,000,000,000 annually.

Consumers now pay for car-loading at the colliery, shipment to destination, unloading, dumping, reloading and delivery to his own cellar. He pays the broker's commission and the retailer's profit besides.

With a minimum of five dollars saved on each of the 600,000,000 tons produced annually in the United States, generating machinery and pipelines would soon pay for themselves.

It's just as easy to pipe steam from the mines as it is to pipe oil to and from the refineries.

Don't say it can't be done—it's being done. Thousands of buildings in Portland and New York are already served by steam factories.

Franklin K. Lane Advised and Predicted It

Franklin K. Lane advised and predicted the general inauguration of this system. His experience both as Secretary of the Interior and Interstate Commerce Commissioner brought expert opinion to the subject.

Private furnaces squander half their fuel. This waste would be prevented and an inestimable wealth of by-products obtained. Not the least of which is the vasoline substitute that Professor Charles R. Fettke has just extracted from bituminous, carbonized at low temperature.

There's no telling how many more undetected forces are escaping through national chimneys.

Helium, the New Sherlock Holmes

Coal, the jack of all substances, seems to contain everything most valuable to civilization: Drugs, sugars, oils, lubricants, dyes, heavy and light chemicals all lost up private flues.

Just as helium was wasted upon all outdoors before we discovered it in natural gas.

Congressman Julius Kahn warns America to conserve every source and every ounce of helinm.

It isn't found anywhere off the North American continent.

Helium is non-inflammable. Therefore the perfect inflatant for airships. Enemy guns can't explode it.

Canadian chemists score another beat by liquefying helium at 272 per cent. below zero. Atomic energy may itself be anaesthetized at that incredible temperature and electricity forced to confess its closest secrets.

Fire That Burns Under Water

Man can't imagine what marvels will yet come out of water, dirt and air. Since 1802, thirty-two metals whose very existence was unsuspected have been dragged from hiding and put to work. An experiment never tires of finding fresh uses for them.

On Saturday, engineers announced at Chicago the perfection of an oxygen acetylene torch for deep sea wrecking. Water can't quench the flame.

Another element conquered by human ingenuity which seems alike to vanquish any difficulty, except the human cussedness that keeps wars and coal strikes and profiteers going.

Far more significant news than the finding of a hundred Tutankhamens and their treasure troves.

(Copyright, 1923, by King Features Syndicate.)

ANONYMOUS LETTERS WICKED

By Dr. Charles Fleischer.

HAVE you ever received an anonymous letter?

Of course, you have never written one—certainly not one of the personal variety. For you could not be guilty of an act as cowardly as it is vicious and criminally insane.

Nevertheless, your imagination can sympathize with the cruel, needless sufferings which such nameless communications can impose.

Not all anonymous letters are wicked. Indeed, sometimes a writer may not have the courage of his friendliness. But, as a rule, it is the mean person who is naturally ashamed of his name as of his sentiments.

The irresponsible fostering of the anonymous word, spoken or written, is beneath the contempt of decent folks.

And yet it is impressively amazing to find how many otherwise respectable and seemingly well-meaning persons, who would not dream of writing an anonymous letter, will start or repeat a scurrilous story.

How surprisingly common the cruel gossip introduced with the leering suggestion: "Have you heard, etc., etc., or "they say that, etc., etc."

Of course, the object of such gossip should have the strength of indifference indicated in the familiar: They say—what say they?—let them say!

But better still for each of us to remember to speak well of others when we speak of them at all.

For none of us is so very good.

Mail Planes Will WearSnowshoes

WASHINGTON, Feb. 20.—The speediest and the slowest means of human locomotion will be joined when air mail planes are equipped with snowshoes, according to an announcement today.

All planes, hereafter, in Winter will carry a pair of snowshoes for the pilot. Recently Pilot Boonstra of the Western division was forced down in a snowdrift in the Rocky Mountains, near Salt Lake City.

"Now", said the announcement, "if a mail pilot mistakes a snowdrift for a cloud he just unstraps his snowshoes from the plane, fastens them to his feet and starts for the nearest town for aid."

THE VOICE OF NEW ENGLAND

No Attention Paid to Anonymous Communications

Long Tons?

Editor Boston American:

Regarding Mr. Phelan's commandments will say he certainly did break them. However, as he is considered a jolly good fellow, why not, if they find more in his coal bins than he ordered, give him the benefit of the doubt that the dealer gave him long tons instead of short ones.

A. M. PAGINGTON.

Mansfield.

Words of Wise Men

Editor Boston American:

Did Mr. James J. Phelan break his own rule or did he not? Quoting the Boston American of Wednesday, February 14, "Words From the Lips of Wise Men": "Many a man has cut his throat with his tongue."

JAMES P. KIERNAN.

Coal to Canada

Editor Boston American:

Saw you was pounding the coal question, and thinking that the people in and around Boston would be interested to know just how many cars of hard, or anthracite coal were shipped into Canada in six days over the International Bridge at Buffalo. I am sending you the following: December 22, 104; 23, 49; 24, 125; 25, 25; 26, 79; 27, 123. Total of 505 cars for the six days. From Buffalo city records, R No. 6, pages 2866-2867.

Broke His Rule

Editor Boston American:

It is plain beyond a doubt that Mr. James J. Phelan, State emergency coal administrator, broke his own fourth commandment, on two different occasions, first, on December 3, when he had ten and one-half tons of buckwheat coal delivered to his house; second, on January 24, 1923, when he bought and had delivered to his house THREE tons of range coal.

ALBERT J. QUIRION.

Embargo on Wood

Editor Boston American:

Several weeks ago a resident of one of Boston's suburbs who was a victim of the coal shortage thought he might relieve his fuel worries by putting in a supply of wood. He communicated with a brother, a resident of Norwich, and asked for a carload of wood. The wood was all cut and the farmer went to the local freight station to arrange for a car, but he was informed by the railroad authorities that there was "an embargo on cordwood."

It is difficult for the average patriot to understand why there should be an embargo on this necessity. And it is still further puzzling why an embargo exists on wood to be used as fuel and no embargo prevails on the shipment of pulpwood for paper-making purposes. These are facts.

THE HELPING HAND

Do Not Inclose Stamps. Letters Will Not Be Answered Personally. No Attention Paid to Telephone Calls

Eight Children

Editor Helping Hand:

I am a girl of fifteen, oldest of eight children. My mother wishes to take the baby boy to the hygiene station. He is not very well. She has no carriage and no warm clothes. I wonder if some kind reader could give her a used baby carriage and some warm clothes. We should be very glad. The baby is four months old. Please do not forget that the baby looks worst and worst.

J. E. M.

Wants Light Work

Editor Helping Hand:

Your department has done so much good for others I thought perhaps some one might be able to help me. I am a poor consumptive, looking for some light work. I am a graduate of high school and was working in a large office when I was taken sick. If someone has a typewriter and has no further use for it, I would be very grateful if they would lend it to me. I could probably get some typewriting to do at home, and then could buy myself a typewriter after a while. I am willing to do anything that isn't too heavy. MISS A. T. M.

Many Bills to Pay

Editor Helping Hand:

I am a young woman in need of some kind of employment. I have had a number of operations, and my husband has also been sick, so that I have lots of bills to pay. I wonder if some one would like me to take care of their children during the day, or I would take orders for home cooking, or would do clerical work, or anything of the sort.

G. L. L.

Shorthand Book

Editor Helping Hand:

Has anyone a Gregg shorthand book they would like to give away? I have a woman's coat, size 42. I would like some worthy person to have. Also some boots, size 5, woman's.

MRS. L. P.

ED. NOTE—The address of a woman in need of the coat and shoes will be sent you.

WORDS FROM THE LIPS OF WISE MEN

LIVE to love and you will love to live.

* * *

It is much easier to be critical than to be correct.

* * *

The best reward of a kindly deed is the knowledge of having done it.

* * *

He that is courteous at all, will be courteous to all.

* * *

The woman who talks about her neighbors is no worse than she who listens.

* * *

No really great man ever thought himself great.

* * *

He that grasps at too much holds nothing fast.

* * *

No wind can do him good who steers for no port.

* * *

Better a blush in the face than a spot in the heart.

* * *

The moment the skill of the artist is perceived the spell of the art is broken.

* * *

In taking revenge a man is but even with his enemy, but in passing it over he is superior.

* * *

If men loved to be deceived about their spiritual estate, they could not take a surer course than by taking their neighbor's word for that which can be known only from their own heart.

* * *

Some read to think—these are rare; some to write—these are common, and some to talk—and these form the great majority.

Dickens' Home a Memorial

LONDON, Feb. 20.—Lovers of Dickens will be interested to hear that the Dickens Fellowship, which recently acquired the author's old house, No. 48 Doughty street, London, W. C., are planning to make it a permanent and valuable memorial.

According to the latest number of the "Dickensian," the council hope to establish there: The finest Dickens library in the world, where all the editions of his works, and copies of magazines dealing with biography or critically with his work, will be found.

A museum of relics and valuables associated with the novelist and his books.

A picture gallery of the works of the famous artists associated with him.
